COMMISSION ON CRIME
AND DELINQUENCY

Guidelines and Technology Standards for the Collec-
tion and Transmission of Booking Center
Captured Offenders’ Identification Information

Introduction

The Pennsylvania Commission on Crime and Delinquency (PCCD) and its partners have developed this set of guidelines and technology standards to facilitate achieving the goals of Act 81 of 2008 and the Federal Walsh Act requirements. It has always been the desire of PCCD and its partners that, over time, ultimately, every Pennsylvania criminal arrest is digitally recorded with fingerprints, hand impressions, photographs, images of scars, marks, and tattoos, arrest demographics, and offenses charged; and then successfully submitted to the computerized central repositories at the Pennsylvania State Police. It is also desired that any other submissions (applicant, Megan’s Law registrations, etc.) to those repositories also meet standards for data quality. Further implementation of these guidelines and technology standards will help the Commonwealth to move towards achieving these goals and desires.

Definitions

AFIS: Automated Fingerprint Identification System, an automated system for searching fingerprint files and transmitting fingerprint images. AFIS computer equipment can scan fingerprint impressions (or utilize electronically transmitted fingerprint images) and automatically extract and digitize ridge details and other identifying characteristics in sufficient detail to enable the computer’s searching and matching components to distinguish a single fingerprint from thousands or even millions of fingerprints.

Booking Center: A facility utilized for the processing and identification of individuals arrested, charged or accused of a crime (part of the Booking process).

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of August 2012

The Department of Banking (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of August, 2012, is 4 1/2%.

The interest rate limitations under the State’s usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 1.97 to which was added 2.50 percentage points for a total of 4.47 that by law is rounded off to the nearest quarter at 4 1/2%.

PA0270768, PECO Energy Co., 2301 Market Street, Philadelphia, PA 19103-1338. Facility Name: PECO Energy Transmission and Distribution System. The proposed activity will occur in up to eight counties in southeast Pennsylvania.

Description of Proposed Activity: The application is for a new NPDES permit for proposed discharges associated with the application of pesticides. To ensure uninterrupted supply to its customers and also to maintain personnel safety, PECO needs to control vegetation that can interfere with equipment located in transmission and distribution right-of-ways (ROWs) and at substations within over 230 municipalities of Bucks, Chester, Delaware, Lancaster, Lehigh, Montgomery, Philadelphia and York Counties in Pennsylvania.

Applicators are required to follow product labeling instructions of pesticides, which may include provisions to reduce application doses and notify public water suppliers in the event applications are conducted near public water supply intakes. Certain pesticides require a shutdown of the public water supply intake for 48 hours if applied within 1/2 mile from any active drinking water supply intake. Applicators are required to coordinate with the operators of such drinking water treatment plants prior to treatment to avoid any shortages. Generally, the discharges associated with the pesticide applications are not expected to affect public water supplies.

PA DEP has made a tentative determination to issue the NPDES permit subject to the terms and conditions of the permit. An anti-degradation analysis has been completed to document that pesticide application activities in High Quality (HQ) or Exceptional Value (EV) watersheds will be conducted in a manner that minimizes adverse environmental effects. The proposed permit contains conditions that require implementation of Pest Management Measures, Recordkeeping and Annual Reporting Requirements, Corrective Action Documentation and Reporting, and a Pesticides Discharge Management Plan.

You may make an appointment to review the DEP files on this case by calling Dharmendra Kumar at 717.783.2288. You may submit written comments on the application and draft permit within 30 days to the address above. After the 30-day comment period, PA DEP will make a final determination on the issuance of the permit.

The EPA Waiver is not in effect.

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the Pennsylvania Bulletin an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief

PENNSYLVANIA BULLETIN, VOL. 42, NO. 29, JULY 21, 2012
description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. RAC - OP-65-000-853: ArcelorMittal Monessen LLC (345 Donner Avenue, Monessen, PA 15062)

In accordance with 25 Pa. Code §§ 127.42, 127.425 and 127.426, and 40 CFR 51.102, the Department of Environmental Protection (DEP) is providing notice that it in-
tends to conduct a Public Hearing on Thursday, August 30, 2012 at 1:00 p.m. Hearing will be held in Conference Rooms Waterfront A&B located at DEP’s Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222. DEP proposes to issue a revised Reasonably Available Control Technology Operating Permit (RACT OP-65-000-853) to ArcelorMittal LLC for the Monessen Coke Plant located in Monessen, Westmoreland County. The Public Hearing is being conducted to accept testimony regarding the proposed revised RACT OP-65-000-853 and the proposed revision to Pennsylvania’s State Implementation Plan (SIP). When issued, the revised RACT OP-65-000-853 will be submitted to the United States Environmental Protection Agency as a revision to Pennsylvania’s SIP as codified at 40 CFR 52, Subpart NN. This Public Hearing is being held for the purpose of receiving comments on the proposed revised RACT OP-65-000-853 and the proposed SIP revision.

