

NOTICES

DEPARTMENT OF AGRICULTURE

General Quarantine Order; Chronic Wasting Disease Program Requirements for Herd Certification Program and Herd Monitoring Program

Recitals

A. Chronic Wasting Disease (CWD) is considered an infectious, progressive and always fatal disease of susceptible species of the genera *Cervus*, *Odocoileus* and *Alces* including elk, white-tailed deer, moose, mule deer, black-tailed deer, sika deer, red deer and hybrids thereof.

B. There is no known treatment for CWD infection, no successful vaccine against this disease and no reliable live animal test for this disease.

C. CWD is believed to be transmissible from infected to uninfected cervids by ingestion of infected or contaminated materials occurring through shared environment or close contact.

D. CWD has been designated a “dangerous transmissible disease” of animals by order of the Secretary of Agriculture under the provisions of the Domestic Animal Law (Law) (3 Pa.C.S. §§ 2301—2389), at 3 Pa.C.S. § 2321(d).

E. The Department of Agriculture (Department) has broad authority under the Law to regulate the keeping, transport and handling of domestic animals to exclude, contain or eliminate dangerous transmissible diseases, such as CWD.

F. The Department also has broad authority under the Law to prohibit the importation of domestic animals, conveyances, containers, goods, products or materials in an effort to keep dangerous transmissible diseases, such as CWD, from entering this Commonwealth.

G. CWD may negatively impact this Commonwealth’s wild and domestic (farmed or captive) cervid populations. CWD is of particular concern to the captive/farmed cervid industry, in that presence of CWD infection in a herd has resulted in the destruction of an entire herd and severely limited the market for product within and outside this Commonwealth.

H. In 2012, CWD infection was confirmed in two domestic white-tailed deer on a farm in the Commonwealth. CWD was diagnosed in free ranging deer in the Commonwealth from testing done in association with the Pennsylvania Game Commission’s 2012 hunter harvest program. It has also been detected in cervids in Maryland, New York, Virginia, and West Virginia, and is known to be present in a number of other states and several Canadian provinces.

I. On August 4, 2006, the Department issued a General Quarantine Order addressing the CWD threat. That General Quarantine Order, published at 36 Pa.B. 4612 (August 19, 2006), required persons who own or maintain one or more CWD-susceptible animals to enroll and participate in either the CWD Herd Certification Program or the CWD Herd Monitoring Program.

J. On February 4, 2011, the Department rescinded and supplanted the referenced August 4, 2006 General Quarantine Order to reflect the experience the Department

had gained in administering the referenced General Quarantine Order, as well as its current understanding of the threat posed by CWD. That General Quarantine Order, published at 41 Pa.B. 727 modified requirements to the mandatory CWD Herd Certification and the CWD Herd Monitoring Programs to improve disease control procedures in the Commonwealth.

K. By this General Quarantine Order, the Department is rescinding and supplanting the referenced February 4, 2011, General Quarantine Order to harmonize Commonwealth program standards with Federal regulations in 9 CFR Parts 55 and 81 which establish minimum national standards addressing State CWD herd certification programs for interstate cervid commerce and to impose improved disease control and monitoring procedures intended to better contain the spread of CWD in the captive deer population.

Order of General Quarantine

With the foregoing recitals incorporated into this General Quarantine Order by reference, the Department hereby establishes a General Quarantine under authority of the Domestic Animal Law, at 3 Pa.C.S. § 2329(d). The terms of this General Quarantine Order are as follows:

1. *Quarantine Area.* This General Quarantine Order is applicable to the entire Commonwealth of Pennsylvania.

2. *February 4, 2011 General Quarantine Order; Chronic Wasting Disease Program.* The February 4, 2011 General Quarantine Order; Chronic Wasting Disease Program, published at 41 Pa.B. 727 (February 4, 2011), is hereby rescinded and supplanted by this General Quarantine Order. All persons or businesses that own or maintain one or more of any of the CWD-susceptible species of the genera *Cervus*, *Odocoileus* or *Alces* including elk, white-tailed deer, moose, mule deer, black-tailed deer, sika deer, red deer or hybrid thereof, in captivity within this Commonwealth shall continue to be required to be enrolled in and follow the requirements of either the CWD Herd Certification Program or the CWD Herd Monitoring Program. Persons, premises and animals that were enrolled in either the CWD Herd Certification Program or the CWD Herd Monitoring Program under authority of the February 4, 2011 General Quarantine Order shall remain enrolled under the authority of this General Quarantine Order. All enrolled herds shall be subject to the terms and requirements of this General Quarantine Order.

