DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

Community Conservation Partnerships Program Grants; Preapplication Workshops

The Department of Conservation and Natural Resources (Department) announces an open application period for the Community Conservation Partnerships Program Grants administered by the Bureau of Recreation and Conservation (Bureau). The open application period will officially begin July 10, 2004, and end at 5 p.m. on October 13, 2004. Funding for recreation and conservation programs, including Community Recreation, Land Trusts, Rails-to-Trails, Rivers Conservation, Pennsylvania Recreational Trails, Snowmobile/ATV and Land and Water Conservation Fund, will be the focus of nine workshops and break-out sessions scheduled at the following locations throughout this Commonwealth during July and August 2004.

July 13, 2004	Days Inn Conference Center, Meadville	8:30 a.m.-12 p.m.
July 14, 2004	Four Points Sheraton—North, Pittsburgh	8:30 a.m.-12 p.m.
July 20, 2004	The Inn at Nichols Village, Clarks Summit	8:30 a.m.-12 p.m.
July 21, 2004	Montgomery County Comm. College, Pottstown	8:30 a.m.-12 p.m.
July 22, 2004	Montgomery County Fire Academy, Conshohocken	8:30 a.m.-12 p.m.
July 27, 2004	Radisson Hotel, Williamsport	8:30 a.m.-12 p.m.
July 29, 2004	Clarion Hotel and Convention Center, Carlisle	8:30 a.m.-12 p.m.
August 4, 2004	Holiday Inn, Clarion	8:30 a.m.-12 p.m.
August 5, 2004	Ramada Inn, Altoona	8:30 a.m.-12 p.m.

The Grant Application Manual (Manual) for fiscal year 2004-2005 as well as forms and additional information regarding the directions to the workshops can be found on the Department's website: www.dcnr.state.pa.us/grants. The Manual can be obtained by contacting the Department of Conservation and Natural Resources, Bureau of Recreation and Conservation, 6th Floor Rachel Carson Building, P.O. Box 8475, Harrisburg, PA 17105-8475, (717) 783-4734, rec&con@state.pa.us. The Bureau will conduct the workshops in cooperation with the Pennsylvania Recreation and Park Society.

Persons with a disability who wish to submit an application and require assistance should contact Darrel Siesholtz at the phone number listed previously to discuss how the Department may best accommodate their needs. Voice/TTY users should call (800) 654-5984.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Applications, Actions and Special Notices

APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a general permit. The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

II. Applications for New or Expanded Facility Permits, Renewal of Major Permits and EPA Nonwaived Permit Applications

Southeast Region: Water Management Program Manager, 2 East Main Street, Norristown, PA 19401.

PA0042641, Sewage, **Department of Conservation and Natural Resources, Nockamixon State Park**, 1542 Mountain View Drive, Quakertown, PA 18951. This application is for renewal of an NPDES permit to discharge treated sewage from the Nockamixon State Park STP in Bedminster Township, **Bucks County**. This is an existing discharge to unnamed tributary to Tohickon Creek.

The receiving stream is classified for CWF, aquatic life, water supply and recreation.

The proposed effluent limits for Outfall 001, based on an average flow of 0.2 MGD, are as follows:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
CBOD ₅ (5-1 to 10-31)	20	40
(11-1 to 4-30)	25	50
Suspended Solids	30	60
Ammonia (as N) (5-1 to 10-31)	2.0	4.0
(11-1 to 4-30)	6.0	12.0
Fecal Coliform	200 colonies/100 ml as a geometric average	
Dissolved Oxygen	minimum of 5.0 mg/l at all times	
pH	within limits of 6.0—9.0 standard units at all times	
Total Residual Chlorine	0.5	1.2

Other Conditions: conditions for future permit modification.

The EPA waiver is in effect.

Southwest Region: Water Management Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

PA0002925, Industrial Waste, SIC, 4911, **Allegheny Energy Supply Company, LLC**, 4350 Northern Pike, Monroeville, PA 15146-2841. This application is for renewal of an NPDES permit to discharge treated process water and untreated cooling water and stormwater from the Springdale Power Station in Springdale Township, **Allegheny County**.

The following effluent limitations are proposed for discharge to the receiving waters, Allegheny River, classified as a WWF with existing and/or potential uses for aquatic life, water supply and recreation. The first existing/proposed downstream potable water supply is the Oakmont Borough Municipal Authority, 721 Allegheny Avenue, 4.2 miles below the discharge point.

Outfall 101: existing discharge, design flow of 0.1 mgd.

<i>Parameter</i>	<i>Mass (lb/day)</i>		<i>Concentration (mg/l)</i>		
	<i>Average Monthly</i>	<i>Maximum Daily</i>	<i>Average Monthly</i>	<i>Maximum Daily</i>	<i>Instantaneous Maximum</i>
Flow	Monitor and Report				
TSS			30	100	
Oil and Grease			15	20	
pH	not less than 6.0 nor greater than 9.0				

Outfall 201: existing boiler blowdown discharge to Outfall 001.

<i>Parameter</i>	<i>Mass (lb/day)</i>		<i>Concentration (mg/l)</i>		
	<i>Average Monthly</i>	<i>Maximum Daily</i>	<i>Average Monthly</i>	<i>Maximum Daily</i>	<i>Instantaneous Maximum</i>
Flow	Monitor and Report				
TSS			30	100	
Oil and Grease			15	20	
Since Springdale Power Station is in "Cold Reserve," there should not be any discharge of boiler blowdown from this outfall. See Item No. 2 in Part C of the Permit.					
pH	not less than 6.0 nor greater than 9.0				

Outfall 001: existing discharge to Allegheny River,

<i>Parameter</i>	<i>Mass (lb/day)</i>		<i>Concentration (mg/l)</i>		
	<i>Average Monthly</i>	<i>Maximum Daily</i>	<i>Average Monthly</i>	<i>Maximum Daily</i>	<i>Instantaneous Maximum</i>
Flow	Monitor and Report				
Total Residual Chlorine				0.2	
Temperature (°F)				110	
This outfall is only authorized to receive and discharge wastewater from internal monitoring point 101, while the Springdale Power Station is in "Cold Reserve" status. See Item Nos. 2, 6 and 9 in Part C of the permit.					
pH	not less than 6.0 nor greater than 9.0				

Outfall 002: existing intake screen backwash discharge to the Allegheny River.

<i>Parameter</i>	<i>Mass (lb/day)</i>		<i>Concentration (mg/l)</i>		
	<i>Average Monthly</i>	<i>Maximum Daily</i>	<i>Average Monthly</i>	<i>Maximum Daily</i>	<i>Instantaneous Maximum</i>

The debris collected on the intake screen shall not be returned to the waterway.

Other Conditions: The Springdale Power Station has been "Cold Reserve" status since 1984.

The EPA waiver is not in effect.

PA0098230, Sewage, **Fort Cherry Area School District**, 110 Fort Cherry Road, McDonald, PA 15057. This application is for renewal of an NPDES permit to discharge treated sewage from the Fort Cherry Jr./Sr. High School and Elementary School STP in Mt. Pleasant Township, **Washington County**.

The following effluent limitations are proposed for discharge to the receiving waters, known as Cherry Run, which are classified as a WWF with existing and/or potential uses for aquatic life, water supply and recreation. The first downstream potable water supply intake from this facility is the Midland Borough Water Authority.

Outfall 001: existing discharge, design flow of 0.02 mgd.

PUBLIC WATER SUPPLY (PWS) PERMIT

Under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17), the following parties have applied for a PWS permit to construct or substantially modify a public water system.

Persons wishing to comment on a permit application are invited to submit a statement to the office listed before the application within 30 days of this public notice. Comments received within the 30-day comment period will be considered in the formulation of the final determinations regarding the application. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of Environmental Protection (Department) of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and any related documents are on file at the office listed before the application and are available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability who require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup

standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Southeast Region: Environmental Cleanup Program Manager, 2 East Main Street, Norristown, PA 19401.

Shelly Plaza Shopping Center, City of Philadelphia, **Philadelphia County**. Samuel Kucia, Environmental Consulting Inc., 500 East Washington Street, Norristown, PA 19401 on behalf of Michael Willner, Willner Realty and Development Company, 140 South 69th St., Upper Darby, PA 19082 has submitted a Notice of Intent to Remediate. Groundwater at the site has been impacted by other organics and will be used for future commercial use.

JD Byrider Inc., City of Philadelphia, **Philadelphia County**. Soil and groundwater are impacted with no. 2 fuel oil, chlorinated solvents, lead, polyaromatic hydrocarbons and other organic chemicals. Proposed future use for the property will be residential. NIR was published in the *New Castle News* on October 10, 2003.

MUNICIPAL WASTE GENERAL PERMITS

Applications Received under the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003), the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P. S. §§ 4000.101—4000.1904) and municipal waste regulations for a general permit to operate municipal waste processing facilities and the beneficial use of municipal waste.

Central Office: Division of Municipal and Residual Waste, Rachel Carson State Office Building, 14th Floor, 400 Market Street, Harrisburg, PA 17105-8472.

General Permit Application No. WMGM027. Zwicky Processing & Recycling, Inc., 10 Zwicky Lane, Robesonia, PA 19551-8880.

The Bureau of Land Recycling and Waste Management has received an application for General Permit No. WMGM027. The application is for: (1) processing (that is, shredding, grinding, screening, mixing, decomposition and storage) and beneficial use of wood waste (clean and uncontaminated land clearing, grubbing and excavation waste, yard waste and residual and municipal wood scrap) to produce mulch for landscaping purposes; (2) processing (that is, shredding, grinding, screening, mixing and storage prior to beneficial use) and beneficial use of leaf and yard waste, food processing residuals and spent mushroom substrate to produce compost; (3) processing, storage and beneficial use of organic, nonorganic residuals with a Btu value of at least 5,000/lb for use as alternative fuels; (4) processing (that is, shredding, grinding, screening and storage prior to beneficial use) and beneficial use of compost, drinking water treatment plant sludge, biomass fuel ash, waste gypsum, foundry sand and SMS with nonwaste soils to produce topsoil for landscaping purposes; and (5) processing (that is, crushing, grinding, screening, mixing and storage) and beneficial use of clean, uncontaminated rock, stone, gravel, brick, block, concrete and used asphalt for use as a construction material solely by Zwicky. The Department determined the application to be administratively complete on June 25, 2004.

Comments concerning the application should be directed to Ronald C. Hassinger, Chief, General Permits and Beneficial Use Section, Division of Municipal and Residual Waste, Bureau of Land Recycling and Waste Management, P. O. Box 8472, Harrisburg, PA 17105-8472. Persons interested in obtaining more information about the general permit application should contact the Division at (717) 787-7381. TDD users should contact the Department through the Pennsylvania Relay Service, (800) 654-5984. Public comments must be submitted within 60 days of this notice and may recommend revisions to and approval or denial of the application.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one

time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Ronald Davis, New Source Review Chief, (717) 705-4702.

21-05013A: Fry Communications, Inc. (800 West Church Road, Mechanicsburg, PA 17055) for installation of a ten-unit quadruple-web heatset web offset printing press controlled by a regenerative thermal oxidizer at their Building No. 2 facility (Plant No. 1) in Mechanicsburg Borough, **Cumberland County**.

28-03025A: Wenger's Feed Mill, Inc. (P. O. Box 26, Rheems, PA 17570-0026) for construction of two pellet mills and a high efficiency cyclone system for their Shippensburg Mill, Southampton Township, **Franklin County**.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701; David Aldenderfer, Program Manager, (570) 327-3637.