The Monessen Coke Plant is of a byproduct recovery design. Sources included two Coke Oven Gas Fired Boilers, Coal and Coke Handling, Coke Oven Batteries 1B and 2, Coke Quenching and a Byproduct Recovery Plant where ammonia, light oils (primarily benzene, toluene, xylene), tar, tar derivatives, heavy hydrocarbons, and other chemical compounds are recovered from Coke Oven Gas. Emissions associated with Coke Oven Batteries 1B and 2 arise from Charging, Soaking, Pushing, and Combustion Stacks.

Only the allowable emissions of volatile organic compounds (VOCs) and nitrogen oxides (NOx) from the Coke Oven Batteries 1B and 2 Combustion Stacks are affected by this proposed action. Allowable VOC and NOx emissions from these sources were originally established by DEP based on the RACT Proposal submitted by Monessen, Inc. (a wholly owned subsidiary of Sharon Specialty Steel, Inc.) in 1994. The current owner, ArcelorMittal LLC, has requested that these allowables be revised. Permittee has provided the results of 14 years of stack tests, and a revised technical feasibility analysis for possible control of NOx and VOC emissions. Based on the information provided, and the Department’s analysis, revised limits for NOx and VOC emissions from the Coke Oven Batteries 1B and 2 Combustion Stacks are being proposed as shown below. These revised emission limits are not the result of any reconstruction or modification to Coke Oven Batteries 1B and 2. No equipment changes are being sought by Permittee, and none will be authorized by this action.

OPERATING PERMITS

PUBLIC HEARINGS

Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745

Contact: Barbara Hatch, Facilities Permitting Chief—Telephone: 412-442-4174

RACT OP-65-000-853: (ArcelorMittal Monessen LLC, 345 Donner Avenue, Monessen, PA 15062) In accordance with 25 Pa. Code §§ 127.42, 127.425 and 127.426, and 40 CFR 51.102, the Department of Environmental Protection (DEP) is providing notice that it intends to conduct a Public Hearing on Thursday, August 30, 2012 at 1:00 p.m. The Hearing will be held in Conference Rooms Waterfront A&B located at DEP’s Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222. DEP proposes to issue a revised Reasonably Available Control Technology Operating Permit (RACT OP-65-000-853) to ArcelorMittal LLC for the Monessen Coke Plant located in Monessen, Westmoreland County. The Public Hearing is being conducted to accept testimony regarding the proposed revised RACT OP-65-000-853 and the proposed revision to Pennsylvania’s State Implementation Plan (SIP). When issued, the revised RACT OP-65-000-853 will be submitted to the United States Environmental Protection Agency as a revision to Pennsylvania’s SIP as codified at 40 CFR 52, Subpart NN. This Public Hearing is being held for the purpose of receiving comments on the proposed revised RACT OP-65-000-853 and the proposed SIP revision.

The Monessen Coke Plant is of a byproduct recovery design. Sources included two Coke Oven Gas Fired Boilers, Coal and Coke Handling, Coke Oven Batteries 1B and 2, Coke Quenching and a Byproduct Recovery Plant where ammonia, light oils (primarily benzene, toluene, xylene), tar, tar derivatives, heavy hydrocarbons, and other chemical compounds are recovered from Coke Oven Gas. Emissions associated with Coke Oven Batteries 1B and 2 arise from Charging, Soaking, Pushing, and Combustion Stacks.

Only the allowable emissions of volatile organic compounds (VOCs) and nitrogen oxides (NOx) from the Coke Oven Batteries 1B and 2 Combustion Stacks are affected by this proposed action. Allowable VOC and NOx emissions from these sources were originally established by DEP based on the RACT Proposal submitted by Monessen, Inc. (a wholly owned subsidiary of Sharon Specialty Steel, Inc.) in 1994. The current owner, ArcelorMittal LLC, has requested that these allowances be revised. Permittee has provided the results of 14 years of stack tests, and a revised technical feasibility analysis for possible control of NOx and VOC emissions. Based on the information provided, and the Department's analysis, revised limits for NOx and VOC emissions from the Coke Oven Batteries 1B and 2 Combustion Stacks are being proposed as shown below. These revised emission limits are not the result of any reconstruction or modification to Coke Oven Batteries 1B and 2. No equipment changes are being sought by Permittee, and none will be authorized by this action.

