BOARD OF COAL MINE SAFETY

Subcommittee Meeting

The Board of Coal Mine Safety (Board) has scheduled a subcommittee meeting to discuss standards for promulgation of a rulemaking concerning surface facilities associated with underground bituminous coal mines. The subcommittee will meet on Thursday, October 17, 2013, at 10 a.m. at the Department of Environmental Protection, Cambria District Mining Office, Second Floor Conference Room, 286 Industrial Park Road, Ebensburg, PA. A meeting agenda and meeting materials for the subcommittee meeting will be available on the Department of Environmental Protection’s web site at www.dep.state.pa.us (Select “Public Participation,” “Advisory Committees” and “Board of Coal Mine Safety”).

Questions concerning the Board’s subcommittee meeting may be directed to Allison D. Gaida, Department of Environmental Protection, Bureau of Mine Safety, Fayette County Health Center, 100 New Salem Road, Room 167, Uniontown, PA 15401, (724) 439-7289, agaida@pa.gov.

Persons in need of accommodations as provided for in the Americans with Disabilities Act of 1990 should contact Allison Gaida directly at (724) 439-7289 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Board may accommodate their needs.

### VII. List of NOIs for NPDES and/or Other General Permit Types

**PAG-12**

**CAFO Notices of Intent Received**

**Southcentral Region: Clean Water Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110. Telephone: 717-705-4707.**

PAG123711, CAFO, Dwight D. Zimmerman, 80 South Northkill Road, Bernville, PA 19506.

This proposed facility is located in Upper Tulpehocken, Berks County.

Description of Size and Scope of Proposed Operation/Activity: Permit application for a 288 AEU Poultry (Broiler) operation.

The receiving stream, Northkill Creek, is in watershed 3C, and classified for: CWF.

The proposed effluent limits for the operation/activity include: Except for the chronic or catastrophic rainfall events defined as over the 25-year/24-hour rain storms, the CAFO general permit is a non-discharge NPDES permit. Where applicable, compliance with 40 CFR federal effluent limitation guidelines is required. The general permit requires no other numeric effluent limitations and compliance with the Pennsylvania Nutrient Management Act and the Clean Stream Law constitutes compliance with the state narrative water quality standards.

**STATE CONSERVATION COMMISSION**

**PROPOSED NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR NPDES PERMITS FOR CAFOs**

This notice provides information about agricultural operations that have submitted nutrient management plans (NMPs) for approval under 3 Pa.C.S. Chapter 5 and that have or anticipate submitting applications for new, amended or renewed NPDES permits, or Notices of Intent (NOIs) for coverage under a general permit, for CAFOs, under 25 Pa. Code Chapter 92a. This notice is provided in accordance with 25 Pa. Code Chapter 92a and 40 CFR Part 122, implementing The Clean Streams Law and the Federal Clean Water Act.

Based upon preliminary reviews, the State Conservation Commission (SCC) or County Conservation Districts (CCD) working under a delegation agreement with the SCC have completed an administrative review of NMPs described. These
NMPs are published as proposed plans for comment prior to taking final actions. The NMPs are available for review at the CCD office for the county where the agricultural operation is located. A list of CCD office locations is available at http://www.nacdnet.org/about/districts/directory/pa.phtml or can be obtained from the SCC at the office address listed or by calling (717) 787-8821.

Persons wishing to comment on an NMP are invited to submit a statement outlining their comments on the plan to the CCD, with a copy to the SCC for each NMP, within 30 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the NMPs. Comments should include the name, address and telephone number of the writer and a concise statement to inform the SCC of the exact basis of the comments and the relevant facts upon which they are based. Comments should be sent to the SCC, Agriculture Building, Room 310, 2301 North Cameron Street, Harrisburg, PA 17110.

Persons with a disability who require an auxiliary aid, service, including TDD users or other accommodations to seek additional information should contact the SCC through the Pennsylvania AT&T Relay Service at (800) 654-5984.

### PUBLIC WATER SUPPLY (PWS) PERMITS

Under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17), the following parties have applied for PWS permits to construct or substantially modify public water systems.

Persons wishing to comment on permit applications are invited to submit statements to the office listed before the application within 30 days of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding an application. A comment should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the Pennsylvania Bulletin at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and related documents are on file at the office listed before the application and available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability that require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995**

**PREAMBLE 1**

Acknowledgment of Notices of Intent to RemEDIATE Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the Pennsylvania Bulletin an acknowledgment noting receipt of Notices of Intent to RemEDIATE. An acknowledgment of the receipt of a Notice of Intent to RemEDIATE is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remEDIATE a site as a special industrial area shall file a Notice of Intent to RemEDIATE with the Department. A Notice of Intent to RemEDIATE filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remEDIATE identified under the act will be relieved of further liability for the remEDIATEment of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remEDIATEment.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remEDIATEment using a site-specific standard, in whole or in part, and for sites remEDIATEed as a special industrial area. This period begins when a summary of the Notice of Intent to RemEDIATE is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remEDIATEment to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remEDIATEtion and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remEDIATEor of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remEDIATEor of the site.

For further information concerning the content of a Notice of Intent to RemEDIATE, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to RemEDIATE:

**Southcentral Region: Environmental Cleanup and Brownfields Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110. Phone 717.705.4705.**

- Kenneth R. Royer Property, 165 South Reading Road, Ephrata Borough, Lancaster County. Gen Chem, Inc., 52 North Cedar Street, PO Box 384, Lititz, PA 17543, on behalf of K & J Realty, 1526 Oak Street, Lebanon, PA 17042, submitted a Notice of Intent to RemEDIATE site soils contaminated with gasoline released from unregulated underground storage tanks. The site operated as a gas station prior to the 1980s, and will be remEDIATEed to a combination of the Nonresidential Statewide Health and Site Specific standards. Current and future use of the site is a retail flower shop. The Notice of Intent to RemEDIATE was published in the Intelligenjer Journal-Lancaster New Era-Sunday News on September 15, 2013.

**Southwest Region: Environmental Cleanup Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745**

- Corapolis South Petroleum Storage Terminal, 9 Thorn Street, Moon Township, Allegheny County. EP&S of Vermont, Inc., 5100 Paxton Street, Harrisburg PA 17111, on behalf of Motiva Enterprises, LLC, submitted a Notice of Intent to RemEDIATE. A release of brine water from a crack in a 4,200 gallon AST impacted soil in the adjacent area. The contaminated soil was removed and the site remEDIATEed to the residential statewide health standard. The Notice of Intent to RemEDIATE was published in the Pittsburgh Tribune Review on September 12, 2013.

**Buchheit #5 Site, Washington Church Road, Rayne Township, Indiana County. EP&S of Vermont, Inc., 5100 Paxton Street, Harrisburg PA 17111, on behalf of XTO Energy, Inc. 395 Airport Road, Indiana PA 15701, submitted a Notice of Intent to RemEDIATE. AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the Pennsylvania Bulletin, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the Pennsylvania Bulletin at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.
**PLAN APPROVALS**

Plan Approval Applications Received under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

This facility is a state-only facility. The facility-wide emissions will be less than 17 tons per year (TPY) of nitrogen oxides (NOx), 36 TPY particulate matters (PM), and 22 TPY carbon monoxide (CO). The Plan Approval and Operating permit will contain testing, recordkeeping requirements and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110

Contact: Thomas J. Hanlon, Facilities Permitting Chief—Telephone: 717-705-4862 or William Weaver, Program Manager—Telephone: 717-705-4702

06-03065A: Tube City IMS, LLC (1155 Business Center Drive, Horsham, PA 19044) for installation of additional metal recovery equipment for their steel slag powdering operation in Muhlenberg Township, Berks County, on the Hartman Tract of Carpenter Technology.

In accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a), the Department of Environmental Protection (DEP) has received and intends to issue a Plan Approval to the abovementioned company for the above mentioned project. This plan approval may be incorporated into the company’s facility-wide permit via an administrative amendment at a later date.

Plan Approval 06-03065A is for the installation of a Rotary Tumbler controlled by a baghouse. The equipment shall be subject to and comply with best available technology (BAT). The Plan Approval and Operating permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements. Potential air emissions from the proposed project are 1.4 tons per year of particulate matter.

Copies of the application, DEP’s analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110.

A person may oppose the proposed plan approval, or may provide the Department with additional information to consider in its review, by filing a written protest with the Department at the address listed above. Each written comment must contain the name, address and telephone number of the person submitting the comments, identification of the proposed permit by the permit number listed above and a concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A 30-day comment period, from the date of publication of this notice in the Pennsylvania Bulletin, will exist for the submission of comments or protests.

Thomas Hanlon, Facilities Permitting Chief, may be contacted at 717-705-4862, or at PA DEP Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, for additional information or for the submission of comments or protests.

Plan approvals issued to sources identified in 25 Pa. Code § 127.44(b)(1)—(4) or plan approvals issued to sources with limitations on the potential to emit may become part of the SIP, and may be submitted to EPA for review and approval.

67-03110B: Protech Powder Coatings, Inc. (939 Monocacy Road, York, PA 17404) for operation of their powder coating facility in West Manchester Township, York County.

In accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a), the Department of Environmental Protection (DEP) has received and intends to issue a Plan Approval to the above mentioned company for the above mentioned project. This plan approval may be incorporated into the company’s facility-wide permit via an administrative amendment at a later date.

Plan Approval No. 67-03110B is to install two new powder coating mills and three new dust collectors. The Plan Approval and Operating Permit will contain emission restrictions, work practice standards, and testing, monitoring, record keeping, and reporting requirements to ensure the facility complies with the applicable air quality requirements. The estimated potential emissions from the proposed sources will be 13 tons per year of PM, respectively.

Copies of the application, DEP’s analysis and other documents used in the evaluation of the application are available for public review during normal business hours at the PA DEP Southcentral Regional Office, at 909 Elmerton Avenue, Harrisburg, PA 17110.

A person may oppose the proposed operating permit, or may provide the Department with additional information to consider in its review, or may request a public hearing, by filing a written protest with the Department at the address listed above. Each written comment must contain the name, address and telephone number of the person submitting the comments, identification of the proposed permit by the permit number listed above and a concise statement regarding the relevancy of the information or objections to the issuance of the permit.

PENNSYLVANIA BULLETIN, VOL. 43, NO. 40, OCTOBER 5, 2013
A 30-day comment period, from the date of publication of this notice in the Pennsylvania Bulletin, will exist for the submission of comments or protests. A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments received.

Gary Helsel, Acting New Source Review Chief, may be contacted at 814-949-7935, or at PA DEP Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, for additional information or for the submission of comments or protests.

49-00064B: Milton Regional Sewer Authority (5585 State Route 405, Milton, PA 17847) for a plan approval to construct two (2) Cummins model C1000-N6C biogas/natural gas fired engines/generators at their wastewater treatment plant in West Chillisquaque Township, Northumberland County. Each proposed Cummins engine/generator has a rated horsepower capacity of 1393 horsepower. This application is subject to the Best Available Technology (BAT) requirements of 25 Pa. Code §§ 127.1 and 127.12. The emissions from the proposed engines will be controlled by an oxidation catalyst on each engine. The total emissions from engines will amount to 0.81 ton/year of particulate matter, 13.45 tons/year of nitrogen oxides, 3.23 tons/year of sulfur oxides, 1.88 tons/year of volatile organic compounds and 0.54 ton/year of hazardous air pollutants. The Department has determined that the proposed levels of the air contaminants emissions satisfy the Department’s BAT requirements.

Based on the findings presented above, the Department intends to issue a plan approval for the proposed project. The following is a summary of the conditions that the Department proposes to place in the plan approval to be issued to ensure compliance with all applicable air quality regulatory requirements:

1. Pursuant to the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, the nitrogen oxide emissions from each engine shall not exceed 0.50 g/bhp-hr and 13.45 tons in any 12 consecutive month period. Compliance with this condition assures compliance with 40 CFR 60.4233(e).

2. Pursuant to the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, the carbon monoxide emissions from each engine shall not exceed 0.125 g/bhp-hr and 3.23 tons in any 12 consecutive month period. Compliance with this condition assures compliance with 40 CFR 60.4233(e).

3. Pursuant to the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, the sulfur oxide emissions from each engine shall not exceed 0.097 g/bhp-hr and 2.61 tons in any 12 consecutive month period. Compliance with this condition assures compliance with 25 Pa. Code § 123.21.

4. Pursuant to the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, the formaldehyde emissions from each engine shall not exceed 0.02 g/bhp-hr and 0.54 ton in any 12 consecutive month period.

5. Pursuant to the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, the volatile organic compound emissions from each engine shall not exceed 0.07 g/bhp-hr and 1.88 tons in any 12 consecutive month period. Compliance with this condition assures compliance with 40 CFR 60.4233(e).

6. Pursuant to the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, the particulate matter emissions from each engine shall not exceed 0.03 g/bhp-hr.

7. The permittee shall perform particulate matter, nitrogen oxide, carbon monoxide, sulfur oxide, volatile organic compounds, and formaldehyde emission tests on each engine within 120 days from the commencement of operation of engines and biosolids dryer to demonstrate compliance with the particulate matter, nitrogen oxide, carbon monoxide, sulfur oxide, volatile organic compounds, and formaldehyde emission limitations. All testing is to be done while engines and dryer are operating at its maximum rate and using reference method test procedures acceptable to the Department.

8. At least sixty (60) days prior to the performance of the stack testing required by this plan approval, a test plan shall be submitted to the Department for evaluation. The plan shall contain a description of the proposed test methods and dimensioned drawings or sketches showing the test port locations. The Department shall be given at least fifteen (15) days advance notice of the scheduled dates for the performance of the stack testing required by this plan approval. Within sixty (60) days of the completion of the stack tests, two copies of the test report shall be submitted to the Department. The report shall contain the results of the tests, a description of the testing and analytical procedures actually used in performance of the tests, all process and operating data collected during the tests, a copy of all raw data, and a copy of all calculations generated during data analysis.