53-00003B: National Fuel Gas Supply Corp. (P. O. Box 2081, Erie, PA 16512) for modification of a 4,445 horsepower natural gas-fired reciprocating internal combustion compressor engine (Engine 1A) by increasing its allowable formaldehyde (an HAP) emission rate from .991 pound per hour to 2.25 pounds per hour at the Ellisburg Compressor Station in Allegany Township, **Potter County**.

Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745; William Charlton, New Source Review Chief, (412) 442-4174.

56-00292A: Elk Lick Energy, Inc. for installation of dry-screening operation at Roytown Deep Mine in Lincoln Township, **Somerset County**.

04-00108B: Armstrong World Industries (13th Street and 10th Avenue, P. O. Box 441, Beaver Falls, PA 15010) for installation of a paint booth and a 5.5 mmBtu/hr backcoat drying oven at their Beaver Falls Ceiling Plant in Beaver Falls in **Beaver County**.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790; Mark Wejkszner, New Source Review Chief, (570) 826-2531.

39-316-004: North American Container Corp. (2027 South 12th Street, Building 3, Allentown, PA 18103) for construction of a wood sawing operation and associated air cleaning device at their facility in the City of Allentown, **Lehigh County**. The facility is a non-Title V (State-only) facility. The operation of the wood sawing operation will result in 0.99 ton per year of particulate emissions. The plan approval and operating permit will include emission restrictions, work practice standards and recordkeeping requirements designed to keep the source operating within all applicable air quality requirements.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Ronald Davis, New Source Review Chief, (717) 705-4702.

07-05027A: Millennium Rail, Inc. (US Route 22, Hollidaysburg, PA 16648) for replacement of a fabric collector in Frankstown Township, **Blair County**. This is a non-Title V (State-only) facility. Standard recordkeeping and operating restrictions will be included to keep the facility operating within all applicable air quality requirements.

Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745; William Charlton, New Source Review Chief, (412) 442-4174.

04-00084A: Anchor Hocking Operating Co., LLC (400 Ninth Street, Monaca, PA 15061) for issuance of a Plan Approval to allow an increase in the allowable production rate in furnace no. 2 at their company's glass manufacturing facility in Monaca, **Beaver County**.

Under 25 Pa. Code §§ 127.44—127.48, the Department intends to issue a Plan Approval to allow an increase in

the allowable production rate in furnace no. 2 at their company's glass manufacturing facility in Monaca, Beaver County. Throughput will be going from 175 tons of glass pulled per day to 214 tons per day on a 30-day rolling average basis. Annual emissions from furnace no. 2 have been estimated at 41.3 tons PM, 132.8 tons SO_x, 195.3 tons NO_x, 7.9 tons CO and 7.9 tons of nonmethane VOCs. The facility is subject to the operational, monitoring, recordkeeping, testing and reporting requirements established under the authority of 25 Pa. Code Chapter 127 and the Plan Approval has been conditioned accordingly. Copies of the Plan Approval application, the Department's analysis and the proposed Plan Approval are available for public inspection during normal business hours at the following address.

Persons wishing to oppose the plan approval may file written comments. A 30-day comment period, from the date of this publication, will exist for the submission of protests. Written comments must contain the name, address and telephone number of the person filing the comment, identification of proposed Plan Approval PA-04-00084B and a concise statement of the objections to the Plan Approval issuance and relevant facts upon which the objections are based.

A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting written comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the *Pennsylvania Bulletin*, or by telephone, when the Department determines notification by telephone is sufficient. Written comments or request for a public hearing should be directed to Barbara Hatch, Air Pollution Control Engineer, Department of Environmental Protection, Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-4000. This is a Title V facility.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481; Devendra Verma, New Source Review Chief, (814) 332-6940.

37-323A: IA Construction Corp. (Neely Mine, Plain Grove Township, Slippery Rock, PA 16057) for post-construction plan approval of a permanent 350 tph nonmetallic crushing/screening plant at a permitted noncoal surface mining operation in Plain Grove Township, **Lawrence County**.

In accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), the Department intends to issue a plan approval for post construction plan approval of a permanent 350 tph nonmetallic crushing/screening plant at a permitted noncoal surface mining operation in Plain Grove Township, Lawrence County. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into a State-only operating permit through an administrative amendment at a later date.

10-344A: Fannie's Friends, Inc. (352 Railroad Street, Evans City, PA 16033) to construct a new pathological waste incinerator for small animal remains in Evans City, **Butler County**.

In accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), the Department intends to issue a plan approval to construct a new pathological waste incinerator for small animal remains in Evans City, Butler County. This plan approval will ensure compliance with Best Available Technology. This includes operating the secondary chamber at 1,800°F, meeting an emission standard of 0.08 gr/dscf and visible emission standards. The facility will be required to continuously monitor the

temperatures of the primary and secondary chambers. The maximum feed rate shall not exceed 130 pounds per hour. Recordkeeping conditions and other requirements to ensure the source is operated in compliance with the Department's regulations contained in 25 Pa. Code Chapters 121—143 and the requirements of the Federal Clean Air Act will be incorporated into the plan approval. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into a State-only Operating Permit through an administrative amendment at a later date. Issuance of the plan approval is recommended with the appropriate conditions in the plan approval.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter G.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790; Mark Wejkszner, New Source Review Chief, (570) 826-2531.

35-00006: Global MetalForm LP—Suckle Corp. (733 Davis Street, Scranton, PA 18505) for operation spray booths and associated air-cleaning devices at their facility in the City of Scranton, **Lackawanna County**. This action is a renewal of the Title V Operating Permit issued in 1998.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Ronald Davis, New Source Review Chief, (717) 705-4702.

67-05105: Trenwyth Industries, Inc. (One Connelly Road, Emigsville, PA 17318) for operation of an architectural concrete block manufacturing facility in Manchester Township, **York County**. The facility's major PM emission sources are materials handling and block shaping. The decorative coatings and solvents used to finish the shaped blocks produce VOC and HAP emissions. The Title V operating permit will contain monitoring, recordkeeping and reporting provisions to ensure the facility complies with the applicable air quality requirements.

Department of Public Health, Air Management Services: 321 University Avenue, Philadelphia, PA 19104; Edward Braun, Chief, (215) 823-7584.

V03-004: The Children's Hospital of Philadelphia (34th and Civic Center Boulevard, Philadelphia, PA 19104) for operation of a hospital in the City of Philadelphia, **Philadelphia County**. The Title V facility's air emission sources include three 800 hp boilers, three 500 hp boilers, a 250 hp boiler, four 1,085 hp peak-shaving generators, seven emergency generators and two ethylene oxide sterilizers which vent to an ethylene oxide abator.

The operating permit will be issued under 25 Pa. Code, Philadelphia Code Title 3 and Air Management Regulation XIII. Permit copies and other supporting information are available for public inspection at the AMS, 321 University Ave., Philadelphia, PA 19104. For further information, contact Edward Wiener, (215) 685-9426.

Persons wishing to file protests or comments on the operating permit must submit the protests or comments within 30 days from the date of this notice. Protests or comments filed with the AMS must include a concise statement of the objections to the permit issuance and the relevant facts upon which the objections are based. Based upon the information received during the public comment period, the AMS may modify the operating permit or schedule a public hearing. The hearing notice will be

published in the *Pennsylvania Bulletin* and a local newspaper at least 30 days before the hearing.

Intent to Issue Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter F.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Ronald Davis, New Source Review Chief, (717) 705-4702.

07-03033: James E. Van Zandt, VA Medical Center (2907 Pleasant Valley Boulevard, Altoona, PA 16602) for operation of their three Cleaver Brooks boilers and two emergency generators in Logan Township, **Blair County**. The State-only operating permit will include monitoring, recordkeeping, reporting requirements, emission restrictions and work practice standards designed to keep the facility operating within all applicable air quality requirements.

21-05048: Lear Operations Corp. (P. O. Box 40, 50 Spring Road, Carlisle, PA 17013) for a synthetic minor permit to operate automotive carpet and backing operations in Carlisle Borough, **Cumberland County**. The sources include two natural gas or no. 2 oil fired boilers, 57.4 mmBtu/hr each, extruders, dryers, automolds and reheat tables. The primary emissions from the sources are NOx, SOx and VOCs. This permit will contain monitoring, recordkeeping and reporting requirements designed to keep the facility operating within the applicable air quality requirements.

22-03063: Chemetron Railway Products, Inc. (Progress Rail Services, 1185 Industrial Blvd., Boaz, AL 35957) for a railway track welding operation in Steelton Borough, **Dauphin County**. The rail welding unit is controlled by a cartridge type dust collector. The primary emission from the source is PM. The State-only operating permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

67-03125: York Hospital (P. O. Box 15198, York, PA 17405) for operation of hospital in York City, **York County**. The facility has the following annual potential emissions: 30 tons NOx, 18 tons SOx, 6 tons CO, 2 tons PM10 and 1 ton VOC. The State-only operating permit will include emission restrictions, work practice standards and testing, monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

67-05104: Tate Access Floors, Inc. (52 Springvale Road, Red Lion, PA 17356) for operation of their manufacturing facility in Windsor Township, **York County**. This action will issue a Synthetic Minor (State-only) Operating Permit. The facility's emissions include 16 tpy of VOCs and 4 tpy of HAPs from surface coating operations. Insignificant emissions will be generated from the combustion of natural gas in a 4.5 mmBtu boiler, small heaters and small ovens. The operating permit contains monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481; Eric Gustafson Facilities Permitting Chief, (814) 332-6940.

10-00220: ESM II, Inc.—Myoma Plant (130 Myoma Road, Mars, PA 16046) for a Natural Minor Operating Permit for emissions from the processing of specialty mineral products for metallurgical uses in Adams Township, **Butler County**.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

Coal Applications Received

Effluent Limits—The following coal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to: (1) surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas, active areas disturbed by coal refuse disposal activities and mined areas backfilled and revegetated; and (2) drainage (resulting from a precipitation event of less than or equal to a 1-year 24-hour event) from coal refuse disposal piles.

Latrobe, PA 15650), permit renewal for reclamation only in Jenner Township, **Somerset County**, affecting 140.0 acres. Receiving streams: unnamed tributaries to and Gum Run; unnamed tributaries to and Roaring Run (EV). The first downstream potable water supply intake from the point of discharge is the Cambria Somerset Authority Quemahoning Dam withdrawal. Application received June 10, 2004.

11850107 and NPDES Permit No. PA0597341. Cooney Brothers Coal Company (P. O. Box 246, Cresson, PA 16630), permit transfer to AMFIRE Mining Company, LLC (One Energy Place, Latrobe, PA 15650) in Portage Township, **Cambria County**, affecting 85.7 acres. Receiving streams: unnamed tributary to and Spring Run; unnamed tributary to and Trout Run (CWF). The first downstream potable water supply intake from the point of discharge is the Cambria Somerset Authority Little Conemaugh River surface water intake. Application received June 7, 2004.

11940106 and NPDES Permit No. PA0212881. Sky Haven Coal, Inc. (R. D. 1, Box 180, Penfield, PA 15849), permit renewal for reclamation only in White Township, **Cambria County**, affecting 142.4 acres. Receiving streams: unnamed tributaries to Dutch Run, Dutch Run to Beaver Dam Run to Clearfield Creek (CWF). There are no potable water supply intakes within 10 miles downstream. Application received June 14, 2004.