The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483, TDD users.
may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the Pennsylvania Bulletin unless the appropriate statute provides a different time period. Copies of the appeal form and the Board’s rules of practice and procedure may be obtained from the Board. The appeal form and the Board’s rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION
UNDER ACT 2, 1995
PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the Pennsylvania Bulletin a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act’s remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the Pennsylvania Bulletin. These include the remedial investigation report, risk assessment report, and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to
achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department’s decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. Public Comment Period and Public Hearing Concerning Draft NPDES Permit for Exelon Generation Company, LLC, Limerick Generating Station

Summary: The Pennsylvania Department of Environmental Protection (PADEP) is accepting comments on the National Pollutant Discharge Elimination System Permit (NPDES) Permit renewal application filed with the Department by Exelon Generation Company, LLC (Exelon Generation) for its Limerick Generating Station (LGS) located in Limerick, Pennsylvania. The draft permit was published in the 12/10/2011 Pennsylvania Bulletin. PADEP is accepting public comments regarding draft NPDES Permit No. PA0051926 for the LGS facility until 5:00 p.m. on October 27, 2012. The draft NPDES Permit regulates the discharge of noncontact cooling water, boiler blow down, treated process wastewater and storm water to the Schuylkill River and Possum Hollow Run through various outfalls.

The Department will hold a joint public hearing with the Delaware River Basin Commission (DRBC) regarding proposed agency actions for this proposal on August 28, 2012.

Prior to the hearing, the NPDES permit renewal application and related documents, and draft Permit No. PA0051926 can be reviewed by making an appointment with PADEP’s Records Management Section at 484.250.5910. The above documents are also available at the following locations in Montgomery and Chester counties: Limerick Township, 646 West Ridge Pike, Limerick, PA 19468; and East Coventry Township, 855 Ellis Woods Road, Pottstown, PA 19465.

Hearing Information: The public hearing will take place on Tuesday, August 28, 2012 at the Sunny Brook Ballroom, 50 Sunny Brook Road, Pottstown, PA 19464 from 6:00 p.m. until 9:00 p.m. Prior to the hearing, an information session will be held at the same location from 4:30 p.m. until 5:30 p.m. Written comments will also be accepted prior to the hearing, at the hearing and until 5:00 p.m. on October 27, 2012.

The sole purpose of the hearing is to provide members of the public with an opportunity to present oral testimony on the proposed Exelon Generation Company, LLC, Limerick Generating Station Draft NPDES permit. In order to give everyone who wishes to testify the opportunity to do so at the public hearing, the following procedures will be in effect:

Everyone must register to testify. Registrations to present oral testimony will begin at approximately 4:30 p.m. on the day of the hearing and will continue until the hearing is closed. There will be no advance registration. Speakers will be called in roughly, but not exactly, the order in which they registered.

Testimony will be limited to 3 minutes. To allow everyone who wishes to speak an opportunity to do so, oral testimony will be limited to three minutes. Speakers will not be permitted to cede their time to others; however, after everyone who wishes to speak has had a chance to do so, the hearing officer may accept requests to supplement earlier remarks. A court stenographer will capture all verbal comments for the public record. Individuals who have prepared written testimony are asked to summarize their comments during the three-minute period for oral testimony and to submit their complete
written comments either at the hearing or via email, fax, US mail, delivery service, or hand delivery before 5:00 p.m. on October 27, 2012.

Individuals in need of an accommodation as provided for in the Americans with Disabilities Act who wish to attend the hearing should contact Ms. Deborah Fries directly at 484.250.5808 or through the Telecommunications Relay Services (TRS) at 711, to discuss how the Department can accommodate your needs.

Comments: Written comments to PA DEP may be submitted at the hearing and may also be sent to the attention of Ms. Jenifer Fields via email at jfields@pa.gov; by fax to 484.250.5971; or by US mail or delivery service to PADEP, Southeast Regional Office, Water Management, 2 E Main Street, Norristown, PA 19401. Regardless of the method of submission, all comments should include the name, affiliation (if any) and address of the commenter and the subject line “Public Comment—Exelon Limerick Generating Station Docket.”

For Further Information Contact: For questions about the draft NPDES Permit action or about the upcoming hearing, please contact Mr. Sohan Garg at 484.250.5197 or Mr. Pravin Patel at 484.250.5194.

Notice to Public of Proposed Lead-Based Paint Hazard Control Action Located Within Floodplains

The purpose of this notice is to notify the public that the Department of Health (Department) is proposing to use Federal funds under the United States Department of Housing and Urban Development (HUD) Lead-Based Paint Hazard Control Grant Program within a Federal Emergency Management Agency (FEMA) designated 100-year floodplain. The proposed program would involve lead hazard control and associated minor rehabilitation on residential properties within the city limits of Johnstown and Berks and Fayette Counties. The target areas contain floodplains and project sites could be located within Flood Zones A, AE, A1-A30 or A99 as designated by the FEMA Flood Insurance Rate Maps.

Project: Lead Hazard Control Program, PALHB0517-12, $2,480,000, June 1, 2012, through May 31, 2015.

Purpose: To eliminate lead hazards in eligible low-income housing in Pennsylvania (LHCP). The LHCP will accomplish its goals by utilizing Commonwealth-certified inspectors to assess units for lead paint hazards. Units found to have a lead presence will undergo lead-based paint hazard reduction through interim controls or hazard abatement.

Location: See the previously listed target area description.