9. In accordance with the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, the permittee shall monitor the volume of biogas/natural gas combusted by each engine. Additionally, the permittee shall equip each engine with instrumentation capable of monitoring the exhaust temperature.

10. Pursuant to the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, oxidation catalysts shall be equipped with instrumentation to continuously and accurately measure the differential pressure.

11. The permittee shall perform an annual adjustment and/or tune-up on each engine which shall include the following:

(a) Inspection, adjustment, cleaning or replacement of combustion equipment, including stationary and moving parts necessary for proper operation as specified by the manufacturer.

(b) Performance and documentation of annual maintenance or inspections necessary to ensure proper operations to minimize emissions of NOx, SOx and, to the extent practicable, minimize emissions of CO.

(c) Sampling of the final NOx and CO emission rates. This sampling shall be conducted with portable metering equipment in accordance with applicable manufacturer’s calibrating and operating procedures.

12. The permittee shall keep records of the following information for engines:

(a) the volume of biogas/natural gas combusted in each engine on a daily basis.
(b) the exhaust temperature of each engine on a daily basis.

(c) the pressure drop across each oxidation catalyst on a daily basis.

(d) the NOx, CO, PM, VOC, PM, formaldehyde, and SOx emissions each month and the corresponding 12 consecutive month totals to verify compliance with the applicable emission limitations.

(e) the dates and status of any tuning procedures done on each engine.

(f) the number of hours engines are not in operation each month.

These records shall be kept for a minimum of five (5) years and shall be made available to the Department upon request.

13. In accordance with the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, anytime that engines are not in operation, the biogas produced in anaerobic digesters shall be controlled by the enclosed flare. The biogas shall not be vented directly to the atmosphere without prior approval from the Department.

14. The permittee shall submit an annual report to the Department of the following:

(a) the NOx, CO, PM, VOC, NMOC, formaldehyde, and SOx emissions each of the previous 12 months and the corresponding 12 consecutive month totals

(b) the volume of biogas/natural gas combusted in each engine

(c) the amount of hours each month that engines were not in operation

This report is due March 1st annually.

15. Pursuant to the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, this plan approval is issued for the construction of two Cummins model C1000-N6C a biogas/natural gas-fired engines, each rated capacity of 1393 bhp (1000kw) (Source IDs P101 and P102). The air contaminant emissions from each Cummins engine shall be controlled by a separate Harco Manufacturing EnviCat models 5314-26.5x3.5x1 (ID C101) and 5314-33.5x3.5 (ID C102) oxidation catalysts.

16. Pursuant to the BAT requirements of 25 Pa. Code §§ 127.1 and 127.12, the permittee shall not operate engines without the simultaneous operation of their associated controls.

17. All conditions contained in Plan Approval 49-00064A remain in effect unless superseded or amended by conditions contained herein. If there is a conflict between a condition or requirement contained in this plan approval and a condition or requirement contained in Plan Approval 49-00064A, the permittee shall comply with the condition or requirement contained in this plan approval rather than the conflicting condition or requirement contained in Plan Approval 49-00064A.

All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570 327 3693.

Any person(s) wishing to provide the Department with additional information, which they believe should be considered prior to the issuance of this permit, may submit the information to the Department of Environmental Protection at the address shown in the preceding paragraph. A 30-day comment period from the date of this publication will exist for the submission of comments. Each written comment must contain the name, address and telephone number of the person submitting the comments, identification of the proposed permit (specify Permit No. 49-00064B) and concise statements regarding the relevancy of the information or objections to issuance of the permit.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the information received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or by the Pennsylvania Bulletin, or by telephone, where the Department of Environmental Protection determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Muhammad Q. Zaman, Environmental Program Manager, Department of Environmental Protection, Air Quality Program, Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701, 570 327 3648.
monoxide (CO), particulate matter (PM 10), and volatile organic compounds (VOC) emissions. This is a renewal State-Only Synthetic Minor operating permit. The State-Only operating permit includes emissions, work practice standards and testing, monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

39-00036: St. Luke's Health Network, Inc. (801 Ostrum Street, Bethlehem, PA 18015-1000) to operate a general medical and surgical hospital in Fountain Hill Borough, Lehigh County. The primary sources consist of five (5) boilers, five (5) emergency generators, and an ETO Sterilizer. The sources are considered minor emission sources of nitrogen oxide (NOₓ), sulfur oxides (SOₓ), carbon monoxide (CO), particulate matter (PM₁₀), and volatile organic compounds (VOC) emissions. This is a renewal State-Only Synthetic Minor operating permit. The State-Only operating permit includes emissions, work practice standards and testing, monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

48-00033: Crayola, Inc. (1100 Church Lane, P.O. Box 431, Easton, PA 18044) for operation of crayons and artist materials facility in Forks Township, Northampton County. The primary sources consist of three (3) boilers, inkers, and degreasers. The sources are considered minor emission sources of nitrogen oxide (NOₓ), sulfur oxides (SOₓ), carbon monoxide (CO), particulate matter (PM₁₀), and volatile organic compounds (VOC) emissions. This is a renewal State-Only Natural Minor operating permit. The State-Only operating permit includes emissions, work practice standards and testing, monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

40-00057: Pennsy Supply, Inc. (1001 Paxton Street, Harrisburg, PA 17104-1645) a renewal permit for operation of a batch asphalt plant and associated air cleaning device in Dorrance Township, Luzerne County. The facility is limiting production throughput rate of asphalt to 550,000 tons per year in order to maintain Synthetic Minor status. The proposed operating permit contains all applicable Federal and State regulations including emissions, monitoring, record keeping, reporting and work practice requirements.

In accordance with 25 Pa. Code §§ 127.424 and 127.425 the Department of Environmental Protection (DEP) has received an application and intends to issue an Air Quality Operating Permit renewal for the abovementioned facility. Actual emissions at the facility for 2012 are estimated to be 5.4 tons of NOₓ, 4.2 tons of CO and less than one ton each of PM, SOₓ, VOCs and HAPs. The Operating Permit will include emission limits and work practice standards along with monitoring, recordkeeping and reporting requirements to ensure the facility complies with the applicable air quality regulations. Among other items, the conditions include provisions derived from 40 CFR Part 60, Subpart De—Standards of Performance for Small Industrial-Commercial-Institutional Steam Generating Units; 40 CFR Part 63, Subpart JJJJJJ—National Emission Standards for Hazardous Air Pollutants for Industrial, Commercial, and Institutional Boilers Area Sources;

Copies of the application, DEP’s analysis and other documents used in the evaluation of the application are available for public review during normal business hours at the PA DEP Southcentral Regional Office, at 909 Elmerton Avenue, Harrisburg, PA 17110.

A person may oppose the proposed operating permit, or may provide the Department with additional information to consider in its review, or may request a public hearing, by filing a written protest with the Department at the address listed above. Each written comment must contain the name, address and telephone number of the person submitting the comments, identification of the proposed permit by the permit number listed above and a concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A 30-day comment period, from the date of publication of this notice in the Pennsylvania Bulletin, will exist for the submission of comments, protests or requests for a public hearing.

Mr. Gary Helsel, P.E., Acting New Source Review Chief, may be contacted at 814-949-7935, or at PA DEP Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, for additional information or for the submission of comments, protests or requests for a public hearing.

36-03021: J. Walter Miller Co. (411 East Chestnut Street, Lancaster, PA 17602) for operation of a foundry located in the City of Lancaster, Lancaster County.

In accordance with 25 Pa. Code §§ 127.424 and 127.425 the Department of Environmental Protection (DEP) has received an application and intends to issue an Air Quality Operating Permit renewal for the above-mentioned facility.

Potential emissions at the facility are estimated to be
94.5 tons per year of PM, 16.8 tons per year of VOCs, 1.2 tons per year of HAPs, 1.3 tons per year of CO, 1.6 tons per year of NOₓ and less than one ton per year of SOₓ.

The Operating Permit will include emission limits and work practice standards along with monitoring, recordkeeping and reporting requirements to ensure the facility complies with the applicable air quality regulations. Among other items, the conditions include provisions derived from 40 CFR Part 63, Subpart ZZZZZZ—National Emission Standards for Hazardous Air Pollutants: Area Source Standards for Aluminum, Copper, and Other Nonferrous Foundries and 40 CFR Part 63, Subpart ZZZZ—National Emissions Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines.

Copies of the application, DEP’s analysis and other documents used in the evaluation of the application are available for public review during normal business hours at the PA DEP Southcentral Regional Office, at 909 Elmerton Avenue, Harrisburg, PA 17110.

A person may oppose the proposed operating permit, or may provide the Department with additional information to consider in its review, or may request a public hearing, by filing a written protest with the Department at the address listed above. 36-05096: Pennsy Supply, Inc. (1001 Paxton Street, Harrisburg, PA 17105) for the hot mix batch asphalt plant in Paradise Township, Lancaster County.

In accordance with 25 Pa. Code §§ 127.424 and 127.425 the Department of Environmental Protection (DEP) has received an application and intends to issue an Air Quality Operating Permit renewal for the above-mentioned facility.

The subject asphalt plant includes a fabric filter to control particulate matter (PM) emissions and asphalt production is limited to 400,000 tons per consecutive 12-month period. Emissions of sulfur oxides (SOₓ), nitrogen oxides (NOₓ), carbon monoxide (CO) and particulate matter emissions are limited to 0.07 tons per year.
matter are limited to 100 tons/year per pollutant. The asphalt plant is subject to 40 CFR Part 60, Subpart I—Standards of Performance for Hot Mix Asphalt Facilities. The Operating Permit will include emission limits and work practice standards along with monitoring, recordkeeping and reporting requirements to ensure the facility complies with the applicable air quality regulations. Copies of the renewal application, DEP’s analysis and other documents used in the evaluation of the application are available for public review during normal business hours at the PA DEP Southcentral Regional Office, at 909 Elmerton Avenue, Harrisburg, PA 17110.

A person may oppose the proposed operating permit, or may provide the Department with additional information to consider in its review, or may request a public hearing, by filing a written protest with the Department at the address listed above. 65-00778: Three Rivers Marine & Rail Terminal / Gibsonton Yard (17 Arentzen Boulevard, Suite 206 Charleroi, PA 15022) for the operation of a barge and truck unloading and transferring operation located in Rostraver Township, Westmoreland County. In accordance with 25 Pa. Code §§ 127.424 and 127.425 the Department of Environmental Protection (DEP) has received an application and is providing notice that it intends to issue an Air Quality Operating Permit for the mentioned facility.

The subject facility consists of three barge docks with clam shells, two rail unloading areas, a receiving area for a bagging operation, and an assortment of storage piles. Barges are unloaded and material is either loaded into trucks or stockpiled until trucks are available. The facility provided potential emissions at 15.5 tons per year PM_{10}. This includes the potential emissions from transferring material from barge to truck, haul roads, truck unloading, wind erosion and front loaders. The facility is required to maintain a daily log of material delivered to the facility, inventory on hand, and material shipped from the facility. All trucks carrying bulk material shall be tarped when leaving the terminal and handled in such a way to minimize track out onto the public road. The clam shell must be operated in such a way to minimize lose from the clam shell during transfer of material and minimize the drop height into the truck/barge. All roads shall be kept clean or watered as needed to minimize dust. The proposed authorization is subject to State and Federal Regulations. The permit includes additional operational requirements, monitoring requirements, and recordkeeping requirements.

Those who wish to provide the Department with additional written information that they believe should be considered prior to the issuance of the Plan Approval may submit the information to Sheila Shaffer, Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222. Written comments must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Operating Permit (65-00778) and concise statements regarding the relevancy of the information or objections to issuance of the Operating Permit.

A public hearing may be held, if the Department, in its discretion, decides that such a hearing is warranted based on the information received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or by the Pennsylvania Bulletin, or by telephone, where the Department determines such notification by telephone is sufficient. Written comments or requests for a public hearing should be directed to Sheila Shaffer, Air Quality Engineering Specialist, Department of Environmental Protection, Southwest Region, 400 Waterfront
Drive, Pittsburgh, PA 15222. For additional information concerning the permit or the issuance procedure, contact Sheila Shaffer at (412) 442-5227.

All comments must be received prior to the close of business 30 days after the date of this publication.

65-00789: Quikrete Companies, Inc. / Pittsburgh (519 Red Barn Lane, Latrobe, PA 15650) for the operation of aggregate drying, blending, and bagging concrete products located in Unity Township, Westmoreland County. In accordance with 25 Pa. Code §§ 127.424 and 127.425 the Department of Environmental Protection (DEP) has received an application and intends to issue an Air Quality Operating Permit for the above mentioned facility.

The subject facility consists of a 10 MMBtu/hr natural gas fluid bed dryer, storage silos, mixers, and material handling and transferring. The facility has the potential to emit: 4.30 tpy NOₓ, 3.61 tpy CO, 0.03 tpy SOₓ, 24.31 tpy PM, 0.24 tpy VOC, and 0.003 tpy HAPs. The facility is required to conduct a weekly survey of the facility during daylight hours while the facility is operating to ensure compliance with the visible emission, fugitive emission and malodor restrictions. Records of the weekly survey performed must be recorded. Monthly preventative maintenance inspections are to be performed on the control devices and recorded in an on-site log. Particulate matter emissions are not to exceed 0.04 gr/dscf. The proposed authorization is subject to State and Federal Regulations. The permit includes operation requirements, monitoring requirements, and recordkeeping requirements.

Those who wish to provide the Department with additional written information that they believe should be considered prior to the issuance of the Plan Approval may submit the information to Sheila Shaffer, Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA, 15222. Written comments must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Operating Permit (65-00789) and concise statements regarding the relevancy of the information or objections to issuance of the Operating Permit.