32040103 and NPDES Permit No. PA0249572. Amerikohl Mining, Inc. (202 Sunset Drive, Butler, PA

16001), commencement, operation and restoration of a bituminous surface mine in Young Township, **Indiana County**, affecting 150 acres. Receiving streams: three unnamed tributaries to Neal Run and Neal Run to Reeds Run to Aultmans Run (CWF and TSF). There are no potable water supply intakes within 10 miles downstream. Application received June 15, 2004.

Greensburg District Mining Office: Armbrust Building, R. R. 2 Box 603-C, Greensburg, PA 15601-0982, (724) 925-5500.

26040103 and NPDES Permit No. PA0250589. Amerikohl Mining, Inc. (P. O. Box 427, Acme, PA 15610), an application for commencement, operation and restoration to a bituminous surface mine in German Township, **Fayette County**, affecting 201.4 acres. Receiving streams: unnamed tributaries to Cat's Run (WWF). The potable water supply intakes within 10 miles downstream from the point of discharge are Masontown Water Works, Carmichaels Municipal Authority and Southwestern Pennsylvania Water Authority. Application received June 15, 2004.

Noncoal Applications Received

Effluent Limits—The following noncoal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

*The parameter is applicable at all times.

A settleable solids instantaneous maximum of 0.5 ml/l applied to surface runoff resulting from a precipitation event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

Knox District Mining Office: White Memorial Building, P. O. Box 669, Knox, PA 16232-0669, (814) 797-1191.

10010309 and NPDES Permit No. PA0241938. Annandale Sandstone (210 Goff Station Road, Boyers, PA 16020), revision to an existing sandstone operation in Venango Township, **Butler County**, affecting 17.6 acres. Receiving streams: unnamed tributary to Seaton Creek (CWF). There are no potable surface water supply intakes within 10 miles downstream. Revision to add 1.6 acres for support activities. Application received June 24, 2004.

6854-10010309-E-1. Annandale Sandstone (210 Goff Station Road, Boyers, PA 16020), application for a stream encroachment to mine within 100 feet of unnamed tributary A to Seaton Creek approximately 200 feet south of Township Road T-649—Goff Station Road. Receiving streams: unnamed tributary to Seaton Creek (CWF). There are no potable surface water supply intakes within 10 miles downstream. Application received June 24, 2004.

restoration of a small industrial minerals (topsoil, sand and gravel) permit in Nelson Township, **Tioga County**, affecting 5 acres. Receiving streams: Cowanesque, tributary to north branch Susquehanna River. Application received June 3, 2004.

08040807. Kim L. Mapes (704 S. Fourth Street, Towanda, PA 18848), commencement, operation and restoration of a small industrial minerals (bluestone) permit in Standing Stone Township, **Bradford County**, affecting 2 acres. Receiving streams: unnamed tributary to Susquehanna River. Application received June 3, 2004.

41940801. Vernice Vaughn (2657 Bottle Run Road, Williamsport, PA 17701), transfer of an existing small industrial minerals (shale) permit from Wilbur C. Vaughn, Jr. in Old Lycoming Township, **Lycoming County**, affecting 1 acre. Receiving streams: Bottle Run, tributary to Lycoming Creek. Application received June 4, 2004.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the State to certify that the involved projects will not violate the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33

U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA or to the issuance of a Dam Permit, Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment must submit comments, suggestions or objections within 30 days of the date of this notice, as well as questions, to the regional office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Individuals will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on each working day at the regional office noted before the application.

Persons with a disability who wish to attend a hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and requests for certification under section 401 of the FWPCA (33 U.S.C.A. § 1341(a)).

WATER OBSTRUCTIONS AND ENCROACHMENTS

To remove the existing Bridge No. 236 and then to construct and maintain a 40-foot prestressed concrete spread box beam bridge with reinforced concrete deck, abutments and wingwalls at a point where Ridge Road crosses the North Branch of Bermudian Creek (WWF) (Dillsburg, PA Quadrangle N: 6.0 inches; W: 7.0 inches) in Franklin Township, York County.

E36-782: Cedar Acres East, Inc., 1271 Lititz Pike, Lancaster, PA 17601 in Lancaster City, **Lancaster County**, ACOE Baltimore District.

To construct and maintain: (1) a restoration of the floodplain corridor; (2) a minor stream relocation to protect an existing sewer system; and (3) a minor stream crossing of UNT to Conestoga River (WWF) (Lancaster, PA Quadrangle Latitude: 40° 02' 42", Longitude: 76° 16' 20") in Lancaster City, Lancaster County.

E34-113: Department of Transportation, District 2-0, 1924-30 Daisy Street, P. O. Box 342, Clearfield, PA 16830 in Lack Township, **Juniata County**, ACOE Baltimore District.

To remove the existing two-span bridge and then to construct and maintain a three-span concrete bridge with a total span of 195 feet on an average skew of 36.82 degrees with a minimum underclearance of 10.6 feet across Tuscarora Creek (CWF) on SR 3025, Section A01, Segment 0010, Offset 2538 and related improvements to realign and improve traffic safety about 0.6 mile north of the Village of Waterloo (Blairs Mills, PA Quadrangle N: 8.45 inches; W: 10.1 inches) in Lack Township, Juniata County.

E44-123: United States Department of Interior, Fish and Wildlife, 315 South Allen Street, Suite 322, State College, PA 16801 in Union Township, **Mifflin County**, ACOE Baltimore District.

To construct and maintain a stream rehabilitation project on Little Kishacoquillas Creek (CWF, perennial), beginning at the confluence of Little Kishacoquillas Creek and Kishacoquillas Creek (Belleville, PA Quadrangle N: 18.3 inches; W: 13.9 inches) and extending to a point approximately 2,250 feet upstream (Belleville, PA Quadrangle N: 19.05 inches; W: 14.05 inches) using a natural stream channel design approach involving floodway excavation, filling and grading, minor channel relocation, the placement of cross vanes, J-hook vanes, mud sills and random boulders for the purpose of eliminate existing channelization, reducing sediment aggradation, improving aquatic habitat and to establish a riparian buffer in Union Township, Mifflin County. The project proposes to directly affect 2,250 linear feet of the channel of Little Kishacoquillas Creek.

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701, (570) 327-3636.

E53-397. Samuel M. Crossley III, 665 North Hollow Road, Coudersport, PA 16915-8156. Crossley minor road crossing North Hollow Run in Sweden Township, **Potter County**, ACOE Pittsburgh District (Sweden Valley, PA Quadrangle N: 7.25 inches; W: 8.00 inches).

To remove an existing single cell culvert and construct, operate and maintain a single span bridge to carry a private road across North Hollow Run (HQ-CWF) to provide continued agricultural equipment access. The single span bridge shall be constructed with a minimum 7-foot span, 4.5-foot underclearance and 16-foot width. All construction and future work shall be conducted at stream low flow. As proposed, the project will not impact wetlands while impacting 50 feet of waterway. The project is along the western right-of-way of SR 4013 approximately 3,225 feet south of SR 1002 and SR 4013 intersection. This permit does not authorize any temporary or permanent wetland impacts, and as such, the permittee shall ensure no wetland impacts result from the removal of the existing culvert or construction of the proposed road crossing.

ACTIONS

**THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT
FINAL ACTIONS TAKEN FOR NATIONAL POLLUTION DISCHARGE
ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY
MANAGEMENT (WQM) PERMITS**

The Department of Environmental Protection (Department) has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and Notices of Intent (NOI) for coverage under general permits. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal wastes; discharges to groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

Sections I—VI contain actions related to industrial, animal or sewage wastes discharges, discharges to groundwater and discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities and concentrated animal feeding operations (CAFOs). Section VII contains notices for parties who have submitted NOIs for coverage under general NPDES permits. The approval for coverage under general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in each general permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. Permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY (PWS) PERMITS

The Department of Environmental Protection has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

**HAZARDOUS SITES CLEANUP
UNDER THE ACT OF OCTOBER 18,
1988**

Proposed Consent Decree

**William Taylor Estate Site, Wheatland Borough,
Mercer County**

Under section 1113 of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. § 6020.1113), notice is provided that the Department of Environmental Protection (Department) has agreed to a Consent Decree (CD) with Viacom, John Maneely Company, Grimes Aerospace Company and AK Steel Corporation (Settlers) concerning the Department's response costs at the William Taylor Estate Site (Site). The property containing the Site is approximately 42 acres. The Site is an approximately 12-acre portion of the property and is the portion formerly utilized as a mixed waste landfill in a residential/industrial area in Wheatland Borough, Mercer County. The landfill operated at the Site from approximately 1958 until mid 1970s and accepted industrial wastes containing hazardous substances from several industrial-manufacturing operations.

These wastes and other materials containing hazardous substances were dumped, spilled or otherwise disposed at the Site and these hazardous substances contaminated the soils and sediments at the Site. These substances are defined in section 103 of the HSCA (35 P. S. § 6020.103) as a "hazardous substance." The presence of these hazardous substances at the property constitutes a "release" and a "threat of release" of a hazardous substance, as defined in section 103 of the HSCA.

Two response actions were conducted at the Site. In 1991, the Department implemented an Interim Response at the Site that included, among other things, erection of a fence to control access to known areas of contamination. In 1996 and 1997, the Department's contractors conducted a Final Site Characterization and Engineering Evaluation/Cost Analysis Report (EE/CA Study) for the Site. The EE/CA Study indicated further response was needed at the Site to help abate risks to human health and the environment posed by hazardous substances at the Site. In 1998, the Settlers implemented a Remedial Response (Response) at the Site to help abate those risks. That Response included, among other things, excavation and consolidation of areas of contamination, followed by capping, then regrading with an extension and maintenance of the fence installed in 1991.

The Settlers have agreed to pay \$440,000 of the Department's past costs, plus accrued interest, and transfer title of the property containing the Site to the Wheatland Conservation Authority, which has agreed to maintain the property for the public benefit. The specific terms of this settlement are set forth in the CD with the Settlers. The Department will receive and consider comments relating to the CD for 60 days from the date of this public notice. The Department has the right to withdraw its consent to the CD if the comments concerning the CD disclose facts or considerations which indicate that the CD is inappropriate, improper or not in the public interest. After the public comment period, assuming that no significant objections to the CD have been submitted or appeal from the CD filed, the Department will ask presiding Judge John C. Reed of the Mercer County Court

of Common Pleas to execute the CD as an Order of the Court, at which point the CD will be deemed effective.

The CD is available for inspection and copying at the Department's office at 230 Chestnut Street, Meadville, PA and at the offices of the Honorable Judge John C. Reed, Mercer County Court of Common Pleas, Mercer County Courthouse. Comments may be submitted, in writing, to Mark Gorman, Program Manager, Northwest Regional Office, 230 Chestnut Street, Meadville, PA 16335, (814) 332-6648. TDD users should contact the Department through the Pennsylvania Relay Service at (800) 645-5984.

**Settlement under the Comprehensive
Environmental Response, Compensation and
Liability Act and the Hazardous Sites Cleanup Act**

**Whitmoyer Laboratories Superfund Site, Jackson
Township, Lebanon County**

The Department, under the authority of the HSCA (35 P. S. §§ 6020.101—6020.1305), the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C.A. §§ 9601—9675) and section 1917-A of The Administrative Code of 1929 (71 P. S. § 510-17), has entered into a proposed settlement with Jackson Township, Lebanon County and the Jackson Township Recreational Authority (Settlers).