Affected and interested agencies, groups and persons are encouraged to participate in this decision making process for the proposed action in the floodplain. Written comments for consideration by the Department may be sent to Todd Christophel or Cindy Dundas, Health and Welfare Building, 7th Floor, East Wing, 625 Forster Street, Harrisburg, PA 17120, (717) 346-3000. Written comments should be received at the previously listed address on or before August 5, 2012.

Special Supplemental Nutrition Program for Women, Infants and Children (WIC Program); Retail Store Alert—Listing of Licensed Infant Formula Sellers

According to the Child Nutrition and WIC Reauthorization Act of 2004 (Pub. L. No. 108-265), each state agency is required to maintain a list of infant formula wholesalers, distributors and retailers licensed in the state in accordance with state law, and of infant formula manufacturers registered with the Food and Drug Administration.

Authorized WIC vendors are only permitted to purchase infant formula from the List of Licensed Infant Formula Wholesalers, Distributors, Retailers, and Manufacturers.

As requested in the Retail Store Alert dated February 14, 2012, many WIC authorized stores provided the names of formula sellers. These sellers were contacted and required to submit their current “Department of Agriculture Bureau of Food Safety and Laboratory Services Wholesale Registration” certification. The sellers who provided a valid certificate are listed on the following Licensed Infant Formula Seller List. These sellers and all Commonwealth WIC authorized vendors make up the Licensed Infant Formula Sellers. The current list is available on the Vendor Assistant web site as the Retail Store Alert identified as 2012-07-02 Actual List of Licensed Infant Formula Sellers.

When ordering infant formula, refer to the sellers on the following list or purchase from a WIC authorized vendor who can be identified by the red PA WIC decal located on the entrance door of the store.

Also, WIC authorized stores must maintain purchase records and records used for Federal tax reporting pur-
poses for allowable foods for a minimum of 2 years in accordance with 28 Pa. Code § 1105.3(16) (relating to terms and conditions of participation).

Purchasing infant formula from a seller who is not on the approved List of Licensed Infant Formula Wholesale-ers, Distributors, Retailers, and Manufacturers may result in disqualification from the WIC Program.

Individuals with questions should contact the Retail Store Section of the Division of WIC at (717) 783-1289.

The following Retail Store Alert is also available on the Vendor Assistant web site at https://wic.health.state.pa.us/vendorassistant/ or at PAWIC.com.

**FISH AND BOAT COMMISSION**

Classification of Wild Trout Streams; Proposed Additions to List; October 2012

Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Fish and Boat Commission (Commission) to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The Commission’s Fisheries Management Division maintains the list of wild trout streams. The Executive Director, with the approval of the Commission, will from time to time publish the list of wild trout streams in the Pennsylvania Bulletin. The listing of a stream section as a wild trout stream is a biological designation that does not
determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams.

At the next Commission meeting on October 1 and 2, 2012, the Commission will consider changes to its list of wild trout streams. Specifically, the Commission will consider the addition of the following streams or portions of streams to the list:

Department of Labor and Industry Regulation #12-96 (IRRC #2939)
Unemployment Compensation; Active Search for Work
July 5, 2012

We submit for your consideration the following comments on the proposed rulemaking published in the May 5, 2012 Pennsylvania Bulletin. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b). Section 5.1(a) of the RRA (71 P.S. § 745.5a(a)) directs the Department of Labor and Industry (Department) to respond to all comments received from us or any other source.

1. Determination of whether the regulation is in the public interest; Feasibility and reasonableness of the regulation; Implementation procedures; Clarity.

Preamble and the Regulatory Analysis Form (RAF)

Section 5.2 of the RRA (71 P.S. § 745.5b) directs the Independent Regulatory Review Commission (IRRC) to determine whether a regulation is in the public interest. When making this determination, IRRC considers criteria such as feasibility and reasonableness of the regulation. To make that determination, IRRC must analyze the text of the Preamble and proposed regulation and the reasons for the new or amended language. IRRC also considers the information a promulgating agency is required to provide under Section 5(a) (71 P.S. § 745.5a(a)) in the Regulatory Analysis Form (RAF).

The explanation of the regulation in the Preamble and the information in the RAF do not provide any corresponding data or specific information to quantify, justify or explain the imposition of the specific active search requirements that are being proposed. Without a detailed description of the regulation and its impact, it is difficult to determine whether the requirements in the rulemaking are reasonable or feasible.

In the final-form regulation submittal, the Preamble and the RAF should include a more detailed description of the basis for the amendments proposed in each section of the regulation. Additionally, we request that the Department provide data on the average number of weeks a claimant is unemployed and the typical number of positions applied for throughout this time period. We will review the Department’s response as part of our determination of whether the final-form regulation is in the public interest.

2. Legislative comments.

On June 26, 2012, Representative William F. Keller, Democratic Chairman of the House Labor and Industry Committee, submitted comments on behalf of the Committee’s Democratic members that address the following:

- The department cannot enforce work search requirements against claimants for any weeks prior to the date that approved regulations are published in the Pennsylvania Bulletin.