04-00445: Veka Inc. / Marion Township Plant (100 Veka Drive, Fombell, PA 16123) for the operation of blending polyvinyl chloride resin (PVC) for the manufacturing of windows and doors located in Marion Township, Beaver County. In accordance with 25 Pa. Code §§ 127.424 and 127.425 the Department of Environmental Protection (DEP) has received an application and intends to issue an Air Quality Operating Permit for the above mentioned facility.

The subject facility consists of coating lines, lamination lines, PVC extruder process, mixing operations, two electric ovens and one 600,000 Btu natural gas dryer. In 2012, the facility emitted: 1.133 tpy HAPs and less than 1 ton for all other criteria pollutants. The facility is required to conduct a weekly survey of the facility during daylight hours while the facility is operating to ensure compliance with the visible emission, fugitive emission and malodor restrictions. Records of the weekly survey performed must be recorded. A monthly log of all VOC-containing coatings and solvents purchased, consumed, and inventory on hand must be recorded in an on-site log. Particulate matter emissions are not to exceed 0.02 gr/dscf. The facility is limited to 33 tons per year of VOCs, 5.0 tons per year MEK and 9.9 tons per year total HAPs. The proposed authorization is subject to State and Federal Regulations. The permit includes operation requirements, monitoring requirements, and recordkeeping requirements.

Those who wish to provide the Department with additional written information that they believe should be considered prior to the issuance of the Plan Approval may submit the information to Sheila Shaffer, Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA, 15222. 10-00368: MarkWest Liberty Bluestone, LLC (440 Hartmann Road, Evans City, PA 16033) for issuance of initial Synthetic Minor Operating Permit in the Jackson Township, Butler County. The facility is processing natural gas and, returning the gas to the pipeline. The facility’s emitting sources include: 1) Inlet Compressors, 2) Residue Compressors, 3) Refrigerant Compressors, 4) Dehydrators, 5) Emergency Generators, 6) Process Heaters, 7) Truck Loading, 8) Storage Tanks and, 9) Gas processing plant. The plant is able to process 50 mmcf of natural gas per day. The diesel emergency generator is subject to 40 CFR Part 60 Subpart III. The natural gas emergency generator is subject to 40 CFR 60 Subpart JJJJ. The inlet / residue and refrigerant compressors are subject to 40 CFR Part 60 Subpart JJJJ. The facility is subject to the requirements of 40 CFR 60 Subpart OOOO.
and VVs. The dehydrators are also subject to 40 CFR 63 Subpart HH. The applicable requirements from the 40 CFR 60 and 63 have been included in the permit. The facility is synthetic minor because; the facility has taken a restriction of fuel usage in the combustion sources not greater than, 1,120,000 MMBTU/year. This limit will control the emission of greenhouse gases, Carbon Dioxide equivalent. Potential emissions of the pollutants after taking the limitations are: NOX: 56.71 Tons per year (TPY), CO: 77.50 TPY VOC: 38.62 TPY, PM-10: 5.96 TPY, HAPs: 10.41 TPY, CO 2 equivalent: 77,887 TPY. The new VOC limits for the two refrigerant compressors are: 0.5 gm/hp-hr (per engine); 0.93 lb/hr (per engine); and new CO limits for the two refrigerant compressors are: 0.4 gram/hp-hr (per engine); 1.31 lb/hr (per engine); and 57.16 TPY (for the total of the 10 inlet / residue compressors). The facility has accepted more stringent emission limits on the inlet compressors, residue compressors and refrigerant compressors for CO and VOC compared to the plan approval established limits based on the results of stack tests performed at the facility. The new CO limits for the inlet / residue compressors are 0.17 gram/ hp-hr (per engine); 0.56 lb/hr (per engine); and 24.3 TPY (for the total of the 10 inlet / residue compressors). The new VOC limits for the inlet / residue compressors are: 0.17 gram/ hp-hr (per engine); 0.56 lb/hr (per engine); and 24.3 TPY (for the total of the 10 inlet / residue compressors). The new CO limits for the two refrigerant compressors are: 0.5 gm/hp-hr (per engine); 0.93 lb/hr (per engine); and 8.11 TPY (for the total of the two engines). The new VOC limits for the two refrigerant compressors are: 0.20 gram/hp-hr; 0.37 #/hr (per engine); and 3.24 TPY (for the total of the two engines).

33-00025: Punxsutawney Area Hospital (81 Hillcrest Drive, Punxsutawney, PA 15767) to renew a State Only Operating Permit for their hospital in Young Township, Jefferson County. The primary sources at the facility are two (2) dual-fueled 10.5 million Btu/hr boilers using natural gas as primary fuel and capable of firing oil in the event of a natural gas curtailment and an oil-fired emergency generator. Potential Emissions for the boilers will be less than the Title V thresholds. The facility is a Natural Minor. The emergency generator is subject to 40 CFR Part 63 Subpart ZZZZ, the NESHAP for Stationary RICE. The permit contains emission restrictions, recordkeeping, and work practice requirements to ensure compliance with the Clean Air Act and the Air Pollution Control Act.

39-00071A: ANDA Industries (15 South Albert Street, Allentown, PA 18109-2798) for modification to their existing State Only permit for their facility in Allentown, Lehigh County.

Notice is hereby given in accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a), that the Department of Environmental Protection (DEP) has received and intends to issue a Plan Approval to ANDA Industries (15 South Albert Street, Allentown, PA 18109-2798) for their facility located in Allentown, Lehigh County. This Plan Approval No. 39-00071A will be incorporated into a State Only Permit through an administrative amendment at a later date.

Plan Approval No. 39-00071A is for the modification to their existing State Only permit. No new equipment will be added. The company shall be subject to and comply with 25 Pa. Code § 123.41 for Visible emissions. The facility is subject to 25 Pa. Code § 127.12 (a) (5) Best Available Technology (BAT) requirements. The visible emissions (opacity) shall not be equal to or greater than 20% at any time. The company shall be subject to and comply with 25 Pa. Code § 123.31 for malodorous emissions. These limits will meet BAT requirements for this source. The Plan approval and Operating Permit will include testing, monitoring, record keeping and reporting requirements designed to keep the sources operating within all applicable air quality requirements.

Copies of the application, DEP’s analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701-1915.

Any person(s) wishing to provide DEP with additional information, which they believe should be considered prior to the issuance of this permit, may submit the comments, identification of the proposed permit No.: 39-00071A and a concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be noticed that the Department, in its discretion, decides that a hearing by publication in the newspaper or the Pennsylvania Bulletin or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Ray Kempa, Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701-1915, Phone # 570-826-2511 within 30 days after publication date.

Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department. A copy of the application is available for inspection at the district mining office indicated before each application. Notices of requests for 401 Water Quality Certifications are included in individual application notices, as noted.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application and request for Section 401 water quality certification application may be submitted.
by any person or any officer or head of any Federal, state or local government agency or authority to the Department at the address of the district mining office indicated before each application within 30 days of this publication, or within 30 days after the last publication of the applicant’s newspaper advertisement as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections regarding a mining permit application should contain the name, address and telephone number of persons submitting comments or objections, application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

A request for an informal conference or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code § 77.123 or § 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When an NPDES number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. A separate notice will be provided after the draft NPDES permit is prepared.

### Coal Applications Received

**California District Office**: 25 Technology Drive, Coal Center; PA 15423, 724-769-1100, (Contact: Debbie Ferenci)

**30121301 and NPDES No. PA0236195. Consol Pennsylvania Coal Company, LLC**, (1525 Pleasant Grove Rd., PO Box J, Claysville, PA 15523). To revise the permit for the BMX Mine in Morris and Washington Townships, **Greene County** to add underground permit and subsidence control plan area acres for longwall mining. Potential stream restoration for flow loss from longwall mining may be necessary for three areas of Browns Creek and one area of an Unnamed Tributary to Browns Creek. Underground Acres Proposed 1,521.0, Subsidence Control Plan Acres Proposed 1,521.0. No additional discharges. The application was considered administratively complete on September 17, 2013. Application received July 22, 2013.

**Cambria District Mining Office**: 286 Industrial Park Road, Ebensburg, PA 15931, 814-472-1900, (Contact: Holly Calvetti)

**Permit No. 32130105 and NPDES No. PA0269239. Bedrock Mines LP, 111 Freeport Road, Pittsburgh, PA 15215, commencement, operation and restoration of a bituminous surface and auger mine in Washington Township, **Indiana County**, affecting 66.5 acres. Receiving stream: South Branch Plum Creek, classified for the following use: cold water fishery. There are no potable water supply intakes within 10 miles downstream. Application received August 14, 2013.

The applicant is requesting a wetland encroachment since the proposed mining will impact 0.169 acre of wetland. The applicant will mitigate the wetland impacts by converting Sediment Pond “A” to a wetland pond to 0.467 acre of wetland after mining is completed. The application also includes a request for a Section 401 Water Quality Certification.

**Greensburg District Mining Office**: Armbrust Professional Center, 8205 Route 819, Greensburg, PA 15601, 724-925-5500, (Contact: Cathy Hillman)

**03070103 and NPDES Permit No. PAPA0251160. Rosebud Mining Co.** (301 Market Street, Kittanning, PA 16201). Renewal application for reclamation only to an existing bituminous surface mine, located in Redbank Township, **Armstrong County**, affecting 127.9 acres. Receiving streams: unnamed tributary to Pine Run and Nye Branch, classified for the following use: CW. There is no potable water supply intake within 10 miles downstream from the point of discharge. Renewal application received: September 17, 2013.

**Knox District Mining Office**: P.O. Box 669, 310 Best Avenue, Knox, PA 16232-0669, 814-797-1191, (Contact: Javed Mirza)

**37130101 and NPDES Permit No. PA0259438. Amerikohl Mining, Inc.** (202 Sunset Drive, Butler, PA 16001). Commencement, operation and restoration of a bituminous surface mine in Wayne Township, **Lawrence County** affecting 82.5 acres. Receiving streams: Unnamed tributaries to Slippery Rock Creek, classified for the following uses: CW. The first downstream potable water supply intakes from the point of discharge are PA American Water Authority and Beaver Falls Municipal Water Authority. Application received: September 17, 2013.

**Moshannon District Mining Office**: 186 Enterprise Drive, Philipsburg, PA 16866, 814-342-8200, (Contact: Janet Turner)

**17080117 and NPDES PA0257010. Frantz Brothers Resources, LLC** (24 Wilgus Road, P.O. Box 145, Hillsdale, PA 15746) Transfer of an existing bituminous surface coal mine from Beth Contracting, Inc. (815 Rock Run Road, Glen Campbell, PA 15742) located in Burnside Township, **Clearfield County** affecting 148.0 acres. Receiving stream(s): Rock Run and West Branch Susquehanna River classified for the following use(s): Cold Water Fishes and Warm Water Fishes, respectively. There are no potable water supply intakes within 10 miles downstream. Application received: September 16, 2013.

**Noncoal Applications Received**

**Effluent Limits—**The following effluent limits will apply to NPDES permits issued in conjunction with a noncoal mining permit:

<table>
<thead>
<tr>
<th>Parameter</th>
<th>30-day Average</th>
<th>Daily Maximum</th>
<th>Instantaneous Maximum</th>
</tr>
</thead>
<tbody>
<tr>
<td>Suspended solids</td>
<td>10 to 35 mg/l</td>
<td>20 to 70 mg/l</td>
<td>25 to 90 mg/l</td>
</tr>
<tr>

<td></td>
<td></td>
<td>greater than 6.0</td>
</tr>
<tr>
<td>pH*</td>
<td></td>
<td></td>
<td>less than 9.0</td>
</tr>
</tbody>
</table>

* The parameter is applicable at all times.
A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

Knox District Mining Office: P.O. Box 669, 310 Best Avenue, Knox, PA 16232-0669, 814-797-1191, (Contact: Javed Mirza)

3074SM13 and NPDES Permit No. PA0107433. Allegheny Mineral Corporation (P.O. Box 1022, Kittanning, PA 16201) Revision to an existing large industrial minerals mine to add 49.1 acres of additional land and delete 49.1 acres in Slippery Rock Township and Slippery Rock Borough, Butler County. The total acreage will remain 1,058.5 acres. This revision also includes a land use change from pasturelands/lands occasionally cut for hay to industrial/commercial land and unmanaged natural habitat on the Allegheny Mineral Corporation property. Receiving streams: Five unnamed tributaries to Slippery Rock Creek and two unnamed tributaries to Wolf Creek, both classified for the following uses: CWF. There are no potable surface water supply intakes within 10 miles downstream. Application received: September 9, 2013.

3074SM13. Allegheny Mineral Corporation (P.O. Box 1022, Kittanning, PA 16201) Renewal of NPDES Permit No. PA0107433 in Slippery Rock Township and Slippery Rock Borough, Butler County. Receiving streams: Five unnamed tributaries to Slippery Rock Creek and two unnamed tributaries to Wolf Creek, both classified for the following uses: CWF. There are no potable surface water supply intakes within 10 miles downstream. Application received: September 9, 2013.

Pottsville District Mining Office: 5 West Laurel Boulevard, Pottsville, PA 17901, 570-621-3118, (Contact: Theresa Reilly)

45950301C12 and NPDES Permit No. PA0223506. Bill Barry Excavating, Inc., (174 Quarry Lane, Cresco, PA 18326), renewal of an NPDES Permit for discharge of treated mine drainage from a sandstone, shale, sand & gravel quarry operation in Barrett Township, Monroe County affecting 152.0 acres, receiving streams: Cranberry Creek and Mill Creek, classified for the following uses: HQ—cold water and migratory fishes. Application received: August 26, 2013.

7975SM2A1C9 and NPDES Permit No. PA0613151. Haines & Kibblehouse, Inc., (PO Box 196, Skippack, PA 19474), renewal of an NPDES Permit for discharge of treated mine drainage from a quarry operation in Plumstead Township, Bucks County affecting 17.8 acres, receiving stream: Geddes Run, classified for the following use: cold water fishes. Application received: August 26, 2013.