The proposed settlement resolves claims of the Department with the Settlers under the HSCA and CERCLA for response costs, as defined in the HSCA and CERCLA, for the Whitmoyer Laboratories Superfund Site (Site).

Based upon information that the Department has obtained concerning the Settlers and the Site and based upon the information certified by the Settlers in this Consent Order and Agreement (COA), the Department has determined that the Settlers did not: (1) conduct or permit the generation, transportation, storage, treatment or disposal of any hazardous substances at the Site; (2) contribute to the release or threatened release of hazardous substances at the Site through any act or omission; and (3) contribute any hazardous substances to the Site and thus both the amount and toxicity of Settlers' contribution to the Site is "minimal."

The Department believes that the COA is fair, reasonable, practicable, in the public interest and in furtherance of the statutory goals of the HSCA and CERCLA. Upon signing this COA and in payment of Response costs, the Settlers shall remit \$1 to the Department.

For a 60-day period, from the date of this publication, the public is invited to review the COA, Monday through Friday, from 8 a.m. to 4 p.m. at the Department of Environmental Protection, 909 Elmerton Avenue, Harrisburg, PA 17110 by contacting Richard Morgan, (717) 705-4844.

After review, the public may submit written comments on the COA before September 8, 2004, by sending them to Richard Morgan at the Department's Southcentral Region Office at the address previously noted. A person adversely affected by the settlement may also file an appeal from the COA to the Environmental Hearing Board.

Questions concerning this notice should be directed to Richard Morgan.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Northeast Regional Field Office, Joseph A. Brogna, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, (570) 826-2511.

ExxonMobil Penn Forest Pipeline—Carbon Valve Station, Towamensing Township, **Carbon County**. Jennifer L. Huha, P. G., Groundwater and Environmental Services, Inc., 410 Eagleview Blvd., Suite 110, Exton, PA 19341 has submitted a combined Remedial Investigation Report and Final Report (on behalf of ExxonMobil Refining and Supply Co., 17725 Esprit Drive, Tampa, FL 33647) concerning the remediation of soils and groundwater found to have been contaminated with unleaded gasoline. The report was submitted to demonstrate attainment of both the Site-Specific and Statewide Health Standards.

Southcentral Region: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

GROWMARK FS, Inc., Leesport Borough, **Berks County**. ERM, Inc., 350 Eagleview Boulevard, Exton, PA 19341, on behalf of GROWMARK FS, Inc., 119 Wall Street, Leesport, PA 19533, submitted a Final Report concerning remediation of site soils contaminated with diesel fuel, pesticides and unleaded gas. The report is intended to document remediation of the site to the Statewide Health Standard.

Mosby Residence, Penbrook Borough, **Dauphin County**. Skelly and Loy, 2601 North Front Street, Harrisburg, PA 17110, on behalf of Gene Mosby, 108 North 30th Street, Harrisburg, PA 17109-3503, submitted a Final Report concerning remediation of site soils contaminated with fuel oil no. 2. The report is intended to document remediation of the site to the Statewide Health Standard.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

ACTIONS ON COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Actions on applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). The final action on each application also constitutes action on the request for 401 Water Quality Certification and the NPDES permit application. Mining activity permits issued in response to the applications will also address the application permitting requirements of the following statutes: the Air Quality Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law (35 §§ 691.1—691.702) and Notice of Final Action for Certification under section 401 of the FWPCA (33 U.S.C.A. § 1341).

Availability of Final General Plan Approval and/or General Operating Permit for Small Gas and No. 2 Oil Fired Combustion Units (BAQ-GPA/GP-1)

The Department of Environmental Protection (Department) has finalized revisions to the General Plan Approval and/or General Operating Permit No. BAQ-GPA/GP-1 for small gas and no. 2 oil fired combustion units. Notice regarding the availability of the draft general permit was published at 34 Pa.B. 532 (January 24, 2004).

A 45-day comment period was provided and written comments were received. A comment and response document has been prepared which summarizes the comments made and the changes that were made in the final general permit. The general permit for small gas and no. 2 oil fired combustion units is now available for use by qualifying applicants. Copies of the final BAQ-GPA/GP-1, an application form, instructions and the comment and response document for small gas and no. 2 oil fired combustion units are now available. These documents can be obtained by contacting Jeanette Van Skike, Bureau of Air Quality, Rachel Carson State Office Building, P. O. Box 8468, Harrisburg, PA 17105-8468, (717) 787-4325.

The documents have also been placed on the Department's website: www.dep.state.pa.us (DEP keyword: Air Quality).

Availability of Technical Guidance

Technical guidance documents are available on the Department of Environmental Protection's (Department) website: www.dep.state.pa.us (DEP Keyword: Participate). The "Current Inventory" heading is the Governor's list of nonregulatory documents. The "Final Documents" heading is the link to a menu of the various Department bureaus and from there to each bureau's final technical guidance documents. The "Draft Technical Guidance" heading is the link to the Department's draft technical guidance documents.

The Department will continue to revise its nonregulatory documents, as necessary, throughout 2004.

Ordering Paper Copies of Department Technical Guidance

The Department encourages the use of the Internet to view guidance documents. When this option is not available, persons can order a bound paper copy of the latest inventory or an unbound paper copy of any of the final documents listed on the inventory by calling the Department at (717) 783-8727.

In addition, bound copies of some of the Department's documents are available as Department publications. Check with the appropriate bureau for more information about the availability of a particular document as a publication.

Changes to Technical Guidance Documents

Following is the current list of recent changes. Persons who have questions or comments about a particular document should call the contact person whose name and phone number is listed with each document.

Draft Technical Guidance

DEP ID: 012-0900-003. Title: Draft Policy on Public Participation in the Permit Application Review Process. Description: This policy establishes a framework for public participation in the permit application review process by providing consistent guidelines for how the Department encourages public participation in the review of a permit application, and how it reviews and responds to comments received during the public participation process. Written Comments: Interested persons should submit written comments on draft technical guidance document #012-0900-003 by August 25, 2004. Comments submitted by facsimile will not be accepted. The Department will accept comments submitted by e-mail. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Lou Guerra, Jr., DEP Policy Office, Rachel Carson State Office Building, 15th Floor, Harrisburg, PA 17105, (717) 783-8727, lguerra@state.pa.us.

Final Technical Guidance

DEP ID: 012-0200-003. Title: Public Access to Information Policy. Description: This policy clarifies the Department's existing records management procedures to fulfill the Department's obligations under the Right-to-Know

Law, as amended by the act of June 28, 2002 (P. L. 663, No. 100), and to abide by Amended Management Directive 205.36 to establish written procedures and take certain actions to implement the Right-to-Know Law. The policy makes records procedures more clear, uniform and efficient. Notice of an Interim Technical Guidance was published at 32 Pa.B. 6311 (December 21, 2002) with a 60-day public comment period. Effective Date: July 10, 2004. Contact: Lou Guerra, Jr., (717) 783-8727, lguerra@state.pa.us.

Citizens Advisory Council Meeting Change

The July 20, 2004, meeting of the Citizens Advisory Council (Council) has been rescheduled. The meeting is now scheduled for July 20, 2004, from 7 p.m. to 9 p.m. and July 21, 2004, from 9:30 a.m. to 12 p.m. in the Bel-Aire Hotel and Conference Center, 2800 W. 8th Street, Erie, PA.

Questions concerning this meeting should be directed to Stephanie Mioff, (717) 787-4527, smioff@state.pa.us. The agenda will be available on the Council's website: www.cacdep.state.pa.us.

Persons in need of accommodations as provided for in the American With Disabilities Act of 1990 should contact Stephanie Mioff at (717) 787-4527 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Council may accommodate their needs.

Issuance of General Permit BWM-GP-11 for Maintenance, Testing, Repair, Rehabilitation or Replacement of Water Obstructions and Encroachments and 401 Water Quality Certification

In accordance with 25 Pa. Code § 105.446 (relating to procedure for issuance), prior to authorization of a Chapter 105 general permit, the Department of Environmental Protection (Department) must publish in the *Pennsylvania Bulletin* the text of the general permit. The notice published at 34 Pa.B. 3324 (June 26, 2004) announced the Department's intent to authorize General Permit BWM-GP-11 authorizing the maintenance, testing, repair, rehabilitation or replacement of water obstructions and encroachments. The Department inadvertently omitted the text of the general permit in the notice published at 34 Pa.B. 3324. Therefore, the Department is republishing the notice of authorization published at 34 Pa.B. 3324, along with the text of General Permit BWM-GP-11. The effective date of General Permit BWM-GP-11 is August 10, 2004.

The Department, under the authority of section 7 of the Dam Safety and Encroachments Act (act) (32 P. S. § 693.7) and 25 Pa. Code Chapter 105, Subchapter L (relating to general permits), authorizes, by General

Permit BWM-GP-11, the maintenance, testing, repair, rehabilitation or replacement of water obstructions and encroachments. The Department is authorized by the act and regulations to issue general permits when it determines a category of projects are similar in nature and can be adequately regulated using standard specifications and conditions. The Department has found the maintenance, testing, repair, rehabilitation or replacement of water obstructions and encroachments to be a category that meets the general permit requirements.

Authorization provided by this general permit will eliminate the need of filing an application for an individual permit by an applicant who intends to maintain, test, repair, rehabilitate or replace a water obstruction or encroachment, in accordance with the terms, criteria and conditions of the general permit. The applicant will be required to register the project by submitting written notice and all applicable information to the Department indicating the intent to maintain, test, repair, rehabilitate or replace a water obstruction or encroachment.

This permit contains provisions for the protection of public health and safety through the development and Department review of engineering plans and calculations; places restrictions on the permit to protect species of special concern; requires the development and implementation of erosion and sediment control plans to protect water quality; and supports environmental enhancements and improvements by requiring fish passage, the protection of wild and stocked trout streams and the restoration and stabilization of all temporary impacts.

Since there is no individual permit application, there will be significant savings of both time and money for those using the general permit. In addition to the monetary savings, the general permit enables applicants to proceed on projects with reduced time and effort while still complying with the act. Traditionally, review times for individual permits reach 120 days. A general permit can be acknowledged in approximately 30 days. A review of the permit data from 1995 to the present indicates that approximately 20% of individual permit applicants will qualify for this proposed general permit.

Minor deviations in the structure's configuration or filled area are allowed. These include changes in materials, construction techniques, current construction codes or safety standards which are necessary to repair, modify or replace. These minor deviations will be allowed, however, only if the environmental impacts resulting from the repair, rehabilitation, modification or replacement are minimal and in compliance with the terms and conditions of the general permit and there is no impact on public health and safety. The minor deviations may not change the structure's configuration so that the structure could be put to a different use.

This permit may not be used for maintenance, repair, rehabilitation, removal or replacement of dams.

Notice of intent to issue the proposed BWM-GP-11 was published at 33 Pa.B. 4981 (October 4, 2003) with a 60-day public comment period. Two hundred sixty-three comments from 22 persons/agencies were received. Comments received in response to this notice were reviewed and incorporated into the General Permit where applicable. The major comments on the proposed BWM-GP-11 follow.

Several commentators stated that a search of the Pennsylvania Natural Diversity Inventory (PNDI) was necessary to protect endangered and threatened species. The permit has been revised to require that the PNDI

search be current at the time work begins to screen for species of special concern or their habitat to ensure their protection. The permit has been revised to utilize the bog turtle screening process in Adams, Berks, Bucks, Chester, Cumberland, Delaware, Franklin, Lancaster, Lebanon, Lehigh, Monroe, Montgomery, Northampton, Schuylkill and York Counties. The incorporation of the bog turtle screening protocol will facilitate Federal permitting under PAPSFG-2.