- The requirement to retain work search records for two-years after an initial claim for benefits and make them available for audits by the department is excessive.

- The department must ensure claimants will receive detailed instructions of the work search registration process as well as confirmation of completed registration.

- The requirement for claimants to submit a minimum number of job applications to employers each week is arbitrary, exceeds the intent of the law, and may be counterproductive for claimants and employers.

- The two-tiered system of work search requirements which increases requirements based on benefit weeks may be confusing and exceeds the work search requirement intended by the law.

- The regulations fail to include several waivers or exemptions, inducing those for claimants seeking work in industries or occupations in which resumes are not commonly used, for situations where compliance with work search requirements would be oppressive or inconsistent with the intent of the law, and for certain claimants who are notified of a work recall date.
- The regulations fail to identify a process by which claimants may obtain allowable waivers or exemptions.
- The regulations should allow for leniency to claimants who are limited in work opportunities due to a disability or other special circumstances.
- Good cause exceptions should be provided where failure to comply with the regulations is not willful or through no fault of the claimant's.

We will review the Department's responses to these issues in our determination of whether the final-form regulation is in the public interest.

3. Timetables for compliance.

It is difficult to determine the expected dates of compliance for this regulation. According to the Preamble, this proposed rulemaking will “affect claimants who file an application for UC [unemployment compensation] benefits that take effect on or after January 1, 2012.” Both Community Legal Services, Inc. (CLS) and Representative Keller challenge this implementation date, and point out that a regulation is not effective until it has been properly promulgated through the regulatory review process.

We recognize that January 1, 2012 is the date the corresponding provisions of Act 6 of 2011 (Act) became effective. However, it is unclear whether application of this date to the regulation will result in a change in compliance for existing claimants who already are receiving compensation. The Preamble does not clarify whether these claimants will be required to completely overhaul their existing job searches or even whether they will need to re-apply for unemployment. In addition, there is no explanation of how the Department will notify them of potential changes to their eligibility. Unless the Department can explain the need for imposing these eligibility requirements retroactively, we recommend that the regulation only apply to claimants who file an application for unemployment compensation subsequent to the effective date of the final-form regulation.

4. Section 65.11 (c)—Weekly requirements.—Reasonableness; Implementation procedures; Clarity.

Subsection (c)(2)

Subsection (c)(2) requires a claimant to create a record of weekly work search activities, and this record must contain “the information required by the Department.” According to the Department, this “information” is contained in a Department form. To improve clarity, we recommend that the final-form regulation reference this form and identify how claimants can access the form.

Subsection (c)(3)

Subsection (c)(3) requires the claimant to maintain the weekly work search record for two years. The Department should explain why this timeframe is appropriate.

Subsection (c)(4)

Subsection (c)(4) requires a claimant to “produce the record for the Department’s review at the times and in a format and manner as required by the Department.” The Department should clarify in the regulation under what circumstances, and in what format, it would request the weekly work search record.

5. Section 65.11 (d)—Weekly work search activities.—Consistency with the intent of the General Assembly; Consistency with the statute; Feasibility and reasonableness of the regulation; Implementation procedures; Clarity.

Benefit year

Subsections (d)(1) and (2) contain specific search requirements that coincide with consecutive weeks of the benefit year. Why does the regulation base search requirements on the consecutive weeks of the benefit year and not the consecutive number of weeks the claimant has actually been unemployed? The Department should clarify this issue.

Subsection (d)(1)

Subsection (d)(1) establishes the weekly work search activities for claimants “during each week from the third consecutive week of the benefit year through the eighth consecutive week of the benefit year.” Subsection (d)(1)(ii) permits the claimant to limit his search during the third through the eighth consecutive week to positions that would “provide employment and wages similar to those the claimant had prior to his unemployment…” We address three areas of concern.

First, it is unclear how this 5-week timeframe affects all claimants, regardless of their profession, sufficient time to search for a job within their field before the additional search requirements of Subsection (d)(2) are required. Neither the Preamble nor the RAP establishes the reasonableness of this timeframe. Therefore, the Department should explain how it determined this timeframe is appropriate. We request that the Department include as part of its explanation, corresponding data that indicates the average amount of time it takes claimants to find jobs within their fields.

Second, the Pennsylvania Chamber of Business and Industry (Chamber) contends that the term “similar” in Subsection (d)(1)(ii) is ambiguous. We acknowledge that the word “similar” is used in the Act. See 43 P. S. § 801(b)(1)(iii). However, the regulation does not clarify how the Department will implement this provision of the Act. Therefore, we recommend the Department explain how claimants can determine whether potential employment and wages qualify under this regulation as “similar” to those received prior to unemployment.