58000803. Robert Cooley, (9001 SR 167, Kingsley, PA 18826), Stage I & II bond release of a quarry operation in Brooklyn Township, Susquehanna County affecting 2.0 acres on property owned by John Rosler. Application received: August 27, 2013.

58070837. Jerry Knight, (188 Booth Road, Montrose, PA 18801), Stage I & II bond release of a quarry operation in Franklin Township, Susquehanna County affecting 2.0 acres on property owned by Jerry Knight. Application received: September 11, 2013.

64080301C and NPDES Permit No. PA0224693. Reading Materials, Inc., (PO Box 196, Skippack, PA 19474), renewal of an NPDES Permit for discharge of treated mine drainage from a sand & gravel quarry operation Palmrya Township, Wayne County affecting 79.2 acres, receiving stream: Lake Wallenpaupack, classified for the following use: HQ—warm water fishes. Application received: August 28, 2013.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<table>
<thead>
<tr>
<th>Parameter</th>
<th>30-Day Average</th>
<th>Daily Maximum</th>
<th>Instantaneous Maximum</th>
</tr>
</thead>
<tbody>
<tr>
<td>Iron (Total)</td>
<td>3.0 mg/l</td>
<td>6.0 mg/l</td>
<td>7.0 mg/l</td>
</tr>
<tr>
<td>Manganese (Total)</td>
<td>2.0 mg/l</td>
<td>4.0 mg/l</td>
<td>5.0 mg/l</td>
</tr>
<tr>
<td>Suspended solids</td>
<td>35 mg/l</td>
<td>70 mg/l</td>
<td>90 mg/l</td>
</tr>
<tr>
<td>pH*</td>
<td></td>
<td></td>
<td>greater than 6.0; less than 9.0</td>
</tr>
</tbody>
</table>

* The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.
A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<table>
<thead>
<tr>
<th>Parameter</th>
<th>30-day Average</th>
<th>Daily Maximum</th>
<th>Instantaneous Maximum</th>
</tr>
</thead>
<tbody>
<tr>
<td>Suspended solids</td>
<td>35 mg/l</td>
<td>70 mg/l</td>
<td>greater than 90 mg/l</td>
</tr>
<tr>
<td>Alkalinity exceeding acidity*</td>
<td>70 mg/l</td>
<td>90 mg/l</td>
<td>greater than 6.0; less than 9.0</td>
</tr>
<tr>
<td>pH*</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

*The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation-Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the Pennsylvania Bulletin and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Coal NPDES Draft Permits

California District Office: 25 Technology Drive, Coal Center, PA 15423, 724-769-1100, (Contact: Deborah Ferenci)

NPDES No. PA0092631 (Mining Permit No. 32841602), AMFIRE Mining Company, LLC, (One Energy Place, Latrobe, PA 15650). A renewal to the NPDES and mining activity permit for the Clymer Tippie in Cherryhill Township, Indiana County. Surface Acres Affected 47.6. Receiving stream: Dixon Run, classified for the following use: CWF, Kiskiminetas-Conemaugh River Watersheds. UNT to Dixon Run, classified for the following use: CWF. The application was considered administratively complete on October 5, 2010. Application received August 6, 2010.

Unless otherwise noted for a specific outfall, the proposed effluent limits for all outfalls in this permit are the BAT limits described above for coal mining activities.

NPDES No. PA0235377 (Mining Permit No. 11841603), AMFIRE Mining Company, LLC, (One Energy Place, Latrobe, PA 15650). A revision to the NPDES and mining activity permit for the Portage Plant in Portage Township, Cambria County to change the water handling plan and outfall effluent limits. Includes deletion of Outfalls 001, 003, and 006. This notice is a correction to the NPDES Draft Permit published in the Pennsylvania Bulletin on March 9, 2013. Surface Acres Affected 56.0. Receiving stream: Unnamed Tributary to Spring Run, classified for the following use: CWF. Kiskiminetas-Conemaugh River Watersheds TMDL. The application was considered administratively complete on August 17, 2012. Application received June 14, 2012.

Unless otherwise noted for a specific outfall, the proposed effluent limits for all outfalls in this permit are the BAT limits described above for coal mining activities.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department. Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the Commonwealth to certify that the involved projects will not violate the sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA, the issuance of a Dam Permit or Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment shall submit comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted before an application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Each individual will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on working days at the office noted before the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5884.

Applications Received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and Requests for Certification under section 401(a) of the FWPCA.

WATER OBSTRUCTIONS AND ENCROACHMENTS

Northeast Region: Waterways and Wetlands Program Manager, 2 Public Square, Wilkes-Barre, PA 18701-1915, Telephone 570-826-2511.

To construct and maintain a stormwater outfall in the floodway of Bushkill Creek (HQ-CWF, MF) consisting of a 36-inch diameter HDPE pipe, concrete end wall, and a rip rap apron. Outfall is associated with the SILK Redevelopment Project. The project site is located on the east side of N. 13th Street approximately 0.20 mile from the intersection of U.S. Route 22 (Easton, PA Quadrangle, Latitude: 40°41’52”; Longitude: -75°13’37”).

To construct and maintain the following water obstructions and encroachments associated with the North Pocono-Paupack Transmission Line project:

1. (S-114a) a temporary 20-foot wide access road crossing of an Unnamed Tributary to East Branch Roaring Brook (HQ-CWF, MF) in Covington Township (Latitude: 41° 17’ 50.57”; Longitude: -75° 27’ 17.55”)

2. (S-114a) a temporary 20-foot wide access road crossing of wetlands within the watershed of an Unnamed Tributary to East Branch Roaring Brook (HQ-CWF, MF) in Covington Township (Latitude: 41° 17’ 50.57”; Longitude: -75° 27’ 17.55”)

3. (S-114a) an electric aerial line crossing of an Unnamed Tributary to East Branch Roaring Brook (HQ-CWF, MF) in Covington Township (Latitude: 41° 17’ 50.57”; Longitude: -75° 27’ 17.55”)

4. (S-114b) an electric aerial line crossing of East Branch Roaring Brook (HQ-CWF, MF) in Covington Township (Latitude: 41° 18’ 0.27”; Longitude: -75° 27’ 7.87”) in Covington Township (Latitude: 41° 18’ 0.27”; Longitude: -75° 27’ 7.87”)

The project begins approximately 1 mile northeast of the intersection of SR 507 and Freytown Road Road.

### ACTIONS

#### THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

#### FINAL ACTIONS TAKEN FOR NPDES PERMITS AND WQM PERMITS

The Department has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and NOIs for coverage under General Permits. This notice of final action is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.101) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to PENNSYLVANIA BULLETIN, VOL. 43, NO. 40, OCTOBER 5, 2013
Administrative Agency Law). The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the Pennsylvania Bulletin unless the appropriate statute provides a different time period. Copies of the appeal form and the Board’s rules of practice and procedure may be obtained from the Board. The appeal form and the Board’s rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Northcentral Regional Office: Regional Clean Water Program Manager, 208 W Third Street Suite 101, Williamsport, PA 17701-6448, Telephone: 570.327.3664.

DEP has issued an NPDES Individual Permit, PAI134806, on September 11, 2013 to PA Department of Corrections—Rockview State Correctional Institution, PO Box A, 1 Rockview Place, Bellefonte, PA 16823-0820. The permit authorizes the discharge of stormwater from regulated small Municipal Separate Storm Sewer System (MS4) outfalls to waters of the Commonwealth.

This notice is provided in accordance with 25 Pa. Code Chapter 92a implementing the Clean Streams Law (35 P. S. §§ 691.1 et seq.) and 40 CFR Part 122 implementing the Federal Clean Water Act (33 USC Section 1251 et seq.).

Special conditions in the permit include a Stormwater Management Program to satisfy six (6) Minimum Control Measures (MCMs) that meet the narrative effluent limitations required by 40 CFR § 122.34 and to comply with applicable TMDLs. Individuals interested in obtaining a copy the permit may contact DEP’s File Review Coordinator at 570-327-3693.

Persons aggrieved by this action may appeal under 3 Pa.C.S. § 517, section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704 of the Administrative Agency Law to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service at (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the Pennsylvania Bulletin. Copies of the appeal form and the Board’s rules of practice and procedure may be obtained from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge actions, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board. Important legal rights are at stake; however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary of the Board at (717) 787-3483 for more information.

### STATE CONSERVATION COMMISSION

**NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR NPDES PERMITS FOR CAFOs**

The State Conservation Commission has taken the following actions on previously received applications for nutrient management plans under 3 Pa.C.S. Chapter 5, for agricultural operations that have or anticipate submitting applications for new, amended or renewed NPDES permits or NOIs for coverage under a general permit for CAFOs under 25 Pa. Code Chapter 92a. This notice is provided in accordance with 25 Pa. Code Chapter 92a and 40 CFR Part 122, implementing The Clean Streams Law and the Federal Clean Water Act.

Persons aggrieved by an action may appeal under 3 Pa.C.S. § 517, section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501–508 and 701–704 to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service at (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the Pennsylvania Bulletin. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge actions, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary of the Board at (717) 787-3483 for more information.

**PENNSYLVANIA BULLETIN, VOL. 43, NO. 40, OCTOBER 5, 2013**
PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the Pennsylvania Bulletin unless the appropriate statute provides a different time period. Copies of the appeal form and the Board’s rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

On September 24, 2013, the Southeast Regional office approved the Act 537 sewage facilities plan update for Newtown Township, Delaware County (APS ID 459295 AUTH ID 603740). This approval provides for the following:

1. The establishment of an expanded public sewer service area that will be served by the Central Delaware County Authority (CDCA) sewage conveyance system. Sewage from the CDCA public sewer service area will be conveyed to the DELCORA wastewater treatment facility for treatment and disposal. Capacity for the expanded CDCA service area is provided under the December 21, 2007 Supplemental Agreement by and between the Central Delaware County Authority and Morton Borough, Prospect Park Borough, Ridley Park Borough, Rutledge Borough, Swarthmore Borough, Edgmont Township, Marple Township, Nether Providence Township, Newtown Township, Ridley Township, Springfield Township and Upper Providence Township.

The drainage basins within the expanded CDCA service area are described as follows:

a. Ashford Pump Station Service Area: All proposed sewage facilities within the Ashford Pump Station Service Area are depicted on the plan titled Ashford P.S. Service Area—Opt. 2, prepared by Herbert E. MacCombie, Jr., P.E. Consulting Engineers and Surveyors, Inc., dated September 11, 2013. The proposed improvements are described as follows:

i. The Melmark Pump Station: The Melmark Pump Station, a.k.a. Pump Station No. 1, will be located on the Melmark campus, south of Hunt Valley Lane. This pump station will be privately owned and will have annual average design flows of 25,000 gallons per day. The Melmark Pump Station will connect to a gravity sewer line that will be constructed in the campus’ driveway. The gravity line will also provide access to public sewers to 3 residential parcels south of the Melmark campus.

ii. The Newtown Hunt Pump Station: The Newtown Hunt Pump Station, a.k.a. Pump Station No. 2, will be located southeast of the Melmark campus and south of Hunt Valley Circle. This pump station will have annual average design flows of 33,150 gallons of sewage per day and will receive flows from Pump Station No. 1 and the gravity collection system that will serve properties along Hunt Valley Lane and Hunt Valley Circle. The Newtown Hunt Pump Station’s force main will extend to a proposed gravity sewer that will be constructed in Echo Valley Lane.

iii. The Goshen Road Pump Station: The Goshen Road Pump Station, a.k.a. Pump Station No. 3, will be located near the terminus of the Crum Creek Lane cul-de-sac, north of Goshen Road. This pump station will have annual average design flows of 81,500 gallons per day and will receive flows from Pump Station No. 2 and the gravity sewer system that will serve Echo Valley Lane, Battles Lane, Meadow Lane, Crum Creek Lane, Partridge Lane, Fox Hill Lane and portions of Goshen and Boat Roads. The Goshen Road Pump Station’s force main will extend to a gravity manhole to be located in Goshen Road. This manhole is associated with the Ashford Development. Flows from the Goshen Road Pump Station are ultimately tributary to the Ashford Pump Station.

iv. The Ashford Pump Station will be expanded to accommodate an annual average flow of 207,500 gallons of sewage per day. The Ashford Pump Station will receive sewage from Pump Station Nos. 1-3, the Episcopal Academy campus and the Ashford Subdivision. The Ashford Pump Station’s location and force main route remain unchanged from the March 2, 2012, DEP planning module approval of the Ashford Subdivision.

b. Camelot Pump Station Service Area: All proposed sewage facilities within the Camelot Pump Station Ser-
vice Area are depicted on the plan titled Camelot P.S. Service Area—Opt. 2, prepared by Herbert E. MacCombie, Jr., P.E. Consulting Engineers and Surveyors, Inc., dated February 11, 2013. The proposed improvements are described as follows:

i. The Olde Masters Pump Station, a.k.a. Pump Station No. 4, will be located on the Olde Masters property, northwest of the Garrett Williamson Tract and west of Florida Park. Pump Station No. 4 will have annual average design flows of 211,910 gallons per day and will receive flows from the gravity sewer lines that will serve the Newtown Business Center, the Olde Masters Site, the Marville Property, Florida Park, Boot Road and a portion of Campus Drive. The Olde Masters Pump Station’s force main will discharge to a proposed gravity sewer in Campus Boulevard.

ii. The Springton Pointe Estates Pump Station, a.k.a. Pump Station No. 5, will be located at the site of the Springton Pointe Estates Wastewater Treatment Facility, which will be decommissioned. Pump Station No. 5 will have annual average design flows of 285,860 gallons per day and will accept flows from a portion of Campus Boulevard, the gravity sewer system serving the Springton Pointe Estates Development and the Hunters Run Development. The community on-lot sewage disposal system that currently serves the Hunters Run Development will also be decommissioned.

iii. The Camelot Pump Station will be expanded to accommodate an annual average flow of 535,860 gallons of sewage per day. The Camelot Pump Station will accept flows from Pump Stations 4 and 5. The pump station’s force main is tributary to an existing CDCA manhole located at the intersection of Route 252 and Media Line Road.