Some commentators suggested the language regarding the time of year restrictions for the protection of wild and stocked trout needed to be clarified. The permit has been clarified to highlight the time of year restrictions necessary for the protection of both wild and stocked trout.

Several commentators suggested that requirements for fish passage needed to be clarified. The permit has been revised to include conditions for fish passage including culvert depression, low flow channels and baffles.

Some commentators suggested that the General Permit should not be used to put a structure to a different use. The permit has been clarified to indicate that structures cannot be put to a different use than for which they were originally constructed (for example, conversion and upgrade of a logging road for use as subdivision access).

Several commentators suggested that Department engineers review the General Permit to ensure the protection of public health, safety and the environment and compliance with 25 Pa. Code Chapter 105 (relating to dam safety and waterway management). Department engineers and environmental staff will review the General Permit registrations to ensure protection of the public health, safety and the environment. The permit has been conditioned to require a hydraulics and hydrology report prepared by a professional engineer and Professional Engineering seals on plans for bridge/culvert projects across a stream that will be used by the general public.

Many commentators believe that the review and approval of an erosion and sedimentation plan should be a condition of BWM-GP-11. The permit has been revised to require the submission of an erosion and sediment control plan for Department review. Further, the permit requires the plan be implemented and available onsite.

401 Water Quality Certification

The projects covered by the proposed General Permit BWM-GP-11 may also require a Federal license or permit. Section 401(a) of the Clean Water Act (33 U.S.C.A. § 1341(a)) requires that an applicant for a Federal license or permit to conduct any activity which may result in any discharge into the waters of the United States provide the Federal licensing or permitting agency a certification from the state in which the discharge will originate that the discharge will comply with applicable provisions of the Clean Water Act as well as applicable state law related to water quality protection.

The Department, by this notice, certifies that the construction, operation and maintenance of encroachment or water obstructions, in accordance with the terms, criteria and conditions of BWM-GP-11, comply with the applicable provisions of sections 301—303, 306 and 307 of the Clean Water Act (33 U.S.C.A. §§ 1311—1313, 1316 and 1317). The Department further certifies that the construction, operation and maintenance of projects comply with applicable State laws regarding water quality

protection and standards, provided that the construction, operation and maintenance complies with the terms, criteria and conditions of the permit.

KATHLEEN A. MCGINTY,
Secretary

General Permit BWM-GP-11

Maintenance, Testing, Repair, Rehabilitation, or Replacement of Water Obstructions and Encroachments

1. *General Description and Fees*—In accordance with the following registration requirements and the standard general permit conditions, the Department of Environmental Protection hereby authorizes by General Permit the maintenance, testing, repair, rehabilitation or replacement of existing currently serviceable, water obstructions or encroachments, including bridges and culverts owned by railroad companies. Minor deviations in the structure's configuration or filled area including those due to changes in materials, construction techniques, current construction codes or safety standards which are necessary to repair, modify or replace the water obstruction or encroachment are permitted, provided the environmental impacts resulting from such repair, modification or replacement are minimal, those minimal impacts fall within the terms and conditions of this General Permit, and there is no adverse impact on public health and safety. There is no registration fee required for a project authorized under this General Permit.

2. *Dams*—This General Permit may not be used for the maintenance, repair, modification, removal, or replacement of dams.

3. *Denial of Authorization*—The Department shall have the discretion, on a case-by-case basis, to deny, revoke or suspend the authorization to use this general permit for any project which the Department determines to have a significant adverse impact and would not adequately protect public health, safety or the environment or otherwise could not be adequately regulated by the provisions of this general permit.

4. *Authority and Continuing Authorization*—Authorization of this General Permit is under Section 7 of the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and the rules and regulations promulgated thereunder at 25 Pa. Code §§ 105.441—105.449 (relating to General Permits). This General Permit becomes effective August 10, 2004 and will remain in effect unless specifically modified, suspended, or revoked by the Department.

5. *Notification of Proposed Use of General Permit*—Prior to the activity, the owner(s) shall submit the "Registration Form" along with the required attachments to the appropriate DEP Regional Office's Soils and Waterways Section (see exhibit B). The Department may require additional information necessary to determine that the proposed maintenance complies with the terms and conditions of this General Permit. A copy of the "Registration Form" shall also be sent to the municipality and county in which the work will be performed. The owner may not begin work until he has received the acknowledged "Registration Form" from the Department.

6. *Definitions*—The terms as used in this General Permit shall have the following meanings:

Along—Touching or contiguous; to be in contact with; to abut upon.

Body of Water—Any natural or artificial lake, pond, reservoir, swamp, marsh or wetland.

Department—The Department of Environmental Protection.

Earth Disturbance—Any construction or other human activity which disturbs the surface of the land including, but not limited to clearing and grubbing, grading, excavations, embankments, land development, subdivision development, mineral extraction and the moving, depositing or storing of soil, rock or earth. This includes any excavation or fill within a stream channel.

Erosion and Sediment Control Plan—A plan which is designed to minimize accelerated erosion and sediment developed in accordance with the requirements of 25 Pa. Code Chapter 102.

Encroachment—A structure or activity which changes, expands or diminishes the course, current or cross section of a watercourse, floodway or body of water.

Floodway—The channel of the watercourse and portions of the adjoining floodplains which are reasonably required to carry and discharge the 100-year frequency flood. Unless otherwise specified, the boundary of the floodway is as indicated on maps and flood insurance studies provided by the Federal Emergency Management Agency (FEMA). In an area where no FEMA maps or studies have defined the boundary of the 100-year frequency floodway, it is assumed, absent evidence to the contrary, that the floodway extends from the stream to 50 feet from the top of the bank of the stream.

Owner—A person who owns, controls, operates, maintains, or manages a reservoir, water obstruction or encroachment.

Regulated Water of this Commonwealth—Watercourses, streams or bodies of water and their floodways wholly or partly within or forming part of the boundary of this Commonwealth.

Stocked Trout Streams—Regulated waters of this Commonwealth classified by the Pennsylvania Fish and Boat Commission as waters approved for trout stocking. Stream classification shall be verified by contacting the Pennsylvania Fish and Boat Commission's Division of Fisheries Management (see Exhibit A).

Stream—A watercourse.

Stream Enclosure—A bridge, culvert or other structure in excess of 100 feet in length upstream to downstream which encloses a regulated water of this Commonwealth.

Submerged Lands of this Commonwealth—Waters and permanently or periodically inundated lands owned by the Commonwealth, including lands in the beds of navigable lakes and rivers and beds of streams declared public highways which are owned and held in trust by the Commonwealth.

Testing—A procedure (internal or external to the structure) used as a means of analysis or diagnosis.

Watercourse—A channel or conveyance of surface water having defined bed and banks, whether natural or artificial, with perennial or intermittent flow.

Water Obstruction—A dike, bridge, culvert, wall, wingwall, fill, pier, wharf, embankment, abutment or other structure located in, along or across or projecting into a watercourse, floodway or body of water. In the case of ponds, lakes and reservoirs, a water obstruction is considered to be in or along the body of water if, at normal pool elevation, the water obstruction is either in the water or adjacent to and abutting the water's edge.

Waterway Opening—The cross-sectional area of a structure that is available to convey stream flow. This area is expressed in terms of span multiplied by underclearance.

Wetlands—Areas that are inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions, including swamps, marshes, bogs and similar areas.

Wild Trout Streams—A stream classified as supporting naturally reproducing trout populations by the Fish Commission. For a list of wild trout streams, the Fish and Boat Commission can be contacted at: Fish and Boat Commission, Bureau of Fisheries, Division of Fisheries Management, 450 Robinson Lane, Bellefonte, Pennsylvania 16823-9620.

7. *Special Conditions*

A. No new stream relocation, stream enclosure or stream channel is authorized by this General Permit.

B. No stream realignments are permitted except for those incidental activities immediately adjacent to the upstream and downstream waterway opening of bridges and culverts that are necessary to support the structure.

C. All projects must be designed and constructed to protect or enhance existing aquatic habitat.

D. Wetlands must be identified in accordance with the 1987 U. S. Army Corps of Engineers Manual for Identifying and Delineating Wetlands and properly flagged or otherwise identified on the site to ensure they are protected. Impacts to wetland and other waters of the Commonwealth must be avoided or minimized to the maximum extent practicable at the project site. Wetland areas which cannot be avoided and which will be temporarily impacted during the maintenance activity must be identified on the plan and be stabilized and restored to original contours and grade at the conclusion of the activity. Wetland areas which cannot be avoided and which will be permanently impacted are limited to a cumulative total of 0.05 acres per project site.

E. Utilization of General Permit BDWM-GP-8, Temporary Road Crossing—Temporary road crossings of streams and causeways that are necessary to access the project must be constructed in accordance with BDWM-GP-8. The applicant shall indicate utilization of BDWM-GP-8 on the General Permit Registration form, and provide location and dimensions of the temporary crossing on the plan drawing or sketch plan that is required for General Permit 11 Registration.

F. Paving the metal bottom pipes, arches and culverts with concrete, grouting or the use of concrete for scour protection shall be done in dry conditions.

G. Bridge or culvert maintenance, replacement projects, or upgrades to existing facilities to meet current standards are subject to the following:

- No significant reduction in existing waterway openings is permitted.
- There will be no significant changes to grades of approach roadways or to overtopping characteristics.
- Increases in culvert length will be limited to a maximum of 12 feet perpendicular to the roadway on each side of the culvert as measured from the outer most portion of the structure (including wingwalls, headwalls, riprap, and other appurtenant structures.)

- Increases in bridge width will be limited to a maximum of 12 feet on each side of the bridge as measured from the outer most portion of the structure (including wingwalls, headwalls, riprap, and other appurtenant structures.)

- The removal of debris and accumulated sediment to ensure adequate hydraulic capacity for bridges or culverts is limited to fifty feet upstream and downstream of the bridge or culvert and shall be conducted in accordance with the Department's Standards for Channel Cleaning at Bridges and Culverts.

- Bridges and culverts with paved bottoms shall provide for fish passage by constructing a low flow channel.

- Bridge and culvert replacement projects may not increase water surface elevations for the 100-year flood event.

- Backfill material may not be stored in the floodway and/or wetlands.

Hydraulic capacity.

- Bridge and culvert maintenance or replacement projects shall be designed and constructed in accordance with the following criteria:

- The structure shall pass flood flows without loss of stability.

- The structure may not create or constitute a hazard to life or property, or both.

- The structure may not materially alter the natural regimen of the stream.

- The structure may not so increase velocity or direct flow in a manner which results in accelerated erosion of stream beds and banks.

Multiple pipes and spans.

- Multi-culvert groups and multiple span bridges which may tend to collect debris, contribute to the formation of ice jams, and cause excessive increases in head losses shall be avoided to the maximum extent practicable. Spans of less than 15 feet shall be by single-opening structure, except where conditions make it impractical to design the crossing with a single span.

Bridge piers.

- Bridge piers shall be kept to a minimum in number and cross-sectional area and shall be designed to offer the least obstruction to the passage of water and ice, consistent with safety and current engineering practice.

- Bridge piers in channels subject to unstable or super critical flow shall require special investigation and shall be so designed as to minimize backwater and avoid standing waves downstream of the pier.

Bridge abutments.