Finally, Subsection (d)(1)(ii) also permits claimants to limit their search to positions: “within a 45 minute commuting distance or a commuting distance that is generally accepted in the claimant’s labor market, whichever is greater.” Similar language is included in the Act. See 43 P. S. § 801(b)(1)(iii). However, why did the Department expand upon the provisions contained in the Act by adding the phrase “whichever is greater?” The Department should also explain how a claimant can conclude what commuting distance is “generally accepted” in a particular field.

Subsection (d)(2)

Subsection (d)(2) establishes the weekly work search activities for claimants who are unemployed after the eighth consecutive week.

Subsection (d)(2)(i) requires these claimants to apply weekly for three positions that would result in “suitable employment.” Suitable work is not limited to positions held prior to unemployment, but embraces “all work which the employee is capable of performing.” See 43 P. S. § 753 (t). Suitability is based on, among other things, “the length of time [the claimant] has been unemployed.
and the reasons therefore, the prospect of obtaining local work in his customary occupation, his previous earnings..." See 43 P.S. § 753(t). The Department should explain how it determined that nine weeks is the appropriate benchmark for expanding the job search requirements. The Department should provide as part of its explanation corresponding data that establishes the number of weeks a claimant normally is unemployed when they begin to apply for jobs outside of their chosen line of work.

Subsection (d)(2)(ii) prohibits claimants from limiting their weekly searches to similar positions held prior to unemployment if doing so would result in the claimant applying for less than three jobs. Should a claimant exhaust all potential employment options for similar work prior to the ninth week, this subsection does not provide credit to claimants for these past searches. If claimants cannot apply prior searches to comply with this subsection, are they unfairly penalized for their efforts to find jobs within their field? Representative Keller indicates in his comments that such a result does not reflect the intent of the legislature when it enacted the Act.

In its comments, CLS also suggests that implementation of the regulation may result in unreasonable and impractical consequences for certain types of claimants. For example, CLS asserts that a union employee who cannot find three positions to apply for within their field, may have to search for non-union jobs, which could bar the claimant from further employment within the union. The final-form regulation should clarify how such situations would be addressed under this regulation.

Subsection (e) lists the exceptions to the active search requirement. This subsection does not contain the provisions of the Act granting waivers for "oppressive or inconsistent..." search requirements. See 43 P.S. § 801(b)(6). We recommend that the final-form regulation include or cross-reference this statutory waiver. We also recommend that the final-form regulation include criteria the Department will use to implement this provision.

Subsection (e)(1)(ii) permits as an alternative to the weekly job search requirements, that a claimant can actively participate in “a program or activity approved by the Department as an acceptable work search alternative.” We recommend that the final-form regulation identify the types of programs or activities the Department would find to be acceptable work search alternatives and where claimants can find a list of such work search alternatives.

7. Section 65.11 (h)—Definitions.—Clarity.

Subsection (h) contains definitions for terms used in the regulation. According to Section 1.7 (a) of the Pennsylvania Code and Bulletin Style Manual, definitions should be placed near the beginning of a chapter. To improve clarity, we recommend that in the final-form regulation, Subsection (h) be moved to the beginning of Section 65.11.

8. Miscellaneous clarity.

Statutory citations

The proposed regulation includes certain provisions contained in the Act, but excludes others. Both CLS and Representative Keller raise similar concerns. We ask the Department to explain the reason for this inconsistency. In addition, to improve clarity, we recommend that the Department include cross-references to the relevant sections of the Act in the final-form regulation, including:

Subsection: Cross-Reference to:
- § 65.11(b) 43 P.S. § 801(b)(1)(ii)
- § 65.11(d)(1)(ii) 43 P.S. § 801(b)(1)(iii)
- § 65.11 (e) 43 P.S. § 801(b)(6)
- § 65.11 (e)(4) 43 P.S. § 801(b)(3)
- § 65.11 (f) 43 P.S. § 801(b)(5)

References to the Law and Purdon's citations

Many sections of this regulation reference both a particular section of the Pennsylvania Unemployment Compensation Law (Law) and the corresponding Purdon's citation. For example, Section 65.11 (d)(2)(i) references “section 4(t) of the law (43 P.S. § 753(t)).” Other sections of this regulation only reference a particular section of the Law. For consistency, the Department should add the appropriate Purdon's citations to the following sections of the final-form regulation:

- § 65.11(e)(2)
- § 65.11(f)(1)(i)
- § 65.11 (f)(2)
- § 65.11 (f)(2)(ii)
- § 65.11 (h)

Subsection (d)(3)

When applying for a position, Subsection (d)(3) states, in part, “…a claimant may apply for a position by expressing an interest in employment…” (Emphasis added.) The phrase “by expressing an interest in employment” is vague and appears to be redundant. We recommend the Department delete this phrase in the final-form regulation.

State Board of Osteopathic Medicine
Regulation #16A-5321 (IRRC #2941)

Physician Assistants and Respiratory Therapists

July 11, 2012

We submit for your consideration the following comments on the proposed rulemaking published in the May 12, 2012 Pennsylvania Bulletin. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Board of Osteopathic Medicine (Board) to respond to all comments received from us or any other source.

