JOHN HANGER, Chairperson

STATE BOARD OF VETERINARY MEDICINE

[49 PA. CODE CH. 31 ]

License Renewal; Continuing Education

The State Board of Veterinary Medicine (Board) proposes to amend §§31.11, 31.13, 31.15, 31.16, 31.40 and 31.41 and to rescind §31.12 (relating to temporary permits) to read as set forth in Annex A. The proposed rulemaking updates the Board’s regulations with regard to original licensure, temporary permits, license renewal and continuing education.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the Pennsylvania Bulletin.

Statutory Authority

Section 8 of the Veterinary Medicine Practice Act (act) (63 P. S. § 485.8) authorizes the Board to determine the educational requirements for licensure. Section 18 of the act (63 P. S. § 485.18) authorizes the Board to approve continuing education programs and to promulgate standards to ensure that the programs meet the educational and professional requirements of the profession and are designed to keep the members of the profession abreast of current learning and scholarship. Section 5(2) of the act (63 P. S. § 485.5(2)) authorizes the Board to promulgate regulations to effectuate the act. Section 11 of the act (63 P. S. § 485.11) authorizes the Board to promulgate regulations regarding the practice of veterinary technicians.
**Background and Need for Proposed Rulemaking**

Prior to this proposed rulemaking, the American Veterinary Medical Association (AVMA) Educational Commission for Foreign Veterinary Graduates (ECFVG) certification program was the only path by which a graduate of a school of veterinary medicine that was not accredited by the AVMA could obtain licensure in this Commonwealth. Over the past decade, the American Association of Veterinary State Boards (AAVS) developed the Program for the Assessment of Veterinary Education Equivalence (PAVE) certification program. The AAVS presented information to the Board regarding the program, which has approved over 400 candidates and is now accepted in 29 jurisdictions states, including New York and Virginia. The Board determined that both the PAVE and ECFVG certification programs assess educational equivalency in the public interest. In 2008, the Board voted to accept applications from individuals certified through PAVE. The Board's proposal now conforms the regulations to the Board's practice.

The Board also proposes to delete references to the National Board Examination and Clinical Competency Test, which have not been used for initial licensure in North America for well over 5 years.

The proposed rulemaking also deletes provisions and fees regarding temporary permits because these provisions are outdated. As described in section 10 of the act (53 P.S. § 485.10), temporary permits were designed to permit graduates of approved schools to practice while awaiting the next administration of the licensing examination and the announcement of scores from the licensing examination. For at least 10 years, veterinary students have been taking the licensing examination prior to graduation from veterinary school. Applicants for licensure by reciprocity can have their licensure applications processed as quickly as they can have an application for a temporary permit processed. Therefore, there is no longer a need for temporary permits.

The proposed rulemaking updates the Board's regulations regarding license renewal by more clearly delineating between licensees who continue to practice while their licenses are lapsed, in violation of the act, and individuals who do not practice while their licenses are lapsed.

The proposed rulemaking also updates the Board's continuing education provisions to recognize the Department of Veterinary and Biomedical Sciences (Department), College of Agricultural Sciences, Pennsylvania State University as a preapproved provider of veterinary medical continuing education. The Department requested approval of its courses on an annual basis for many years and the Board always approved the Department. After reviewing the information provided by the Department, the Board determined that the courses are of consistently high educational quality and advance the knowledge of licensees in the practice of veterinary medicine and should, therefore, be granted preapproved status. Finally, the Board proposes additional requirements on preapproved providers of continuing education consistent with National trends.

The proposed rulemaking requires licensees attending veterinary medical conferences at which multiple continuing education courses are offered to use some method to verify their attendance at individual courses. The large National veterinary medical conferences use a system whereby the attendees register for particular courses online and schedules are printed. In addition, most of the conferences provide a log sheet for the attendees to write in the names of the courses they attended. One conference provides swipe cards that attendees use when they enter and leave individual courses and a computer-generated log is generated documenting the sessions attended.

The proposed rulemaking also adds a new fee for a duplicate license. Veterinarians are required to display an original license issued by the Board at their practice location. Veterinarians who practice in more than one facility shall obtain a duplicate license from the Board. The Boards and commissions within the Bureau of Professional and Occupational Affairs charge $5 for a duplicate license; however, the Board never put this fee into its regulatory schedule of fees. To inform licensees of the fee, the Board proposes to add the fee. While certified veterinary technicians are not required to display their original license at their practice locations, certified veterinary technicians or veterinarians may need duplicate licenses if their licenses are lost or destroyed. Therefore, the Board proposes to include the duplicate license fee for both veterinarians and certified veterinary technicians.

**Description of Proposed Amendments**

The Board proposes to amend § 31.11(b)(1) (relating to application for licensure) to permit applicants who graduated from schools not accredited by the AVMA to demonstrate equivalent education through either the AVMA (ECFVG) or AAVS (PAVE) equivalency evaluation process.

The Board proposes to amend § 31.11(b)(2) to delete references to the National Board Examination and Clinical Competency Test, examinations that have not been administered in well over 5 years.

The Board proposes to rescind § 31.12 because veterinary students currently take the licensure examination prior to completing veterinary school and applicants for licensure by reciprocity do not need temporary permits because the processing time for a license and a permit is the same.

In addition, the Board proposes to amend § 31.13 (relating to licensure renewal) to require licensees to report disciplinary actions by another state veterinary licensing board or other authority that authorizes a veterinarian to practice. This provision is necessary to ensure that the Board is made aware of disciplinary action by state racing commissions or the United States Department of Agriculture. In addition, the Board proposes to require veterinarians to report criminal convictions to the Board. The Board proposes to amend § 31.13(c) and (d) to more clearly distinguish the requirements and penalties associated with license renewal between licensees who practiced on an expired license in violation of the act and those who ceased practicing upon expiration of their licenses.

The Board proposes to amend §§ 31.16(a) and 31.40(a) (relating to continuing education provider approval), which list those continuing education providers who are preapproved by the Board to offer courses to licensed veterinarians and to certified veterinary technicians, by adding a paragraph to include the Department.
The Board proposes to amend § 31.16(c) to require providers of continuing education to provide attendees with some method to verify their attendance at individual continuing education courses. The large National conferences have already developed some method of documenting attendance at individual courses.

Finally, the Board proposes to amend § 31.41 (relating to schedule of fees) to delete the fee for temporary permits and include the fee for duplicate licenses.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking should not have financial impact on licensees, the Board or any other Commonwealth entity. The proposed rulemaking will not have fiscal impact on the public. The proposed rulemaking will permanently relieve the Department from having to apply to the Board for approval of a continuing education course to be offered by them.

The proposed amendment requiring providers of continuing education offering multiple courses to provide a mechanism for tracking individual’s attendance at particular courses may cause the providers to incur additional expenses and paperwork. However, the large, National meetings already provide either an online, written or electronic tracking sheet to attendees. Therefore, there should not be fiscal impact or additional paperwork requirements.

Sunset Date

The Board continuously monitors its regulations. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on July 14, 2010, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Senate Consumer Protection and Professional Licensure Committee and the House Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, recommendations or objections regarding this proposed rulemaking to Michelle Roberts, Board Administrator, State Board of Veterinary Medicine, P.O. Box 2649, Harrisburg, PA 17105-2649, www.dos.state.pa.us/vet within 30 days following publication of this proposed rulemaking in the Pennsylvania Bulletin.