- Bridge abutments shall be aligned with the flow of the stream for the design flood. The Department may require, the construction of wing walls on either side of the bridge to assist in directing flood flows through the bridge opening.

Culverts.

- Culverts shall be aligned with the stream flow.

- Culverts shall be of sufficient width to minimize narrowing of the stream channel.

- The ends of culverts shall be protected by wing walls, or with other structures sufficient to assist in directing flood flows to and through the culvert opening.

- Culverts with a drainage area of 640 acres or less shall be installed with the invert a minimum of 6 inches below natural streambed and in such a manner that the average gradient of the invert shall not deviate from that of the natural streambed.

- Culverts with a drainage area of greater than 640 acres shall be installed with the invert a minimum of 12 inches below natural streambed and in such a manner that the average gradient of the invert shall not deviate from that of the natural streambed.

- The flow velocities of water discharging from culverts must not cause erosion of the downstream channel.

Professional Engineer Certification

Plans, specifications and reports for bridges and culverts across a stream which are to be used by the general public such as an access to an industrial, commercial or residential development, etc., shall be prepared by a registered professional engineer and shall be affixed with their seal and certification which shall read as follows:

"I (name) do hereby certify pursuant to the penalties of 18 Pa.C.S.A. Sec. 4904 to the best of my knowledge, information and belief, that the information contained in the accompanying plans, specifications, and reports has been prepared in accordance with accepted engineering practice, is true and correct, and is in conformance with Chapter 105 of the rules and regulation of the Department of Environmental Protection."

H. Pipelines and utilities:

- Trenches excavated for the maintenance and replacement of utility lines shall be the minimum width necessary.

- Trenches excavated for the maintenance and replacement of utility lines shall be backfilled with suitable material, stabilized and restored to pre-existing elevation and condition.

- Construction material such as pipes, rock and bedding materials may not be stored in the floodway and/or wetlands.

- Excavated material to be used as backfill may be temporarily stored adjacent to the trench, but for no more than 72 hours.

- Trench Plugs must be installed within the trench on both sides of the stream channel. In wetlands, trench plugs, must be used to prevent the trench from draining the wetland.

I. A copy of this General Permit along with the Erosion and Sediment Control Plan must be provided to all contracting and construction entities involved with the project and must be available on site during all phases of the project.

8. *Erosion and Sediment Controls*—Activities conducted under this General Permit which involve an earth disturbance must be done in compliance with Chapter 102 of the Department's Rules and Regulations (relating to Erosion Control). The Erosion and Sediment Control Plan shall be submitted with the General Permit registration, for review by the DEP Regional Office. The Erosion and Sediment Control Plan must be available at the site at all times, and all BMP's on the plan must be implemented and maintained prior to, during and after construction.

9. *Species of Special Concern*

A. No regulated activity is authorized under this General Permit which is likely to directly or indirectly adversely affect a State or Federal species of special concern or a species proposed for such designation, or which is likely to destroy or adversely modify the critical habitat of such a species, as identified under the Federal Endangered Species Act of 1973; Title 30, Chapter 75 of the PA Fish and Boat Code; Title 17, Chapter 25, Conservation of Wild Plants; and Title 31 Chapter 133 Game Wildlife Code.

B. Permit registrations shall include a Pennsylvania Natural Diversity Inventory (PNDI) search receipt. Activities conducted under this General Permit beyond one-year of the date acknowledged will require the submission of an updated PNDI search to the DEP Regional Office. Information on PNDI searches is available through the PA Department of Conservation and Natural Resources, Bureau of Forestry, Ecological Services Section, P. O. Box 8552, Harrisburg, PA 17105-8852, telephone 717-787-3444.

C. Applicants must comply with special bog turtle screening requirements. See Section I of the Registration Form.

10. *Beach Nourishment*—Sand used for beach nourishment shall be free from zebra mussels.

11. *Equipment*—Use of motorized vehicles or equipment in a watercourse, stream or body of water is limited to the minimum necessary to complete the project. Motorized vehicles or equipment working in wetlands must be placed on mats or other measures must be taken to minimize disturbance.

12. *Proper Maintenance*—Facilities and activities authorized under this General Permit must be operated and maintained to protect public health, safety and the environment.

13. *Aquatic Life Movements*—No regulated activity may substantially disrupt the movement of those species of aquatic life indigenous to the watercourse, stream or body of water, including those species which normally migrate through the area.

14. *Wild and Stocked Trout Waters*—Activities authorized by this General Permit in regulated waters of this Commonwealth are prohibited in the following streams for the specified time period unless written approval is obtained from the PA Fish and Boat Commission's Division of Environmental Services at 459 Robinson Lane, Bellefonte, PA 16823-9616 or the local DEP Regional Office. Stocked and wild trout stream locations are compiled and available through the Commission's Division of Fishery Management.

Stocked trout streams	March 1 through June 15
Wild trout streams	October 1 through December 31
Lake Erie tributaries	September 1 through April 30

15. *Waterfowl Breeding Areas*—Breeding areas for migratory waterfowl must be avoided to the maximum extent practicable.

16. *Historical Resources*

A. No regulated activity is authorized which is likely to impact:

- Historical, cultural or archaeological sites as identified in the latest published version of the Pennsylvania Inventory of Historic Places or the National Register of Historic Places.

- Local historical sites officially approved or recognized by a municipality.

B. Any archaeological artifacts discovered during the performance of work authorized under this General Permit must be adequately protected and their discovery promptly reported to the Bureau for Historic Preservation, Pennsylvania Historic and Museum Commission, Commonwealth Keystone Building, 400 North Street, 2nd Floor, Harrisburg, PA 17120-0093.

17. *Fill*—Fill material must be uncontaminated, nonwater-soluble, nondecomposable inert solid material and must be free of asphalt, trash, construction debris, tires, toxic pollutants and never been subject to a spill or release of a contaminated substance. Temporary fills for construction purposes (e.g. road embankments, equipment staging, cofferdams and causeways.) shall consist of only clean nonwater-soluble rock material (without fine particles or small-grained materials) to prevent the introduction of sediment to water resources.

18. *Removal of Temporary Fills*—Temporary fills must be removed in their entirety, and the affected areas stabilized and returned to their pre-existing elevations.

19. *Navigation*—No authorized activity shall permanently hinder commercial or recreational navigation.

20. *Effective Time Period*—This General Permit will remain in effect indefinitely unless specifically modified, suspended or revised by the Department.

21. *Submerged Lands of this Commonwealth*—This General Permit shall not be effective to authorize any project over, across or occupying submerged lands of this Commonwealth until the owner has obtained a license from the Department authorizing the occupation of such submerged lands issued under Section 15 of the Dam Safety and Encroachments Act (32 P. S. § 693.15), Section 514 of the Administrative Code of 1929 (71 P. S. § 194), or other applicable laws. Upon receipt of notification from the owner, the Department will review the project, determine if its location is over, across or occupies submerged lands of the Commonwealth. If applicable, the Department will prepare a Submerged Lands License Agreement and forward same to the owner for execution prior to acknowledgement of registration to use the General Permit. No annual charge is required for facilities constructed, owned or operated by a Political Subdivision of the Commonwealth.

22. *Use of Explosives*—Prior to the use of explosives in a watercourse or body of water, the permittee shall secure a written permit from the Pennsylvania Fish and Boat Commission, under the Fish and Boat Code, Act 1980-175 Title 30 Pennsylvania Consolidated Statutes, Section 2906. Requests should be directed to the Pennsylvania Fish and Boat Commission, Division of Environmental Services (see Exhibit A).

23. *Suspension, Modification or Revocation*—The Department may suspend, modify or revoke this General Permit at any time upon notice in the Pennsylvania Bulletin.

24. *Project Interference*—This General Permit does not authorize any interference with any existing or proposed local, State, Federal or Federally licensed project, and permittee shall not be entitled to compensation for damage or injury to the work authorized herein which may be caused by or a result of existing or future operations undertaken by the United States or the Commonwealth of Pennsylvania or its Political Subdivisions in the public interest.

25. *Inspection*—As a condition of use of this General Permit, and of the owner's authority to conduct the activities authorized by this General Permit, the owner hereby authorizes and consents to allow authorized employees or agents of the Department, including the County Conservation District, without advance notice or a search warrant, at any reasonable time and upon presentation of appropriate credentials, and without delay, to have access to and to inspect all areas where the project is being constructed, operated or maintained. The authorization and consent shall include consent to conduct tests or sampling, to take photographs, to perform measurements, survey and other tests, to inspect the methods of construction, operation or maintenance, to examine and copy books, papers and records pertinent to any matter under investigation, and to take any other action necessary to assure that the project is constructed, operated or maintained in accordance with the terms and criteria of the General Permit. This General Permit condition is referenced in accordance with Section 16 of the Dam Safety and Encroachments Act, 32 P. S. § 693.16, and in no way limits any other powers granted under the Dam Safety and Encroachments Act.

26. *Fish and Boat Commission Notification*—The owner(s) shall notify the Pennsylvania Fish and Boat Commission's Regional Field Office Manager (see "Exhibit A") responsible for the County where the activities are proposed ten (10) days prior to start of construction. Written notification is suggested. The project site shall at all times be available for inspection by authorized officers and employees of the Pennsylvania Fish and Boat Commission.

27. *Activities not in Accordance with the Terms or Conditions*—If the Department determines, upon inspection, that the construction, operation or maintenance of a project has violated the terms or criteria of this General Permit or of the Chapter 105 Rules and Regulations, the Department may take such actions, legal or administrative, that it may deem to be appropriate.

28. *Structure Removal*—The owner shall remove all or any portion of the water obstruction upon written notification to the owner by the Department in the event the water obstruction is causing an adverse impact on public health, safety, or the environment, or in any other manner violates the conditions of this General Permit or Chapter 105 Rules and Regulations. The removal of railroad bridges and culverts is not subject to this condition. The removal of railroad bridges and culverts is regulated exclusively by the federal Surface Transportation Board under the Interstate Commerce Commission Termination Act of 1995, 49 U.S.C. Sections 10501(b), 10903.

29. *Property Rights*—This General Permit does not convey any property rights, either in real estate or material, or in any exclusive privileges; nor does it authorize any injury to property or invasion of rights or any infringement of Federal, State or local laws or regulations.

30. *Water Quality Certification*—The issuance of this General Permit also constitutes approval of Water Quality Certification under Section 401 of the Federal Clean Water Act (33 U.S.C.A. § 1341).

31. *Other Permits*—Nothing in this General Permit relieves the owner(s) of the obligation of complying with all Interstate Compacts, Federal, state and local laws, and regulations.

32. *Signature*—The General Permit Registration Form shall be signed by the person responsible for installation, operation and maintenance of the authorized activity.

Stream Redesignation Evaluation; Water Quality Standards Review

Under 25 Pa. Code § 93.4d (relating to processing of petitions, evaluations and assessments to change a designed use), the Department of Environmental Protection (Department) gives notice that an evaluation will be conducted on the stream section listed in this notice to determine the proper aquatic life use designation in the Commonwealth's Water Quality Standards.

<i>Stream Name</i>	<i>County</i>	<i>Tributary To</i>
Wissahickon Creek—Basin, from the source near Lansdale to the State Route 0073 (Skippack Pike) bridge crossing near Fort Washington	Montgomery	Schuylkill River

Persons who have technical data concerning the water quality, instream habitat or biological condition of this stream section are encouraged to make it available to the Department for consideration in the assessment. This assessment may lead to a recommendation to the Environmental Quality Board (Board) for redesignation.