2. The Township will implement a sewage management program (SMP). The SMP is described in the draft Chapter 130, Article III of the Newtown Township code. The draft code revision will address the proper operation and maintenance of on-lot sewage disposal systems, sewage grinder pumps and sewage holding tanks. The draft code revision is included with Appendix P of the Plan.

Newtown Township should coordinate sewer extension projects with CDCA in order to assure that adequate capacity exists in CDCA’s infrastructure to accept new flows prior to adding connections to the CDCA system.

The Newtown Township Sewer Authority must secure Clean Streams Law permits from the Department for the construction and operation of the proposed sewage facilities.

Northeast Region: Clean Water Program Manager, 2 Public Square, Wilkes-Barre, PA 18701-1915

Plan Location: Lower Macungie Township Official Sewage Facilities Update

Borough or Township Address County
Lower Macungie 3400 Brookside Road Lehigh County, PA 18062

Plan Description: The proposal covers the areas of the township which utilize on-lot sewage disposal systems and consists of the implementation of an On-lot Sewage Management Program for the regular inspection, maintenance, and rehabilitation of on-lot sewage disposal systems. The Plan provides for the continued use of on-lot sewage disposal systems in areas outside of the designated public sewer service area. The Plan also revises the public sewer area to include existing developments with public sewer into the current public sewer area and proposed developments with public sewer into the future public sewer area.

The township’s Sewage Management Program will include the following:

• Adoption of an On-lot Sewage Management Plan

Ordnance effective on January 1 of the year after the Plan Revision is approved by PA DEP. The Ordinance will regulate the inspection, maintenance, repair, and rehabilitation of existing and future on-lot sewage disposal systems. Property owners in the on-lot planning area of the township will be required to have their septic tanks cleaned out by pumping by a township registered pumper/hauler at least once every five (5) years and submit copies of the septic tank inspection form to the township. The Ordinance will also provide for enforcement and penalties for violations of the ordinance.

• Distribution of public information materials to residents living within the sewer management districts by township mailings and newsletter, such as a description of a properly functioning on-lot sewage disposal system, information on water conservation practices and devices to reduce hydraulic loading of the sewage disposal system and the septic tank inspection form.

• Review and inspections of new construction system installations or repairs/ replacements of existing systems.

• The township will implement a schedule whereby property owners shall be notified, in advance, that they shall be required to have their septic tanks pumped. The pumping will be scheduled using five sewer management districts and shall start with sewage management district 1, followed by districts 2, 3, 4, and 5. After the pumping cycle will be repeated. After notification by the township, all property owners must have their tanks pumped by December 31 of the notification year. A map showing the properties within the various sewer management districts is on file at the township office.

This Plan is approved with the following condition: It is now Lower Macungie Township’s responsibility to implement the 537 Plan in accordance with the schedules contained in the Plan.

Plan Location:

Borough or Township Address County
East Union P. O. Box 295 Schuylkill Township Shepton, PA 18248

Plan Description: The Corrective Action Plan (CAP), submitted as a plan update revision to East Union Township’s (Township) Official Sewage Facilities Plan, proposes a systematic investigation that will identify and propose corrective measures for portions of the Township’s wastewater collection system that may be subject to excessive amounts of infiltration/inflow (I/I). The CAP is also intended to reduce hydraulic/organic overloading at the East Union Township Sewer Authority’s Wastewater Treatment Facility. The CAP also contains an implementation schedule for its investigative activities. The CAP is now to be considered an integral part of the Township’s Official Sewage Facilities Plan.

Should conditions be encountered during the implementation of the CAP, which require the alteration of the approved CAP, the Township and Authority shall contact the Department, in writing, and discuss the need to alter
the CAP at the earliest possible time. Any additional wastewater-related improvements, additions, deletions or changes outside of those explicitly described in the CAP must be in compliance with the Department’s regulations and be submitted to and approved by the Department in writing.

Plan Location:
Borough or Township: Borough or Township Address County
West: One Municipal Drive, Lancaster Donegal: Elizabethtown, PA 17022

Plan Description: The approved plan provides for the adoption of an On-Lot Disposal System (OLDS) Mandatory Pumping Ordinance and Updated Holding Tank Ordinance, along with a review of the operation of the existing OLDS in the Furnace Hills/Cedar Hills area at two (2) year intervals with the agreement to extend public sewers to this area if warranted. The Department’s review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL

Plan Disapprovals Granted Under the Pennsylvania Sewage Facilities Act

Northeast Region: Clean Water Program Manager, 2 Public Square, Wilkes-Barre, PA 18701-1915

Plan Location:
Borough or Township: Borough or Township Address County
Lemon Township: 2 Tague Road Wyoming
Tunkhannock Township: Tunkhannock, PA 18657

Plan Description: The Department disapproved Lemon Township / Tunkhannock Township, Wyoming County, Act 537 Sewage Facilities Plan Update, dated January 2013, on August 28, 2013. The disapproved Plan Update proposed: (1) a low pressure sewage collection system around Lake Carey and a wastewater treatment plant near the South Branch of the Tunkhannock Creek (Area 1); (2) a sewage collection system for Area 2 with discharge to the Tunkhannock Borough Municipal Authority’s Wastewater Treatment Plant, and (3) a sewage management program for Areas 3, 4, and 5. The Plan was disapproved because: (1) the Townships’ Resolutions contained conditional language such that the selected alternative will be constructed if certain conditions are met; (2) the Public Notice stated that the Area 1 project is conditioned on obtaining affordable financing terms and the user fees were not included; and (3) the technical deficiencies as stated in the Department’s July 16, 2013 and August 28, 2013 letters.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION
UNDER ACT 2, 1995
PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the Pennsylvania Bulletin a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act’s remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the Pennsylvania Bulletin. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Southcentral Region: Environmental Cleanup and Brownfields Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110. Phone 717.705.4705.

US Silica Company/Mapleton Depot Site, 12942 Oriskany Road, Mapleton Depot, PA, Brady Township, Huntingdon County. Mountain Research LLC, 825 25th Street, Altoona, PA 16601, on behalf of US Silica Company, 8490 Progress Drive, Suite 300, Frederick, MD 21701 submitted a Remedial Investigation Report concerning remediation of site soils and groundwater contaminated with diesel fuel and gasoline. The site is being remediated to the Site Specific standard.

Southwest Region: Environmental Cleanup Program Manager, 400 Waterfront Drive, Pittsburgh, Pa 15222-4745

Buchheit #5 Site, Washington Church Road, Rayne Township, Indiana County. EP&S of Vermont, Inc. 5100 Paxton Street, Harrisburg PA 17111, on behalf of XTO
Energy, Inc. 395 Airport Road, Indiana PA 15701, submitted a Final Report concerning remediation of site soils contaminated from a release of brine water from a crack in a 4200 gallon AST. The report is intended to document remediation of the site to meet the residential statewide health standard.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995
PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the Pennsylvania Bulletin a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residual or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department’s decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

46-0001: JBS Souderton, Inc. (741 Souder Road, Souderton, PA 18964) on September 17, 2013, to install a new 48.28 MMBtu/hr gaseous-fired Johnston Boiler (Source ID 040) at the rendering plant in Franconia Township, Montgomery County. The boiler will be equipped with a low-NOx boiler and flue gas recirculation. JBS is a major source of Nitrogen Oxide (NOx) emissions, currently operating under TVOP No. 46-00001. The installation will not trigger New Source Review or Prevention of Severe Deterioration for any criteria pollutant, including Greenhouse Gases. The source is not subject to Compliance Assurance Monitoring pursuant to 40 CFR Part 64 because the potential pre-control NOx emissions are less than the major facility threshold for the Philadelphia Consolidated Metropolitan Statistical Area (25 tpy).

The plan approval will include monitoring, testing, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

**FEDERAL WATER POLLUTION CONTROL ACT SECTION 401**

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water
Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the Pennsylvania Bulletin unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P.S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

to construct and maintain a 22 feet long wetland crossing, consisting of an 8 inch diameter pipe installed 4 feet deep via open trench and a install an approximately 10 feet long parallel outfall structure (8 inch diameter perforated pipe) to East Hickory Creek. The outfall structure will be set at a minimum base depth of 4 feet with an approximate setback of 2 feet from the top of bank. Another wetland will be crossed with 42 feet of 2 inch diameter water line. Four unnamed tributaries to East Hickory Creek will also be crossed with 8 inch diameter pipe via open cut and directional bore. The structures are associated with a new public wastewater system to service the Endeavor area (West Hickory, PA Quadrangle N: 41°, 35', 20.2"; W: -79°, 23', 12.4°).

To provide compensatory mitigation to meet third party aquatic resource compensation obligations as established through site specific permits issued pursuant to Chapter 105, in a comprehensive approach to ensure aquatic resource compensatory mitigation obligations are satisfied within the Commonwealth of Pennsylvania. This consent does not include the authority to construct, restore or enhance a specific aquatic resource improvement site. The construction and maintenance of specific aquatic resource improvement site(s) will occur under separate application and review. This consent is specific to the conditions under which the permittee may operate to provide third party compensatory mitigation to meet Chapter 105 requirements within the Commonwealth. This action also includes approval and authority to operate the aquatic resource improvement site previously constructed under Water Obstruction and Encroachment Permit MB9915-0001a as an aquatic resource compensatory mitigation bank site in accordance with the terms and conditions of this permit. This activity was not subject to 401 Water Quality Certification and a certification was not processed.

**EROSION AND SEDIMENT CONTROL**

The following Erosion and Sediment Control permits have been issued.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the Pennsylvania Bulletin unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

DEPARTMENT OF HEALTH

Head Injury Program; Withdrawal of Accreditation Waiver for Providers of Home and Community Based Rehabilitation Services

The Department of Health (Department) gives notice, effective November 1, 2013, that the Division of Child and Adult Health Services’ Head Injury Program (HIP) will no longer accept requests for waivers of Commission on Accreditation of Rehabilitation Facilities (CARF) accreditation from providers of rehabilitation services interested in contracting with the Department to provide services to HIP applicants and clients. As of the effective date of this notice, to be eligible to contract with the Department to become a participating provider in the HIP, all providers shall be accredited by a National accrediting body approved by the Department, in accordance with the requirements of 28 Pa. Code § 4.4 (relating to requirements for provider participation).
Providers of residential, outpatient, day and home based rehabilitation services whose services are eligible for payment by the HIP are required by 28 Pa. Code § 4.4 to be accredited by a National accrediting body approved by the Department. The Department published a list of approved National accrediting bodies at 31 Pa.B. 7073 (December 29, 2001). The Department approved the Joint Commission on Accreditation of Healthcare Organizations for rehabilitation hospitals and CARF for nonhospital rehabilitation facilities. The Department subsequently published notice at 37 Pa.B. 4263 (August 4, 2007) announcing that the HIP would accept requests for waivers of CARF accreditation from providers of home-and community-based rehabilitation services. Effective November 1, 2013, the waiver opportunity is withdrawn and all providers who wish to contract with the Department to become a participating provider in the HIP and provide rehabilitation services to HIP applicants and clients must be accredited by one of the accrediting bodies approved by the Department.

Persons with a disability who require an alternative format of this notice (for example, large print, audiotape, Braille) should contact Nicole Adams, Bureau of Family Health, 625 Forster Street, Health and Welfare Building, 7th Floor East Wing, Harrisburg, PA 17112, (717) 547-3367, or for speech and/or hearing impaired persons V/TT (717) 783-6514 or the Pennsylvania AT&T Relay Service at (800) 654-5984.

DEPARTMENT OF REVENUE

Mega Millions® Terminal-Based Lottery Game

The following changes to the Mega Millions® terminal-based game will be effective with the game sales commencing on October 19, 2013.

This amendment changes the Mega Millions® game matrix, the game odds, the allocation of sales to the prize tiers, the minimum starting annuity jackpot category prize and the prize amounts of the second through the ninth category prizes.

PENNSYLVANIA BULLETIN, VOL. 43, NO. 40, OCTOBER 5, 2013
This amendment changes the number and amount of the annuity jackpot category prize installments.

This amendment provides for a new method of calculating the second through the ninth category prizes in the event the prizes would become pari-mutuel prizes.

This amendment provides further detail on the use and content of the various prize pool accounts and the prize reserve account.

This amendment changes the Megaplier® promotion by changing the prize amounts, the odds and the function of the multiplier feature.

The complete game rules are provided as follows.

1. Name: The name of the terminal-based lottery game is Mega Millions®. The game will commence at the discretion of the Secretary and will continue until the Secretary publicly announces a suspension or termination date.

2. Definitions: The following words and terms, when used in this notice, have the following meanings, unless the context clearly indicates otherwise:

Cross-Selling Agreement—The agreement between the Mega Millions® Lotteries and the MUSL allowing the MUSL Mega Millions® Product Group member lotteries to sell the Mega Millions® game.

MUSL—The Multi-State Lottery Association.

MUSL Board—The governing body of MUSL that is comprised of the chief executive officer of each MUSL member lottery.

MUSL Finance and Audit Committee—The committee established by the Multi-State Lottery Association Agreement which, among other things, establishes the reserve accounts balances and may accelerate the payment of the jackpot category prize upon the death of a lottery winner.

MUSL Mega Millions® Product Group—The group of lotteries that have joined together to offer the Mega Millions® game under the terms of the Cross-Selling Agreement between the MUSL and the Mega Millions® Lotteries.

Mega Millions®—A terminal-based lottery game offered by the Mega Millions® Lotteries and the MUSL Mega Millions® Product Group.

Mega Millions® drawing officials—The personnel authorized by the Mega Millions® Lotteries to conduct and ensure the integrity of the Mega Millions® and the Megaplier® drawings.