1. Consistency with the statute; Implementation procedures.

This proposed regulation implements changes made by Act 56 of 2004 and Act 46 of 2008 (Act 46) to the Osteopathic Medical Practice Act (Act). State Board of Medicine Proposed Regulation #16A-4930 seeks to implement identical changes made by Act 45 of 2008 to the Medical Practice Act of 1985. The “Note” section of the Act includes the following language from Act 46: “the State Board of Osteopathic Medicine and the State Board of Medicine shall jointly promulgate regulations...” We ask the Board to explain how filing two separate regulations from each individual board is consistent with conditions imposed by Act 46.
Licensure of Physician Assistants and Registration of Supervising Physicians

2. Section 25.163.—Approval and effect of licensure and biennial renewal of physician assistants and registration of supervising physicians.—Implementation procedures; Clarity.

This section establishes the process for approval and biennial renewal of licensure for physician assistants. We raise two issues.

First, Subsection (c) requires physician assistants to maintain national certification by “completing current recertification mechanisms available to the profession and recognized by the Board.” The final-form regulation should identify the recertification mechanisms recognized by the Board. Alternatively, the final-form regulation should identify how a physician assistant can access this information.

Second, Subsection (e) explains the types of national certifications recognized by the Board. The Board should clarify where it will publish recognition of an organization’s certification of physician assistants.

Subchapter K. Respiratory Therapists

3. Section 25.506.—Temporary permits.—Need; Clarity.

Subsection (a)

This subsection lists the criteria that must be satisfied for an applicant to receive a temporary permit. Subsection (a)(3) states that a temporary permit is issued to an applicant “who is recognized as a credentialed respiratory therapist…” (Emphasis added.) Would a “credentialed” respiratory therapist already have a license to practice? If so, what would be the need for these applicants to obtain a temporary permit? The Board should clarify this issue.

Subsection (b)

The House Professional Licensure Committee suggests that the existing reference to “CRTT” in Subsection (b) be replaced with “credentialing examination” since “CRTT” has been deleted in other provisions of the proposed regulation. We agree and recommend the Board replace this term in the final-form regulation.

4. Section 25.507.—Criteria for licensure as a respiratory therapist.—Implementation procedures; Clarity.

This section establishes the criteria necessary for licensure as a respiratory therapist. Subsection (1)(i) requires applicants to pass the “credentialing examination” approved by the National Board for Respiratory Care (NBRC). The PA Society for Respiratory Care, Inc. recommends that the term “credentialing examination” be replaced with “entry level credentialing examination” to identify the specific examination required by NBRC. We agree that this term is broad and recommend the Board clarify the specific examination necessary for licensure as a respiratory therapist.

5. Section 25.509a.—Requirement of continuing education.—Fiscal impact; Reasonableness; Clarity.

Subsection (a)

In accordance with Act 46, Subsection (a) increases the minimum hours of continuing education an applicant for license renewal or reactivation is required to complete from 20 to 30 hours within each two year licensure period. See 63 P.S. § 271.10b(f)(2). However, the Regulatory Analysis Form (RAF) provided by the Board states that this regulation will impose no additional costs on the regulated community. (RAF #14.) It is unclear how additional costs will not occur as a result of this increase to the continuing education requirements. We ask the Board to quantify this potential cost increase in the RAF submitted with the final-form regulation.

Additionally, existing language in Subsection (a)(1) prohibits respiratory therapists from obtaining more than 10 hours of continuing education credit through various forms of “non-traditional education.” According to the Preamble, the Board considered adjusting this limitation, but instead chose to leave the limitation as is in the proposed regulation. However, similar language was deleted from State Board of Medicine Proposed Regulation #16A-4930. See 49 Pa. Code § 18.309a(a)(3). The Board should explain the reason for this inconsistency.

6. Section 25.509b.—Approved educational programs.—Clarity.

This section describes the methods by which respiratory therapists can apply academic coursework to their continuing education credits. Subsection (c) describes the courses that cannot be used for continuing education credit, including “practice building.” This term is vague, and we recommend the final-form regulation include a definition for this term.

7. Miscellaneous clarity issues.

Order of the Preamble

The Preamble explains the proposed amendments to the provisions concerning respiratory therapists first and then explains the amendments to the provisions concerning physician assistants. In the regulation, however, the sections concerning physician assistants occur before the sections on respiratory therapists. To improve clarity, we recommend that the Preamble follow the order of the provisions contained in the final-form regulation.