Data should be submitted to Bob Frey, Division of Water Quality Assessment and Standards, Bureau of Water Supply and Wastewater Management, P. O. Box 8467, Harrisburg, PA 17105-8467, rofrey@state.pa.us. Data should be submitted no later than 30 days following publication of this notice. Questions concerning this evaluation can be directed to Bob Frey at (717) 787-9637.

This assessment is being conducted in response to a rulemaking petition submitted to the Board by the Upper Gwynedd Township Commissioners. The portion of the Wissahickon Creek basin to be evaluated is currently designated Trout Stocking. The petitioners are requesting redesignation to Warm Water Fishes.

Persons in need of accommodations as provided for in the Americans With Disabilities Act of 1990 should contact Bob Frey directly at the previously mentioned telephone number or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

DEPARTMENT OF STATE

Availability of the Commonwealth's Proposed State Plan Amendments for 2004 under the Help America Vote Act of 2002

On July 10, 2004, the Secretary of the Commonwealth (Secretary) will make available for public inspection the Commonwealth's proposed State Plan amendments for 2004 under the Help America Vote Act of 2002 (HAVA). The proposed State Plan amendments for 2004 outline the methods the Commonwealth plans to use to comply with the requirements of Title III of HAVA, how the Commonwealth will use grants from the Federal government to achieve that goal and a description of the progress made by the Commonwealth in implementing the 2003 HAVA State Plan.

Interested individuals or groups can view and copy the proposed State Plan amendments for 2004 on the Department of State's (Department) website: www.dos.state.pa.us.

The Department will accept public comments for 30 days after publication of this notice in the *Pennsylvania Bulletin*. The public comment period expires on August 9, 2004. Comments must be submitted, in writing, to the Department by August 9, 2004.

In addition, the Secretary will conduct a public hearing regarding the Commonwealth's proposed State Plan amendments for 2004. The public hearing will be held on Friday, July 16, 2004, from 1 p.m. to 4 p.m. in Hearing Room 1, Keystone Building, 400 North Street, Harrisburg, PA.

For further information on obtaining a hardcopy of the proposed State Plan amendments for 2004 or submission

of written public comments, contact Barbara Smotherman, Department of State, (717) 787-6458, bsmotherma@state.pa.us.

Department of Public Welfare—MA Program Payment Policies; Regulation No. 14-484

On May 14, 2004, the Independent Regulatory Review Commission (Commission) received this regulation from the Department of Public Welfare (Department). This rulemaking amends 55 Pa. Code Chapter 1150. Notice of proposed rulemaking was omitted for this regulation; it will become effective upon publication in the *Pennsylvania Bulletin*.

This final-omitted regulation revises the maximum reimbursement limit paid by the Medical Assistance (MA) program for services provided by a practitioner during one hospitalization. The current reimbursement cap of \$1,000 was established in 1985, and now has had the unintended effect of discouraging practitioners from treating MA recipients. This amendment gives the Department the flexibility to set payment rates above the \$1,000 cap. The anticipated effect of this regulation is to give MA

recipients better access to health care and to provide incentive for physicians to stay in this Commonwealth.

We have determined this regulation is consistent with the statutory authority of the Department (62 P. S. § 201(2)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Department of Agriculture—Application of Soil and Groundwater Contaminated with Agricultural Chemicals to Agricultural Lands; Regulation No. 2-116

On April 10, 2002, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Agriculture (Department). This rulemaking adds Chapter 130d to 7 Pa. Code. The proposed regulation was published in the April 20, 2002, *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on May 17, 2004.

This final-form regulation establishes the procedures to apply soil and groundwater contaminated with agricultural chemicals to agricultural land, as required by Act 2 of 1995 (Act 2). This regulation only applies to contaminated soil and groundwater collected in an approved Act 2 remediation effort at an agricultural chemical facility.

We have determined this regulation is consistent with the statutory authority of the Department (35 P. S. § 6026.904(d)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

Insurance Department—Standards for Safeguarding Customer Information; Regulation No. 11-215

On September 23, 2003, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Insurance Department (Department). This rulemaking amends 31 Pa. Code by adding Chapter 146c. The proposed regulation was published in the October 4, 2003, *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on May 21, 2004.

This regulation sets up specific internal standards that companies must implement to safeguard against leaks of nonpublic personal health or financial information. The Department will use these standards when it investigates an insurer's internal procedures for safeguarding of consumer and customer information.

We have determined this regulation is consistent with the statutory authority of the Department (40 P. S. § 1171.2 and 71 P. S. § 186) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Pennsylvania Telephone Relay Service—Captioned Telephone Service

Public Meeting held
 June 24, 2004

Commissioners Present: Terrance J. Fitzpatrick, Chairperson; Robert K. Bloom, Vice Chairperson; Glen R. Thomas; Kim Pizzingrilli; Wendell F. Holland

Pennsylvania Telephone Relay Service—Captioned Telephone Service; Doc. No. M-00900239F0008

Opinion and Order

By the Commission:

Before the Commission is consideration of the future of captioned telephone service in this Commonwealth. Captioned telephone service is a form of telephone relay service that uses a voice recognition mechanism and a captioning telephone to display to the called party the user's conversation almost simultaneously with the user's spoken words. Having conducted a trial of captioned telephone service, there are many legal, technical and

financial issues that must be carefully examined with respect to the long-term provisioning of captioned telephone service.

Ultratec®, in partnership with AT&T as the Commonwealth's certificated Telephone Relay Service (TRS)¹ provider, has been providing its form of captioned telephone service known as CapTel™ on a trial basis to almost 200 consumers since May 2003. Initially the Commission approved a 9-month trial of CapTel™, which was subsequently extended for 3 months in January 2004 and for another 3 months in April 2004. The CapTel™ trial is currently scheduled to conclude on July 31, 2004. This Commission is evaluating whether to extend the trial and will issue its decision via Secretarial Letter by the end of July 2004 at doc. no. M-00900239.

Irrespective of this decision regarding the continuation of the current CapTel™, we will seek comments on the feasibility of providing captioned telephone service in this Commonwealth on a going-forward basis. In addition to the issue of funding, we seek information regarding the status of captioned telephone service technology in the industry and the options through which a service may be provided.

Interested persons may file comments on the following questions and may include other pertinent comments, as appropriate.

- 1) Should captioned telephone service be provided via separate certificate of convenience or by contract with the current certificate holder?
- 2) Do potential captioned telephone service providers require and possess waivers from the Federal Communications Commission for the long-term offering of captioned telephone service?
- 3) On the issue of funding captioned telephone service for the long-term, are there any other potential funding mechanisms available?
- 4) How would funding of interstate calls be handled if the captioned telephone service is continued for the long-term?
- 5) What is the expected impact of the cost of captioned telephone service on the PA Telephone Relay Service (TRS) surcharge?
- 6) Regarding the issue of the equipment needed to provide captioned telephone service, what are the costs associated with the equipment which is currently being provided free of charge by Ultratec®?
- 7) What is the anticipated take-rate for the equipment if captioned telephone service were to be offered for the long-term?
- 8) Should the captioned telephone equipment qualify for distribution under the TDDP? Of the anticipated take-rate, how many consumers would qualify to receive the equipment under the TDDP program?
- 9) What are the expected cost of handsets and the impact of the provision of handsets on the budget and

¹The Pennsylvania TRS is a telephone relay service provided by AT&T and regulated by this Commission offering persons who are hearing, deaf, hard of hearing or speech-disabled ways to connect using the telephone: Traditional Relay, Video Relay, and Internet Relay. Each conversation is relayed by a trained Communications Assistant who follows a strict code of ethics and confidentiality. The TRS is available 24 hours a day, 7 days a week. For more information, see www.parelay.net/.

expenses of the Telecommunications Devices for the Deaf program (TDDP).²

10) What, if needed, special and/or additional outreach and education is necessary for captioned telephone service?

11) Other states, such as Washington³ and Maryland, have provided trialed captioned telephone service. The Commission should be made aware of any information about the experiences of these (and any other states), including whether or not the states have extended their trials or have decided to provide long-term captioned telephone service.

12) Evaluations were solicited from participants in the CapTel(tm) trial program, and 20% of these respondents reported difficulties with the service such as garbled text and disconnects. How have the difficulties expressed by the current users been addressed, and how will they be remedied if captioned telephone service is continued?

13) Is there any other information the Commission needs to address in this matter?

The Commission wishes to ensure that its consideration of the possible long-term provisioning of captioned telephone service proceeds in a timely manner. Therefore, this Order soliciting comments will be published in the *Pennsylvania Bulletin*, posted on the Commission's website and will allow 20 days for comments and 10 days for reply comments. Staff will review the submitted comments and replies and provide the Commission with a recommendation in October 2004 so that the Commission can target a final resolution of this matter for November 2004. This timeframe gives interested parties an opportunity to be heard and the Commission time to decide the best course of action regarding the long-term viability of captioned telephone service in this Commonwealth. As a matter of great importance to the Commonwealth, we look forward to continuing to learn about captioned telephone technology and its ramifications for all Pennsylvanians so that we can find a way to fulfill our goal of best serving the public interest; *Therefore,*

It Is Ordered That:

1. The Bureau of Fixed Utility Services, in conjunction with Law Bureau and Counsel to the TRS Advisory Board, shall begin fact-finding into whether and how captioned telephone service should be provided in this Commonwealth on a long-term basis, culminating in a recommendation for the Commission's consideration in October 2004.

2. This Order shall be published in the *Pennsylvania Bulletin* and posted on the Commission's website.

3. Interested persons shall file comments with the Secretary's Bureau on or before 20 days after the publication of this Order. Reply comments may be filed within 10 days thereafter. Copies of the comments, including an electronic version on disk in Word-compatible format, should be provided to the Bureau of Fixed Utility Services at the time of filing.

² The TDDP provides specialized telecommunications devices, such as text telephones and amplifiers, at no charge to qualifying persons who are deaf or hard of hearing, who have speech and language disorders or who have a physical disability that prevents them from using standard telecommunication equipment. To qualify, the person must have gross incomes of less than 200% of the Federal poverty level and must be a resident of this Commonwealth, at least 6 years of age and must have telephone service and the ability to learn how to use the telecommunications device. The Department of Labor and Industry, Office of Vocational Rehabilitation, administers the program. For more information, see www.puc.paonline.com/telephone/TRS/TRS_Default.html#Telecommunications%20Device%20Distribution%20Program%20%20TDDP.

³ For more information regarding Washington's experience see www1.dshs.wa.gov/mediareleases/2004/pr04038.shtml.

4. Copies of this Order shall be served on all jurisdictional local service providers, the Office of Consumer Advocate, the Office of Small Business Advocate, the Pennsylvania Telephone Association, the Pennsylvania TRS Advisory Board and Ultratec®.

Ratification and Adoption of Amendment to 49 CFR Part 192

Public Meeting held
June 24, 2004

Commissioners Present: Terrance J. Fitzpatrick, Chairperson; Robert K. Bloom, Vice Chairperson; Glen R. Thomas; Kim Pizzingrilli; Wendell F. Holland

Ratification and Adoption of Amendment to Part 192 of Title 49 of the Code of Federal Regulations; Doc. No. M-00041808

Order

By the Commission:

The Commission has adopted the Federal safety standards for natural gas transmission and distribution facilities in 52 Pa. Code § 59.33(b). The Federal standards are established by the United States Department of Transportation (DOT) in 49 U.S.C.A. §§ 60101, et seq., and are set forth in 49 CFR Parts 191—193 and 199. Section 59.33(b) of 52 Pa. Code provides, in pertinent part, that amendments to 49 CFR will become effective in this Commonwealth upon review by the Commission and the entry of a Commission ratification order where that order is served upon all jurisdictional natural gas companies or, alternatively, upon the date of an order's publication in the *Pennsylvania Bulletin*.