Mega Millions® Lotteries—Lottery jurisdictions that are parties to the Mega Millions® Lottery Agreement. This term does not include members of the MUSL Mega Millions® Product Group.

Mega Millions® winning numbers—The six numbers, the first five from a field of 75 numbers ranging from 1 through 75, and the last one from a field of 15 numbers ranging from 1 through 15, randomly selected at each Mega Millions® drawing that shall be used to determine winning Mega Millions® plays.

Megaplier® promotion—A Mega Millions® game feature by which a player, for an additional wager of $1 per play, can increase the second through the ninth category prize amounts or the second through the ninth category pari-mutuel prize amounts, as applicable, by a factor of two, three, four or five times depending upon the multiplier number that is drawn prior to a Mega Millions® drawing. The Megaplier® does not apply to the jackpot category prize.

3. Price: The price of a Mega Millions® play is $1. Additional plays may be purchased at the discretion of the player. The Megaplier® promotion may be exercised, at the discretion of the player, for an additional $1 per play.

4. Description of the Mega Millions® lottery game:

(a) Mega Millions® is designed to give players the opportunity to win one prize in each play.

(b) For a $1 purchase, the player gets a ticket containing one play. Each play shall consist of six numbers, the first five from a field of 75 numbers ranging from 1 through 75 and the last one from a field of 15 numbers ranging from 1 through 15.

(c) Players can win a prize, as described in section 7(b) (relating to prizes available to be won and determination of prize winners), by matching, in the same play, five, four, three, two, or one of the five numbers selected from the field of numbers 1 through 15, with the Mega Millions® winning numbers selected in the Mega Millions® drawing in which the ticket is entered. Or players can win a prize, as described in section 7(b) (relating to prizes available to be won and determination of prize winners), by matching, in the same play, five, four, or three of the five numbers selected from the field of numbers 1 through 75 with the winning numbers selected from the field of numbers 1 through 75, in the Mega Millions® drawing in which the ticket is entered. Or players can win a prize, as described in section 7(b) (relating to prizes available to be won and determination of prize winners), by matching, in the same play, one number from the field of numbers 1 through 15, with the one winning number selected from the field of numbers 1 through 15 in the Mega Millions® drawing in which the ticket is entered.

5. Mega Millions® bet slip and ticket characteristics:

(a) Mega Millions® bet slips shall be available at no cost to the player. Plays shall be selected in accordance with the instructions printed on the Mega Millions® bet slip. A Mega Millions® bet slip has no pecuniary or prize value and does not constitute evidence of the purchase of a ticket or the numbers selected. The use of mechanical, electronic, computer generated or any other nonmanual method of marking bet slips is not permitted.

(b) To purchase a ticket, the player shall remit to an authorized retailer the purchase price and submit a completed Mega Millions® bet slip or request the number selection through Quick Pick or manual terminal entry. The ticket shall contain at least one play as defined in section 4(b), the drawing date or range of dates for which the ticket is entered, the total cost of the bet, validation data and the Megaplier® promotion indication if applicable. On tickets containing multiple plays, each play will be identified by a letter prefix: A for the first play printed on the ticket; B for the second play printed on the ticket; C for the third play printed on the ticket; D for the fourth play printed on the ticket; and E for the fifth play printed on the ticket. The ticket shall be the only valid proof of
the bet(s) placed and the only valid receipt for claiming a prize. The ticket shall only be valid for the drawing date or range of dates printed on the ticket.

(c) Through the use of a bet slip the player may select up to five numbers from the field of numbers 1 to 75 and one number from the field of numbers 1 to 15 for each play purchased and select the number of drawings in which the plays are entered. Alternatively, a player may choose to have their numbers selected using the Quick Pick option, by marking the box for Quick Pick on the bet slip. A $1 wager entitles a player to play game A. A $2 wager entitles a player to play games A and B. A $3 wager entitles a player to play games A, B and C. A $4 wager entitles a player to play games A, B, C and D. A $5 wager entitles a player to play games A, B, C, D and E. Players are also given the option to select the Megaplier® promotion on the bet slip at the time of purchase for an additional $1 per play.

(d) If Mega Millions® bet slips are unavailable, a player may make their number selections or request the Quick Pick option, and choose the number of drawings to be entered by relaying the same to an authorized retailer for each play. The player may select the Megaplier® promotion for an additional $1 per play. The retailer shall manually enter the number of drawings for which the play is entered, the number selections designated by the player or Quick Pick selections, and the Megaplier® promotion, if applicable, into the Lottery terminal.

(e) To purchase a ticket at a Lottery self-service terminal that dispenses terminal-based Lottery tickets, the player shall designate their number selections (using either a Mega Millions® bet slip or the Quick Pick option) and the number of drawings to be entered and may exercise the Megaplier® promotion for an additional $1 per play.

(f) A player may purchase plays for one through twenty-six consecutive drawings, commencing with the next scheduled drawing.

6. Time, place and manner of conducting drawings.

(a) Time of drawing. A Mega Millions® drawing will be held as determined and publicly announced by the Secretary.

(b) Place of drawing. Mega Millions® and the Megaplier® drawings will be conducted in locations selected by the Mega Millions® Lotteries.

(c) Manner of conducting drawings. The Mega Millions® drawing officials will select, at random, the Mega Millions® winning numbers, with the aid of mechanical devices or any other selection methodology as authorized by the Mega Millions® Lotteries. Prior to the Mega Millions® drawing, the Megaplier® number will be drawn.

7. Prizes available to be won and determination of prize winners:

(a) An amount equal to 50% of Mega Millions® gross sales for a Mega Millions® game drawing is anticipated to be reserved for prizes and allocated for payment of prizes as enumerated in sections 7(b) and 7(d) (relating to prizes available to be won and determination of prize winners).

(b) Determinations of the Mega Millions® prize winners are as follows:

(1) Holders of tickets upon which the player's five numbers selected from the field of numbers 1 through 75 match the five winning numbers selected by the Mega Millions® drawing officials from the field of numbers 1 through 75 and the player's one number selected from the field of numbers 1 through 15 matches the winning number selected by the Mega Millions® drawing officials from the field of numbers 1 through 15, in a single play, for the drawing in which the ticket is entered, shall be the winner of the jackpot category prize. Prize money allocated to the jackpot category prize will be divided into as many shares as there are winning jackpot category prize plays as provided in this section.

(i) Prior to each drawing, the Mega Millions® Lotteries shall determine the annuity jackpot category prize amount to be advertised. The advertised annuity jackpot category prize amount shall be estimated and established based upon sales and the annuity factor established for the drawing.

(ii) The minimum Mega Millions® annuity jackpot category prize shall not be less than $15 million divided by the number of plays entitled to a jackpot category prize.

(iii) If, in a Mega Millions® drawing, there are no winning Mega Millions® jackpot category prize plays, prize money allocated to that prize category will be carried forward and added to the amount allocated for the jackpot category prize in the next consecutive Mega Millions® drawing.

(iv) If the annuity jackpot category prize divided by the number of Mega Millions® plays matching all the Mega Millions® winning numbers, is equal to or greater than $1,000,000, the jackpot category prize will be paid as an annuity as described in section 7(b)(1)(v) unless the winner irrevocably elects in writing to receive the jackpot category prize in a single cash payment, provided the election is made by the winner within 60 days of the date the Lottery determines that such player is entitled to the jackpot category prize.

(v) Annuity jackpot category prizes shall be paid in 30 graduated annual installments. The initial payment shall be paid upon completion of internal validation procedures. The subsequent 29 payments shall be paid annually. Payments shall escalate by a factor of five percent (5%) annually, and annual payments shall be rounded down to the nearest even one thousand dollar increment.

(vi) The amount of the jackpot category prize, if paid as a lump-sum cash payment, will be determined by the MUSL Mega Millions® product group unless a different method is required by the Mega Millions® Lotteries.

(vii) In the event multiple Mega Millions® plays match the Mega Millions® winning numbers in the same drawing, and the annuity Mega Millions® jackpot category prize divided by the number of winning jackpot category prize game plays is less than $1,000,000, each Mega Millions® jackpot category prize winner shall be paid a lump-sum cash payment in an amount equal to the annuity jackpot category prize amount multiplied by a discount value set by the Mega Millions® Lotteries prior to each drawing, divided equally by the number of jackpot category prize winners.

(viii) If individual shares of the cash held to fund an annuity are less than $250,000, the MUSL Mega Millions® Product Group, in its sole discretion, may elect to pay the winners their share of the cash allocated for the payment of the jackpot category prize.
(ix) In the event of the death of a lottery winner during the annuity payment period, the MUSL Finance & Audit Committee, in its sole discretion excepting a discretionary review by the MUSL Mega Millions® Product Group, may accelerate the payment of all of the remaining lottery proceeds to the estate of the lottery winner. The estate of the lottery winner shall petition the lottery jurisdiction in which the deceased lottery winner purchased the winning ticket to request acceleration. If such a determination is made, then securities and/or cash held to fund the deceased lottery winner’s annuity prize may be distributed to their estate. The identification of the securities to fund the annuity prize shall be at the sole discretion of the MUSL Finance and Audit Committee or the MUSL Mega Millions® Product Group.

(2) Holders of tickets upon which the player’s five numbers selected from the field of numbers 1 through 75 match the five winning numbers selected by the Mega Millions® drawing officials from the field of numbers 1 through 75, in a single play, for the drawing in which the ticket is entered, shall be the winner of a second category prize.

(3) Holders of tickets upon which four of the player’s five numbers selected from the field of numbers 1 through 75 match four of the five winning numbers selected by the Mega Millions® drawing officials from the field of numbers 1 through 75, in a single play, for the drawing in which the ticket is entered, shall be the winner of a third category prize.

(4) Holders of tickets upon which four of the player’s five numbers selected from the field of numbers 1 through 75 match four of the five winning numbers selected by the Mega Millions® drawing officials from the field of numbers 1 through 75, in a single play, for the drawing in which the ticket is entered, shall be the winner of a fourth category prize.

(5) Holders of tickets upon which three of the player’s five numbers selected from the field of numbers 1 through 75 match three of the five winning numbers selected by the Mega Millions® drawing officials from the field of numbers 1 through 75 and the player’s one number selected from the field of numbers 1 through 15 matches the one number selected by the Mega Millions® drawing officials from the field of numbers 1 through 15, in a single play, for the drawing in which the ticket is entered, shall be the winner of a fifth category prize.

(6) Holders of tickets upon which three of the player’s five numbers selected from the field of numbers 1 through 75 match three of the five winning numbers selected by the Mega Millions® drawing officials from the field of numbers 1 through 75, in a single play, for the drawing in which the ticket is entered, shall be the winner of a sixth category prize.

(7) Holders of tickets upon which two of the player’s five numbers selected from the field of numbers 1 through 75 match two of the five winning numbers selected by the Mega Millions® drawing officials from the field of numbers 1 through 75 and the player’s one number selected from the field of numbers 1 through 15 matches the one number selected by the Mega Millions® drawing officials from the field of numbers 1 through 15, in a single play, for the drawing in which the ticket is entered, shall be the winner of a seventh category prize.

(8) Holders of tickets upon which one of the player’s five numbers selected from the field of numbers 1 through 75 matches one of the five winning numbers selected by the Mega Millions® drawing officials from the field of numbers 1 through 75 and the player’s one number selected from the field of numbers 1 through 15 matches the one number selected by the Mega Millions® drawing officials from the field of numbers 1 through 15, in a single play, for the drawing in which the ticket is entered, shall be the winner of an eighth category prize.

(9) Holders of tickets upon which the player’s one number selected from the field of numbers 1 through 15 matches the one number selected by the Mega Millions® drawing officials from the field of numbers 1 through 15, in a single play, for the drawing in which the ticket is entered, shall be the winner of a ninth category prize.

(10) Except for winning prizes sold by the California Lottery, the prize pool percentage allocated to the second through the ninth category prizes shall be carried forward to subsequent draws if all or a portion of it is not needed to pay the second through the ninth category prizes awarded in the current draw.

(c) An amount up to five percent of a MUSL Mega Millions® Product Group member’s sales shall be placed in trust in one or more prize pool accounts and prize reserve accounts held by the MUSL Mega Millions® Product Group at any time that the prize pool accounts and the member’s share of the prize reserve account(s) is below the amounts designated by the MUSL Mega Millions® Product Group. The MUSL Mega Millions® Product Group has established a Prize Reserve Account (PRA) for the Mega Millions® game, which is used to guarantee the payment of valid, but unanticipated, jackpot category prizes that may result from a system error or other reason, subject to the limitations of these rules. The MUSL Mega Millions® Product Group has established the following prize pool accounts for the Mega Millions® game: the Grand Prize pool, which is used to guarantee payment of the immediate jackpot category prize; the Set-Aside Account, which is used to guarantee payment of the minimum or starting jackpot category prize; the Megaplier® prize pool account, which is described in section 10 (relating to Megaplier® promotion) of these rules; and the Low-Tier Prize Pool account, which holds the temporary balances that may result from having fewer than expected winners in the second through the ninth prize categories. The source of the Low-Tier Prize Pool is a MUSL Mega Millions® Product Group member’s weekly prize contributions less actual second through the ninth category prize liability. The source of the Set-Aside Account funding is the difference between the amount in the Grand Prize Pool and the amount needed to fund the jackpot category prize payments as determined by the Mega Millions® lotteries. The MUSL Mega Millions® Product Group, with approval of the MUSL Finance and Audit Committee, may establish a maximum balance for the prize pool accounts and prize reserve account. The MUSL Mega Millions® Product Group may determine to expend all or a portion of the funds in the prize pool accounts, except the Grand Prize pool account, and the prize reserve accounts for the purpose of indemnifying the MUSL Mega Millions® Product Group Members and the Mega Millions® Lotteries in the payment of prizes to be made by the participating lotteries, subject to the approval of the MUSL Board, and for the payment of prizes or special prizes in the game subject to the approval of...
the MUSL Finance and Audit Committee. The prize reserve shares of a MUSL Mega Millions® Product Group member may be adjusted with refunds to the member from the prize reserve account as may be needed to maintain the approved maximum balance and shares of the MUSL Mega Millions® Product Group member. Any amount remaining in the prize pool accounts or prize reserve account at the end of this game shall be carried forward to a replacement game or expended in a manner as directed by the MUSL Mega Millions® Product Group in accordance with jurisdiction law.