References to the Act and Purdon’s citations

Many sections of this regulation reference both a particular section of the Act and the corresponding Purdon’s citation. For example, Subsection 25.164(a) references “section 10(g.3) of the act (63 P.S § 271.10(g.3)).” Other sections of this regulation only reference a particular section of the Act. For consistency, the Board should add the appropriate Purdon’s citations to the following sections of the final-form regulation:

- § 25.164(c)
- § 25.164(d)
- § 25.201(a)
- § 25.505(b)

State Board of Medicine Regulation #16A-4930 (IRRC #2942)

Physician Assistants and Respiratory Therapists

July 11, 2012

We submit for your consideration the following comments on the proposed rulemaking published in the May 12, 2012 Pennsylvania Bulletin. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Board of Medicine (Board) to respond to all comments received from us or any other source.

1. Consistency with the statute; Implementation procedures.

This proposed regulation implements changes made by Act 45 of 2008 (Act 45) to the Medical Practice Act of
LICENSURE OF PHYSICIAN ASSISTANTS AND REGISTRATION OF SUPERVISING PHYSICIANS

2. Section 18.145.—Biennial registration requirements; renewal of physician assistant license.—Implementation procedures; Clarity.

This section establishes the process for approval and biennial renewal of licensure for physician assistants. We raise two issues.

First, existing language in Subsection (c) requires physician assistants to maintain national certification by “completing current recertification mechanisms available to the profession and recognized by the Board.” The final-form regulation should identify the recertification mechanisms recognized by the Board. Alternatively, the final-form regulation should identify how a physician assistant can access this information.

Second, Subsection (c) explains the types of national certifications recognized by the Board. The Board should clarify where it will publish recognition of an organization’s certification of physician assistants.

SUBCHAPTER F. RESPIRATORY THERAPISTS

3. Section 18.306.—Temporary permits.—Clarity.

Subsection (a)

This subsection lists the criteria that must be satisfied for an applicant to receive a temporary permit. Subsection (a)(3) states that a temporary permit is issued to an applicant “who is recognized as a credentialed respiratory therapist…” (Emphasis added.) Would a “credentialed” respiratory therapist already have a license to practice? If so, what would be the need for these applicants to obtain a temporary permit? The Board should clarify this issue.

Subsection (b)

The House Professional Licensure Committee suggests that the existing reference to “CRTT” in Subsection (b) be replaced with “credentialing examination” since “CRTT” has been deleted in other provisions of the proposed regulation. We agree and recommend the Board replace this term in the final-form regulation.

4. Section 18.307.—Criteria for licensure as a respiratory therapist.—Implementation procedures; Clarity.

This section establishes the criteria necessary for licensure as a respiratory therapist. Subsection (1)(i) requires applicants to pass the “credentialing examination” approved by the National Board for Respiratory Care (NBRC). The PA Society for Respiratory Care, Inc. recommends that the term “credentialing examination” be replaced with “entry level credentialing examination” to identify the specific examination required by NBRC. We agree that this term is broad and recommend the Board clarify the specific examination necessary for licensure as a respiratory therapist.

5. Section 18.309a.—Requirement of continuing education.—Fiscal impact; Reasonableness; Clarity.

Subsection (a)

In accordance with Act 45, Subsection (a) increases the minimum hours of continuing education an applicant for license renewal or reactivation is required to complete from 20 to 30 hours within each two year licensure period. See 63 P. S. § 422.36a(f)(2). The Regulatory Analysis Form (RAF) provided by the Board states that this regulation will impose no additional costs on the regulated community. (RAF #14.) However, several comments from the regulated community assert this statutory increase in hours will impose additional costs for respiratory therapists seeking license renewal. We ask the Board to review these comments, and quantify this potential cost increase in the RAF submitted with the final-form regulation.

Additionally, the Preamble notes that the Board chose to delete language from Subsection (a)(3) that prohibits respiratory therapists from obtaining more than 10 hours of continuing education credit through various forms of “non-traditional education.” However, similar language was not deleted in State Board of Osteopathic Medicine Proposed Regulation #16A-5321.

See 49 Pa. Code § 25.509a(a)(1). The Board should explain the reason for this inconsistency.

6. Section 18.309b.—Approved educational courses.—Clarity.

This section describes the methods by which respiratory therapists can apply academic coursework to their continuing education credits. Subsection (c) describes the courses that cannot be used for continuing education credit, including “practice building.” This term is vague, and we recommend the final-form regulation include a definition for this term.

7. Miscellaneous clarity issues.

Order of the Preamble

The Preamble explains the amendments to the sections on respiratory therapists first and then explains the amendments to the provisions concerning physician assistants. In the regulation, however, the sections concerning physician assistants occur before the sections on respiratory therapists. To improve clarity, we recommend that the Preamble follow the order of the provisions contained in the final-form regulation.

References to the Act and Purdon’s citations

Many sections of this regulation reference both a particular section of the Act 45 and the corresponding Purdon’s citation. For example, Subsection 18.146(a) references “section 36(f) of the act (63 PS § 422.36(f)).” Other sections of this regulation only reference a particular section of the Act. For consistency, the Board should add the appropriate Purdon’s citations to the following sections of the final-form regulation:

- § 18.146(c)
- § 18.146(d)
- § 18.305(b)