A. On March 12, 2003, at 68 *Federal Register* 11748, amendment 192-91 was adopted and codified by the DOT in 49 CFR 192. In this final rule, Research and Special Programs Administration (RSPA) modifies or adds the definition of "Administrator" in several sections of the CFR. The RSPA has determined that there is a need to change or add the definition of "Administrator" for clarification purposes and for consistency between the RSPA regulations.

B. On August 5, 2003, at 68 *Federal Register* 46109, amendment 192-92 was adopted and codified by the DOT in 49 CFR 192. This final rule addresses the safety regulation responsibility for producer-operated natural gas and hazardous liquid pipelines that cross into state waters without first connecting to a transporting operator's facility on the Outer Continental Shelf. This rule specifies the procedures by which producer operators can petition for approval to operate under safety regulations governing pipeline design, construction, operation and maintenance issued by either the RSPA or the Department of the Interior, Minerals Management Service. The rule was effective September 4, 2003.

C. On September 15, 2003, at 68 *Federal Register* 53895, amendment 192-93 was adopted and codified by the DOT in 49 CFR 192. The RSPA, Office of Pipeline

Safety (OPS) is changing some of its safety standards for gas pipelines. The changes are based on recommendations by the National Association of Pipeline Safety Representatives and a review of the recommendations by the State Industry Regulatory Review Committee. RSPA/OPS believes the changes will improve the clarity and effectiveness of the present standards. The rule was effective on October 15, 2003.

D. On January 14, 2004, at 68 *Federal Register* 69778, amendment 192-95 was adopted and codified by the DOT in 49 CFR 192. This final rule requires operators to develop integrity management programs for gas transmission pipelines located where a leak or rupture could do the most harm, that is, could impact high consequence areas (HCAs). The rule requires gas transmission pipeline operators to perform ongoing assessments of pipeline integrity, to improve data collection, integration and analysis, to repair and remediate the pipeline as necessary and to implement preventive and mitigative actions. The RSPA/OPS has also modified the definition of HCAs in response to a petition for reconsideration from industry associations. This final rule comprehensively addresses statutory mandates, safety recommendations and conclusions from accident analyses, all of which indicate that coordinated risk control measures are needed to improve pipeline safety.

Keeping in mind the safety of the public, we have reviewed the previously referenced amendments in accordance with the provisions of 52 Pa. Code § 59.33. Based upon this review, we find that the DOT amendment to 49 CFR to be in the public interest and adopt them as our own. The effective date of our adoption of the previously referenced amendments shall be the date upon which this order is published in the *Pennsylvania Bulletin* (52 Pa Code § 59.33(b)).

Therefore,

It Is Ordered That:

1. The following amendments adopted by the DOT are hereby ratified and adopted in accordance with the provisions of 52 Pa. Code § 59.33(b):

(a) On March 12, 2003, at 68 *Federal Register* 11748, amendment 192-91.

(b) On August 5, 2003, at 68 *Federal Register* 46109, amendment 192-92.

(c) On September 15, 2003, at 68 *Federal Register* 53895, amendment 192-93.

(d) On January 14, 2004, at 68 *Federal Register* 69778, amendment 192-95.

2. The Secretary shall serve copies of this Order upon all jurisdictional gas utilities and pipeline companies. Accordingly, the effective date shall be the entry date of this order. Concurrently, the Secretary shall cause this order, without attachments, to be published in the *Pennsylvania Bulletin*.

Recalculation of the Pennsylvania Telecommunications Relay Service Surcharge

Public Meeting held
June 24, 2004

Commissioners Present: Terrance J. Fitzpatrick, Chairperson; Robert K. Bloom, Vice Chairperson; Glen R. Thomas; Kim Pizzingrilli; Wendell F. Holland

Recalculation of the Pennsylvania Telecommunications Relay Service Surcharge; M-00900239F0007

Tentative Order

By the Commission:

This Tentative Order is issued to solicit comments on the ratio used to allocate costs between business and residential end users of the costs of the Telephone Relay Service (TRS)¹ and the Telecommunications Device Distribution Program (TDDP).² Comments are due 30 days after this Tentative Order has been published in the *Pennsylvania Bulletin*.³

Background

In 1990, at M-00900239, this Commission established the TRS. In doing so, the Commission adopted one of two mutually exclusive funding methodologies for the TRS, choosing to surcharge access lines rather than intrastate telecommunications revenues. Act 34 of 1995⁴ subsequently expanded the TRS operations and use of the TRS surcharge to fund the TDDP. The 1995 Act provides, in pertinent part, that an "additional use" of the TRS surcharge shall be to fund the TDDP "as calculated by the commission . . . under the methodology established by the commission in order[s] entered May 29, 1990, and July 9, 1990," at M-00900239 (1990 Orders). We periodically recalculate, at least annually and effective July 1 of each year, the TRS surcharge as it applies to business and residence end users.

Discussion

In calculating the annual TRS surcharge, the Commission has traditionally attempted to use a 2:1 (business-to-residence) ratio to apportion between business and residence end users the costs of TRS/TDDP funding. Neither the 1990 Orders nor the 1995 Act mandate a permanent, fixed or specific business-to-residence ratio for the surcharge. The 1990 Orders' choice of methodology manifested a decision to surcharge access lines rather than revenue. The 2:1 ratio for assessing the costs against access lines merely reflected rate structure patterns of the day where business services greatly subsidized residential services. The 1995 Act provided for TDDP funding by building upon the access-line-surcharge methodology used in the 1990 Orders for the TRS; it did not mandate a particular ratio.

¹ The Pennsylvania TRS is a telephone service provided by AT&T and regulated by this Commission offering persons who are hearing, deaf, hard of hearing or speech-disabled ways to connect using the telephone: Traditional Relay, Video Relay, and Internet Relay. Each conversation is relayed by a trained Communications Assistant who follows a strict code of ethics and confidentiality. The TRS is available 24-hours a day, 7 days a week. For more information, see www.parelay.net/.

² The TDDP provides specialized telecommunications devices, such as text telephones and amplifiers, at no charge to qualifying persons who are deaf or hard of hearing, who have speech and language disorders or who have a physical disability that prevents them from using standard telecommunication equipment. To qualify, the person must have gross incomes of less than 200% of the Federal poverty level and must be a resident of this Commonwealth, at least 6 years of age and must have telephone service and the ability to learn how to use the telecommunications device. The Department of Labor and Industry, Office of Vocational Rehabilitation, administers the program. For more information, see www.puc.paonline.com/telephone/TRS/TRS_Default.html#Telecommunications%20Device%20Distribution%20Program%20%20TDDP.

³ While this Tentative Order will be published in conjunction with our Order in *Ultratec—CapTel Technology Trial*, M-00900239F0007, we request that parties commenting in both proceedings file separate comments in each proceeding.

⁴ Dual Party Relay Service and TDDP Act, 35 P. S. §§ 6701.1—6701.4 (1995).

Further, the May 1990 Order clearly contemplated adjustments to the ratio and even to the methodology, especially if other surcharges were imposed upon telecommunications services. Specifically, the May 1990 Order, at page 30, provided that:

The [Pennsylvania Telephone Association (PTA) further requests] that in the event the funding of any other public interest service offering, including Emergency 911, via a surcharge is ordered by the General Assembly or the Commission, the LEC may revise the Relay Service surcharge to be consistent with the funding mechanism employed for such subsequent public interest service.

While this Commission did not adopt the PTA's proposal in this regard, we further stated that:

While on first reading the PTA's request seems to be reasonable, we would be remiss if we did not require the LECs[,] or the PTA on behalf of the LECs, to file a Petition with the Commission requesting a revision to the Relay Service surcharge mechanism in order to be consistent with the particular public interest service funding mechanism. We believe that to grant, at this time, the request based upon an occurrence which may take place, at some undetermined future date, and without the benefit of the particular public interest or its funding mechanism, would be a gross neglect of our statutory duty and responsibilities. Thus, we will deny the PTA's request at this time.

May 1990 Order at Page 30.

Thus, the 2:1 ratio is clearly subject to adjustment at our discretion. Additionally, legislative changes to the 1995 Act affect the surcharge, as well.⁵

The 2:1 ratio has become increasingly unwieldy and nonresponsive to market realities, especially in the wake of competition. Additionally, with the nature of the costs of the TRS and the TDDP and the fluctuations in access line counts, it has become increasingly difficult to maintain a 2:1 ratio for the surcharge without incurring deficiencies or surpluses in funding. The surcharge (combined and/or at the program level) cannot be assessed as a partial cent. Further, it would be virtually impossible to generate incoming funds in line with expected expenses if a 2:1 ratio were perpetuated for the specific programs. In fact, the combined surcharge ratio has fluctuated around the 2:1 ratio in recent years.⁶

Accordingly, under the Commission's authority at 66 Pa.C.S. § 703(g) to modify prior orders after notice and an opportunity to be heard, we will allow the overall ratio to float from year to year with the general intent of ensuring appropriate and sufficient funding and reserves from the surcharge. This will more equitably match estimated income to estimated expenses as closely as possible, maintain adequate balances and hold the overall

⁵ Indeed, on December 9, 2002, Governor Mark Schweiker signed Act 181 of 2002, which amended the 1995 Act by expanding the definition of disabilities to include any disability that prevents a person from using standard telecommunication equipment. Further, the 1995 Act is again under consideration for amendment to expand the use of the surcharge to also fund the "Newsline Program," which provides access to newspapers by the blind and print-disabled. See Senate Bill 79 (Mowery) (Printer's Number 950; prior Printer's Numbers 74 and 78). As has been the experience with adding the TDDP, funding additional programs exacerbates the difficulties in maintaining a fixed 2:1 ratio.

⁶ The surcharges for 2003-2004 and for 2004-2005 are:

Year		TRS	TDDP	Total	Ratio (Business to Residence)
2003-2004	Business	\$0.15/month	\$0.02/month	\$0.17/month	2.15:1
	Residence	\$0.08/month	\$0.00/month	\$0.08/month	
2004-2005	Business	\$0.12/month	\$0.01/month	\$0.13/month	1.86:1
	Residence	\$0.06/month	\$0.01/month	\$0.07/month	

components of the surcharge as low as possible. These factors may take precedence over a purely arithmetic attempt to achieve or maintain a specific target ratio.

Conclusion

Because the time interval for each annual recalculation process is extremely short, we have initiated this proceeding for interested parties to comment on the plan; *Therefore,*

It Is Ordered That:

1. This Tentative Order will be served upon the jurisdictional local service providers, the Office of Consumer Advocate, the Office of Small Business Advocate, the Pennsylvania Telephone Relay Service Advisory Board and the Pennsylvania Telephone Association.

2. This Tentative Order shall be published in the *Pennsylvania Bulletin* and posted on the Commission's website.

3. Interested parties shall have 30 days after publication to file written comments. In addition to filing written comments with the Secretary's Bureau, parties shall provide written and electronic copies (on disk in Microsoft® Word 2002 or Word-compatible format) of their Comments to Eric Jeschke, Bureau of Fixed Utility Services and Louise Fink Smith, Law Bureau.