(d) Pari-mutuel Prizes—All Prize Amounts.

(1) Except as otherwise provided for in section 7(d)(3), if the total of the second through the ninth category prizes awarded in a drawing exceeds the percentage of the prize pool allocated to the second through the ninth category prizes, then the amount needed to fund the second through the ninth category prizes, including Megaplier® prizes, awarded shall be drawn from the following sources, in the following order:

(i) The amount allocated to the second through the ninth category prizes and carried forward from previous draws, if any.

(ii) An amount from the Prize Reserve Account, if available, not to exceed forty million dollars ($40,000,000) per drawing.

(2) Except as otherwise provided for in section 7(d)(3), if, after the sources in section 7(d)(1) are depleted, there are not sufficient funds to pay the second through the ninth category prizes awarded, including Megaplier® prizes, then the highest non-jackpot category prize shall become a pari-mutuel prize. If the amount of the highest non-jackpot category prize, when paid on a pari-mutuel basis, drops to or below the next highest non-jackpot category prize and there are still not sufficient funds to pay the remaining non-jackpot category prizes awarded, then the next highest non-jackpot category prize shall become a pari-mutuel prize. This procedure shall continue down through all non-jackpot category prize levels, if necessary, until all non-jackpot category prize levels become pari-mutuel prize levels.

(3) By agreement between the MUSL Mega Millions® Product Group and the Mega Millions® Lotteries, the Mega Millions® Lotteries shall independently calculate their non-jackpot category pari-mutuel prize amounts, including the Megaplier® prize amounts. The MUSL Mega Millions® product group members and the Mega Millions® Lotteries shall then agree to set the pari-mutuel prize amounts for all lotteries selling the game at the lesser of the independently-calculated prize amounts.

(e) All Mega Millions® prize payments, other than the jackpot category prize, will be made as a lump-sum cash payment.

(f) A winning Mega Millions® play is entitled only to the highest prize won by those numbers for the drawing in which the play was entered.

(g) For purpose of prize calculation with respect to a Mega Millions® second through ninth category pari-mutuel prize, the calculation may be rounded down so that prizes may be paid in multiples of one dollar.

(h) With respect to any Mega Millions® annuity jackpot category prize, the prize amount may be rounded to facilitate the purchase of an appropriate funding mechanism.

(i) The pool of funds used to pay prizes may be increased as necessary from funds authorized for the payment of prizes to meet the payment obligations in this section.

(j) The number of prize categories and the allocation of prize money among the prize categories may be changed at the discretion of the Mega Millions® Lotteries and change will be announced by public notice. Any such changes will apply prospectively to Mega Millions® drawings as of the date specified in the public notice.

(k) The Lottery shall not be responsible for Mega Millions® winning numbers reported in error.

8. Probability of winning. The following tables set forth all possible ways that a prize can be won in a single play, the corresponding prize, the probability of winning each prize and the percent of sales anticipated to be paid in prizes in each prize category:

9. Unclaimed prizes. All unclaimed jackpot category prize moneys will be returned to the lotteries selling Mega Millions® in the same ratio that each lottery contributed to the jackpot category prize.

10. Megaplier® promotion.

(a) The Megaplier® promotion shall be available in association with the Mega Millions® game and will continue until the Secretary publicly announces a suspension or termination thereof. Players may purchase the Megaplier® promotion for the chance to multiply the second through the ninth category prizes won as a result of a Mega Millions® drawing by a number ranging from 2 to 5. The Secretary on occasion may announce, as a special promotion, multipliers greater than five or other changes to features of the Megaplier® promotion. The Mega Millions® jackpot category prize will not be eligible for multiplication under the Megaplier® promotion.

(b) At the time of purchasing a Mega Millions® ticket from a Lottery retailer, a player may choose the Megaplier® promotion for an additional $1 per play for each play on a Mega Millions® ticket. If a player chooses the Megaplier® promotion feature for any play on a ticket, every play on that ticket must participate in the promotion.

(c) Prior to the time of each Mega Millions® drawing, the Mega Millions® drawing officials shall conduct a Megaplier® drawing which shall result in the selection of the Megaplier® number from among the following series of numbers: 2, 2, 3, 3, 3, 4, 4, 4, 5, 5, 5, 5, 5, and 5. If the lottery authorized to conduct the Megaplier® drawing determines that the Megaplier® drawing did not occur prior to the Mega Millions® drawing, the Megaplier® number will be a 5.

(d) Mega Millions® tickets that contain the Megaplier® promotion and one or more plays eligible for Mega Millions® second through ninth category prizes, as described in section 7(b) (relating to prizes available to be won and determination of prize winners), shall be entitled to a total prize calculated by multiplying each Mega Millions® second through ninth category prize by the Megaplier® number selected for the drawing in which the ticket was entered.

(e) As determined by the MUSL Mega Millions® Product Group, an amount up to fifty-five percent of the Megaplier® sales shall be allocated for the payment of Megaplier® prizes. Any amount not used to pay multiplied prizes may be carried forward to subsequent draws or may be collected and placed in the Megaplier® Prize Pool until the prize pool account reaches the amount designated by the MUSL Mega Millions® Product Group. Any amount remaining in the Megaplier® Prize Pool Account at the end of this game shall be carried forward to a replacement game or expended in a manner as directed by the MUSL Mega Millions® Product Group in accordance with jurisdiction law.

(f) The odds of various Megaplier® numbers being selected in a Megaplier® drawing are:

(g) Pari-mutuel Prizes—All Prize Amounts.

(1) Except as otherwise provided for in section 10(g)(3), if the total of the original Mega Millions® second through ninth category prizes and the Megaplier® prize amounts awarded in a drawing exceeds the percentage of the prize pools allocated to the second through ninth category prizes, then the amount needed to fund the second through the ninth category prizes (including the Megaplier® prize amounts) awarded shall be drawn from the following sources, in the following order:

(i) The amount allocated to the second through the ninth category prizes (including Megaplier® prize amounts) and carried forward from previous draws, if any.

(ii) An amount from the Mega Millions® Prize Reserve Account, if available in the account, not to exceed forty million dollars ($40,000,000) per drawing.

(2) Except as otherwise provided for in section 10(g)(3), if, after the sources in section 10(g)(1) are depleted, there are not sufficient funds to pay the second through the ninth category prizes awarded (including Megaplier® prize amounts), then the highest non-jackpot category prize (including the Megaplier® prize amounts) shall become a pari-mutuel prize. If the amount of the highest non-jackpot category prize, when paid on a pari-mutuel basis, drops to or below the next highest non-jackpot category prize and there are still not sufficient funds to pay the remaining non-jackpot category prizes awarded, then the next highest non-jackpot category prize, including the Megaplier® prize amount, shall become a pari-mutuel prize. This procedure shall continue down through
all non-jackpot category prizes levels, if necessary, until all non-jackpot category prize levels become pari-mutuel prize levels. In that instance, the money available from the funding sources listed in this rule shall be divided among the winning plays in proportion to their respective prize percentages. Mega Millions® and Megaplier® prizes will be reduced by the same percentage.

(3) By agreement between the MUSL Mega Millions® Product Group and the Mega Millions® Lotteries, the Mega Millions® Lotteries shall independently calculate their set pari-mutuel prize amounts, including the Megaplier® prize amounts. The MUSL Mega Millions® product group members and the Mega Millions® Lotteries shall then agree to set the pari-mutuel prize amounts for all lotteries selling the game at the lesser of the independently-calculated prize amounts.

11. Ineligible Players. A Mega Millions® game ticket may not be purchased by, and a prize will not be paid to, a lottery board member, commissioner, officer or employee of a lottery jurisdiction selling Mega Millions®, or a spouse, child, brother, sister or parent residing as a member of the same household in the principle place of residence of any such person. A Mega Millions® game ticket may not be purchased by, and a prize will not be paid to, individuals prohibited by the MUSL Mega Millions® Product Group or individuals identified in 61 Pa. Code § 871.17(b) (relating to purchase and prize restrictions).

12. Applicable Law. In purchasing a ticket, the purchaser agrees to comply with and be bound by all applicable Pennsylvania statutes, the Pennsylvania Lottery’s regulations, policies, and procedures, the MUSL Mega Millions® Product Group rules, and these Mega Millions® game rules. Claims arising from Mega Millions® ticket sales occurring in the Commonwealth shall be resolved exclusively with the Pennsylvania Lottery according to the laws of Pennsylvania. Conflicts between the MUSL Mega Millions® Product Group rules and the Mega Millions® game rules as published in the Pennsylvania Bulletin shall be resolved in favor of the MUSL Mega Millions® Product Group rules. In the event the Mega Millions® game rules as published in the Pennsylvania Bulletin are silent, the applicable MUSL Mega Millions® Product Group rules shall apply.

13. The Lottery may conduct a separate retailer incentive program for retailers who sell Mega Millions® lottery tickets. The conduct of the program will be governed by 61 Pa. Code § 811.41 (relating to promotional prizes).

INDEPENDENT REGULATORY REVIEW COMMISSION
Action Taken by the Commission

The Independent Regulatory Review Commission met publicly at 10 a.m., Thursday, September 19, 2013, and announced the following:

Regulation Deemed Approved Pursuant to Section 5(g) of the Regulatory Review Act—Effective September 18, 2013

Department of Transportation #18-425: Vehicle Equipment Standards and Safety Inspection Process (amends 67 Pa. Code Chapter 175)
Action Taken—Regulations Approved:

Pennsylvania Liquor Control Board #54-75: Municipal Noise Ordinances (amends 40 Pa. Code (§ 5.36))

Insurance Department #11-251: Surplus Insurance Lines (amends 31 Pa. Code (Chapter 124))

Approval Order

Public Meeting Held

Commissioners Voting: Silvan B. Lutkewitte, III, Chairperson; George D. Bedwick, Vice Chairperson; John F. Mizner, Esq.; Lawrence J. Tabas, Esq., abstained; Dennis A. Watson, Esq.

Pennsylvania Liquor Control Board—Municipal Noise Ordinances;
Regulation No. 54-75 (#3018)

On August 9, 2013, the Independent Regulatory Review Commission (Commission) received this regulation from the Pennsylvania Liquor Control Board (Board). This rulemaking amends 40 Pa. Code (§ 5.36). Notice of proposed rulemaking was omitted for this regulation; it will become effective upon publication in the Pennsylvania Bulletin.

Act 113 of 2011 amended the Liquor Code and created a new unlawful act within section 493 titled “Noise,” which specifically states that it supersedes the Board’s regulations related to noise. As a result, the Board is promulgating this final-omitted rulemaking to replace references to the Board’s noise regulation with references to section 493 of the Liquor Code.

We have determined this regulation is consistent with the statutory authority of the Board (47 P. S. § 2-207(i)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Insurance Department—Surplus Insurance Lines;
Regulation No. 11-251 (#2985)

On February 22, 2013, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Insurance Department (Department). This rulemaking amends 31 Pa. Code (Chapter 124). The proposed regulation was published in the March 9, 2013 Pennsylvania Bulletin with a 30-day public comment period. The final-form regulation was submitted to the Commission on August 13, 2013.

This final-form rulemaking updates Chapter 124 to ensure consistency with amendments made to The Insurance Company Law in 2002, 2010 and 2011, and to clarify and streamline provisions consistent with current business practices.
We have determined this regulation is consistent with the statutory authority of the Department (40 P. S. §§ 991.1601—991.1626) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:
This regulation is approved.

PATIENT SAFETY

DEPARTMENT OF HEALTH

Reporting Requirements for Nursing Homes under Chapter 4 of the Medical Care Availability and Reduction of Error (MCARE) Act

The purpose of this notice is to give long-term care (LTC) nursing homes (nursing homes) final notice of their reporting requirements to the Patient Safety Authority (Authority) and the Department of Health (Department) under section 405(b)(3) of the Medical Care Availability and Reduction of Error (MCARE) Act (MCARE Act) (40 P.S. § 1303.405(b)(3)). The reporting requirements presented in this notice were developed in consultation with the Department, the Authority’s Board of Directors and the Authority’s Health Care-Associated Infection (HAI) Advisory Panel’s Subcommittee for Long Term Care.

Background of Final Notice

An initial notice was published at 43 Pa.B. 2794 (May 18, 2013). Public comment was solicited for an initial period of 30 days after publication of the notice. However, in response to requests for an extension, the initial period was extended by an additional 30 days, which resulted in the Authority receiving a total of 34 responses, comprised of 19 responses requesting an extension of the public comment period and 15 responses addressing the proposed criteria. The 15 responses addressing criteria represented responses from individuals to industry organizations representing many of LTC nursing facilities. The responses addressed 14 main categories. A summary of the comments and responses is detailed in this notice. In response to those comments and at the direction of the HAI Advisory Panel’s Subcommittee for Long Term Care, the Authority, when appropriate, revised some of the proposed reporting requirements that were contained within the initial notice.

Application for Merger of WellPath of South Carolina, Inc. with and into Aetna Health, Inc.

An application has been received requesting approval of the merger of WellPath of South Carolina, Inc. (WellPath), a corporation organized under the laws of the State of South Carolina, with and into Aetna Health, Inc. (AHI-PA), a corporation organized under the laws of the Commonwealth. AHI-PA is licensed in this Commonwealth to operate a health maintenance organization. WellPath is not licensed to operate in this Commonwealth. The initial filing was received on September 17, 2013, and was made under Article XIV of The Insurance Company Law of 1921 (40 P. S. §§ 991.1401—991.1413).

Persons wishing to comment on the grounds of public or private interest in this merger are invited to submit a written statement to the Insurance Department (Department) within 30 days from the date of publication of this notice in the Pennsylvania Bulletin. Each written statement must include the name, address and telephone number of the interested party; identification of the application to which the statement is addressed; and a concise statement with sufficient detail and relevant facts to inform the Department of the exact basis of the statement. Written statements should be directed to Cressinda Bybee, Company Licensing Division, Insurance Department, 1345 Strawberry Square, Harrisburg, PA 17120, fax (717) 787-8557, cbybee@pa.gov.

MICHAEL F. CONSEDINE, Insurance Commissioner

Reporting Requirements for Nursing Homes

In addition to reporting under the Health Care Facilities Act (35 P. S. §§ 448.101—448.904b), the act of July 20, 2007 (P. L. 331, No. 52) (Act 52) amended the MCARE Act to require that nursing homes electronically report patient-specific HAIs to the Authority and the Department using Nationally recognized standards based on Centers for Disease Control and Prevention (CDC) definitions. See section 404(a) of the MCARE Act (40 P. S. § 1303.404(a)).

Nursing homes will begin utilizing the updated definitions for its mandatory reporting on April 1, 2014. Because these revisions require changes to the Pennsylvania Patient Safety Reporting System (PA-PSRS) reporting application, this date may be modified by a future public notice as the transition date approaches.

The list of reportable HAI infections is presented at the end of this notice as Exhibit A. The criteria for determining HAIs were developed utilizing the Revised McGeer Criteria together with CDC definitions, which were adapted to the LTC setting in this Commonwealth.

Nursing homes will continue to report HAIs to both the Authority and the Department through the PA-PSRS, a single web-based interface. Using a single reporting system eliminates the need for duplicate reporting to both the Authority and the Department.

The format for electronic reporting has been established by the Authority in consultation with the Department and the HAI Advisory Panel and will be addressed during training programs for nursing homes.

Training will include online webinar-based education regarding the infection list, criteria and format for reporting. Nursing homes will be notified of available training opportunities through direct mailings, outreach to industry associations and future public notices.

Serious Event Reporting

Under section 405(a) of the MCARE Act, the occurrence of an HAI in a nursing home is a Serious Event as defined by section 302 of the MCARE Act (40 P. S. § 1303.302). If an HAI meets the criteria for reporting (per Exhibit A), that HAI shall be reported to the Authority as a Serious Event as required by the MCARE Act as amended by Act 52, subject to the additional requirements as described in this notice.

HAIs reported to the Authority are subject to the same patient notification requirements set forth by the MCARE Act for all Serious Events. See section 308(b) of the MCARE Act (40 P. S. § 1303.308(b)). Therefore, all Serious Events require that the health care facility notify the patient or their legal representative in writing that a Serious Event has occurred. This written notification must occur within 7 calendar days. For purposes of meeting the 24-hour reporting requirement for Serious Events set forth by the MCARE Act, nursing homes must submit reports of HAIs to the Authority within 24 hours of their confirmation (surveillance completed and HAI confirmed according to the criteria by a staff member responsible for infection control). If confirmation of an HAI occurs over a weekend or State government holiday, reports must be submitted by 5 p.m. on the next business day.

Individuals with disabilities who require an alternative format of this notice (for example, large print, audio tape or Braille) should contact the Authority help desk at (866) 316-1070.

Summary of Public Comments and Responses

The following is a list that categorizes the comments the Authority received after its initial notice and during the public comment period along with the Authority’s responses.

Burden on Financial and Human Resources—The Authority received three comments regarding the reporting requirements potentially creating an economic and human resource burden for the nursing homes. The comments noted that unrealistic and onerous reporting requirements would not result in quality improvement or a positive effect on resident outcomes.

Response

The MCARE Act, as amended by Act 52, mandates that nursing homes electronically report HAI data to the Department and the Authority. There is no discretion in this requirement. No changes have been made in response to these comments.

ABUTI—The Authority received nine comments requesting that ABUTI be eliminated. One comment stated that Asymptomatic Bacteremic Urinary Tract Infection was not a real term. Two comments requested the criteria be removed as it is a rare finding. Two comments stated the criteria should be removed due to the fact the Authority is suggesting extra lab testing be required to survey for HAI. Three comments requested the CFU/ml limit for straight in and out catheter specimens be raised from \( \geq 10^2 \) to \( \geq 10^5 \). Furthermore there could be confusion related to treatment without sensitivities and lead to overuse of antibiotics. One comment requested the name be changed from Asymptomatic Bacteremic Urinary Tract Infection to Asymptomatic Urinary Tract Infection with Secondary Bacteremia.

Response

The criteria will not be removed.

The CFU/ml will remain at \( \geq 10^2 \) for straight in/out urine cultures.

The terminology defined by the CDC will be altered from Asymptomatic Bacteremic Urinary Tract Infection to Asymptomatic Bacteruria with Secondary Bacteremia to prevent confusion.

Rationale

No literature was provided by the public comments that prove ABUTI is a rare finding in the LTC environment in this Commonwealth.

The CDC states “the point prevalence of asymptomatic bacteruria in LTC residents can range from 25-50%.”

The identification of the conversion rate of asymptomatic bacteruria to bloodstream infection in LTC is currently unknown.

The Authority is not advocating for extra testing to fit ABUTI criteria. The most common clinical scenario where ABUTI is discovered would be when a patient is pan cultured to discover the etiology of systemic symptoms not localized to the urinary tract.

Per the CDC, “the decision to use the lower colony count for urine cultures obtained from specimens collected through I/O catheter was based on the premise that these

specimens may be less likely to be contaminated compared to ‘clean catch’ urine.”

**CAUTI—**The Authority received six comments requesting a change in the CFU/ml limit for straight in/out catheter specimens from \( \geq 10^3 \) to \( \geq 10^5 \). The comments cite that the laboratory would not report sensitivities for CFU/ml for less than \( 10^5 \). Furthermore there could be confusion related to treatment without sensitivities and lead to overuse of antibiotics.

**Response**

The CFU/ml will remain at \( \geq 10^2 \) for straight in/out urine cultures.

**Rationale**

Per the CDC “the decision to use the lower colony count for urine cultures obtained from specimens collected through I/O catheter was based on the premise that these specimens may be less likely to be contaminated compared to ‘clean catch’ urine.”

Per the CDC “if a person has local symptoms of a UTI (e.g., urgency, dysuria, etc.) than any amount of bacterial growth in a urine culture should be considered significant. In contrast, if a person has no signs/symptoms then no amount of bacteruria would make that culture significant. Therefore, truly, if people only send urine specimens for symptomatic cases, then it doesn’t matter what the growth count is in a culture. A final consideration is that the likelihood of getting a low colony count in this population, regardless of specimen collection method is pretty low given the high prevalence of asymptomatic bacteriuria.”

Franz and Hörl state “it is likely that symptomatic bacteruria of \(< 10^5 \) CFU/ml reflects ongoing UTI, and therefore the microbiological criteria should be reduced to \( > 10^2 \) CFU/ml in symptomatic patients.”

The LTC physician representation on the Authority Advisory Panel have expressed that several laboratory companies do in fact report sensitivities at \( 10^2 \), and if currently not doing so it may need to be requested. Furthermore treating a symptomatic UTI at \( 10^2 \) may prevent progression of infection. Treating without sensitivities and waiting for a result of \( 10^5 \) to scale back wide-spectrum treatment will lead to resistance and antibiotic overuse.

**SUTI—**The Authority received six comments requesting a change in the CFU/ml limit for straight in/out catheter specimens from \( \geq 10^2 \) to \( \geq 10^5 \). The comments cite that the laboratory would not report sensitivities for CFU/ml for less than \( 10^5 \). Furthermore there could be confusion related to treatment without sensitivities and lead to overuse of antibiotics.

**Response**

Refer to response and rationale for CAUTI.

**ILI/Flu—**The Authority received one comment asking if, for a flu/ILI report to be filed, the resident will have to test positive for influenza.

**Response**

Pathways for reporting laboratory confirmed influenza and nonlaboratory confirmed ILI will be incorporated into the reporting system.

**PNA—**The Authority received one comment asking if there are any exclusions for aspiration pneumonitis.

**Response**

There will be no exclusion for pneumonitis; however, the Authority will evaluate overlap between these conditions and modify the system in the future if needed. There will be the ability to enter pathogen data into the pneumonia criteria pathway, but pathogen data does not determine the presence of pneumonia at present.

**Rationale**

Aspiration pneumonitis occurs by aspiration of sterile gastric contents, subsequent bacterial infection is latent. Pneumonitis can affect any age group, but occurs more so in young persons. Respiratory distress develops 2-5 hours after aspiration. Aspiration pneumonitis occurs by aspiration of colonized oropharyngeal material, bacterial infection is acute. Aspiration pneumonitis occurs usually in the elderly.

Due to the contrasting features of aspiration pneumonitis as compared to aspiration pneumonia it is unlikely that a large amount of pneumonitis would be captured for reporting as a result of the criteria relying on radiologic, respiratory subcriteria and constitutional criteria.

**C. Diff—**The Authority received two comments asking if every resident had to be tested for C. diff prior to being tested for bacterial pathogens.

**Response**

There is a reporting pathway specifically for other pathogens outside of the C. diff pathway.

**Norovirus—**The Authority received one comment requesting the addition of the Kaplan criteria. The Authority received two requests to remove the laboratory testing criteria.

**Response**

Kaplan criteria will be added to the Norovirus pathway. Laboratory testing criteria will remain.

**Rationale**

Addition of the Kaplan criteria will provide a symptom based assessment of cases otherwise not reported due to laboratory testing requirements. Laboratory confirmed Norovirus pathway will remain an option if testing was performed per Stone, et al.

**Bacterial gastroenteritis—**The Authority received one comment requesting the Authority remove the term bacterial and furthermore the revised McGeer criteria does not require a positive stool culture to define the gastroenteritis.

**Response**

The term “bacterial” will remain. Positive culture will remain as a criterion.

**Rationale**

The Authority is making a distinction between gastroenteritis caused by a variety of situations like new medications, initiation of tube feedings and other non-infectious causes.

The revised McGeer criteria (Table 7) states:

“Both of the following sign or symptom sub criteria”

2 Stone, Nimalie (Centers for Disease Control and Prevention). E-mail correspondence with the Authority, July 28, 2013.
4 Marik PE. Aspiration pneumonitis and aspiration pneumonia. NEJM 2001 Mar; 344 (9) 665-671.
a. A stool specimen testing positive for a pathogen
b. At least one of the following GI sub criteria

**CLABSI (dialysis, temporary, and permanent central lines)—**The Authority received six comments requesting the deletion of CLABSI because:

In most cases the catheter is not cared for by the LTC staff and is subject to manipulation by outside contractors (for example, dialysis staff and oncology staff). Because the infection is not attributable to the LTC facility it should not be reportable and Act 13 letters should not be sent by the LTC facility because they may not be liable for the infection.

Nursing homes do not have nurses that are able to draw blood from central lines for comparison to peripheral cultures for identification of the source of bacteremia.

**Response**

The three categories for CLABSI will remain. Comparison of central line cultures to peripheral cultures is not included in the surveillance criteria for determination of CLABSI.

**Rationale**

Under section 308(b) of the MCARE Act, “[d]uty to notify patient.—A medical facility through an appropriate designee shall provide written notification to a patient affected by a serious event or, with the consent of the patient, to an available family member or designee within seven days of the occurrence or discovery of a serious event. If the patient is unable to give consent, the notification shall be given to an adult member of the immediate family. If an adult member of the immediate family cannot be identified or located, notification shall be given to the closest adult family member. For unemancipated patients who are under 18 years of age, the parent or guardian shall be notified in accordance with this subsection. The notification requirements of this subsection shall not be subject to the provisions of section 311(a). Notification under this subsection shall not constitute an acknowledgment or admission of liability.86

Resident notification of the development of an HAI by the LTC aids in the transparency of the residents care, furthermore if contractors are not following best practices related to central line care or dialysis, reporting of infection will enable the Authority and the facilities to identify opportunities for improvement within contracted and noncontracted services to design educational programing aimed at providing safe care to this population of residents.

The CLABSI criteria are surveillance criteria not diagnostic criteria. The CLABSI criteria do not require blood cultures from the central line for the resident to fit CLABSI criteria.7

The Authority realizes a physician may decide to compare peripheral to central blood cultures to match organisms for the purpose of determining a source or reservoir of infection. However in the LTC population, the likely source of infection in the resident with a central line is the central line. Furthermore, due to polymicrobial intraluminal or extraluminal biofilm formation in lines of long duration, it is possible that a centrally drawn culture may not match a peripheral culture despite the central line being the source of bacteremia.8

Response

The Authority will roll out training and education prior to the implementation of the criteria.

Time frame qualifiers for LTC related HAIs will be listed in the training materials and the user manual.

Criteria algorithms will be included within the training materials and user manual.

Exhibit A. List of Reportable HAIs

A. Urinary tract infection
   1. Asymptomatic bacteruria with secondary bacteremia
   2. Catheter-associated urinary tract infection
   3. Symptomatic urinary tract infection
B. Respiratory tract infection
   1. Lower respiratory tract infection
   2. Influenza like illness
   3. Pneumonia
C. Gastrointestinal infection
   1. Clostridium difficile
   2. Norovirus
   3. Bacterial gastroenteritis
D. Skin and soft-tissue infection
   1. Cellulitis, soft-tissue or wound infection
   2. Conjunctivitis
   3. Scabies
E. Device-related bloodstream infection
   1. Central-line-associated bloodstream infection-dialysis
   2. Central-line-associated bloodstream infection-temporary
   3. Central-line-associated bloodstream infection-permanent