3. *Election of Program and Compliance.*

a. Persons required to comply with this General Quarantine Order shall be afforded a time period to elect a program. Those persons currently enrolled under the CWD Herd Certification Program may elect to continue in that program or may downgrade the captive herd and enroll in the Herd Monitoring Program. Persons may also elect to upgrade from the Herd Monitoring Program to the Herd Certification Program. Persons currently enrolled under either of these Programs shall have until the next scheduled herd inspection date or 120 days after the date of this General Quarantine Order (whichever is longer) to both elect a level of participation and within which to come into compliance with any new or different requirements imposed by this General Quarantine Order.

b. All persons subject to this General Quarantine Order shall file a Program Enrollment Form with the Department within the time period established in Subsec-

tion 3.a. (related to election of program and compliance). Failure to enroll in the program, file a program enrollment form, file a complete program enrollment form or comply with the enrollment requirements established herein, shall be a violation of this General Quarantine Order and subject the person to such penalties as are authorized under the Domestic Animal Law (3 Pa.C.S.A. § 2301 et seq.)

4. Program Enrollment Requirement.

a. Any person or business that owns or maintains one or more of any of the CWD-susceptible species of the genera *Cervus*, *Odocoileus* or *Alces* including elk, white-tailed deer, moose, mule deer, black-tailed deer, sika deer, red deer or hybrids thereof, in captivity within this Commonwealth shall enroll in one of two programs—CWD Herd Certification Program and CWD Herd Monitoring Program—established under this General Quarantine Order. Enrollment in the CWD Herd Certification Program is not mandatory. A person may choose to voluntarily enroll in the CWD Herd Certification Program and adhere to the more stringent requirements established under that program. A person who does not choose to enroll in the CWD Herd Certification Program, shall be required to enroll in the CWD Herd Monitoring Program.

b. A person required to adhere to the provisions of this General Quarantine Order shall provide the Department with a completed program enrollment form, as described in Sections 5 through 8 (related to meeting the program enrollment requirement; adherence to Herd Certification or Herd Monitoring protocols, obtaining a program enrollment form, contents of the program enrollment forms, delivering the program enrollment form) of this General Quarantine Order. The program enrollment form utilized shall be the form developed and approved by the Department. The program enrollment form will be available on the Department's website (www.agriculture.state.pa.us) and will be made available in paper form for those not having internet access. The requirements of this General Quarantine Order are applicable to any type of location or operation at which CWD-susceptible cervids are maintained, including private residences, farms, hunting ranches, zoological displays and menageries. Each separate location, operation and herd will be assigned a state premises identification number which identifies that individual herd's status. The state premises identification number begins with 'PA' and followed by six alphanumeric characters.

c. When multiple program herds reside on the same premises, or where herds owned by the same person reside on more than one premises, a separate Program Enrollment Form shall be required for each program herd on each premises, which shall mean each separate level of Certified Status and each Monitoring herd held in captivity. For example, where one herd of CWD-susceptible species will be enrolled in the CWD Herd Certification Program and another is enrolled in the CWD Herd Monitoring Program, a separate Program Enrollment Form shall be required for each of those herds denoting a different program. Separation between perimeter fences shall be no less than 30 feet for animals on different programs for the same participant or between different participants.

d. Prior to transferring or bringing a CWD-susceptible species onto a premises not currently or not previously enrolled in the CWD program, a person shall submit to an inspection of the premises prior to approval of such premises to hold and maintain a CWD-susceptible species. Such inspection shall be carried out by a PDA official

in order to assure the person has proper enclosures and fencing to maintain the CWD-susceptible species so as to prevent ingress and egress of cervids. Failure to submit to such an inspection or the failure to have erected proper enclosures and fencing in a manner that will prevent ingress and egress of cervids may result in any or all of the following actions:

- i. The denial of the addition of a CWD-susceptible species to the premises;
- ii. Criminal or civil penalties as allowed under the Law;
- iii. Equitable relief as allowed under the Law;
- iv. Such other action as allowed under the Law.

5. *Meeting the Program Enrollment Requirement; Required Adherence to Herd Certification or Herd Monitoring Protocols.* Farmed or captive CWD-susceptible cervids as described in Section 4 (related to program enrollment requirement) present on each premises described in Section 4 (related to program enrollment requirement) shall be enrolled by the cervid owner in either the CWD Herd Certification Program or the CWD Herd Monitoring Program (which are described as follows). A cervid owner who is required to enroll one or more CWD-susceptible cervids under this General Quarantine Order, and who enrolls the animals in either the CWD Herd Certification Program or the CWD Herd Monitoring Program, shall be referred to as a "program participant" throughout this General Quarantine Order. The program participant shall be responsible to maintain the subject animal or herd in compliance with all of the requirements of the program in which it is enrolled. The Department will promptly mail or deliver program enrollment forms to any person who requests the forms. Enrollment shall be completed by delivering a completed program enrollment form to the Department by any of the means described in Section 8 (related to delivering the program enrollment form).

6. *Obtaining a Program Enrollment Form.* The program enrollment forms described in Section 7 (related to contents of the program enrollment forms) (for either the CWD Herd Certification Program or the CWD Herd Monitoring Program) may be obtained by:

9. *CWD Herd Certification Program.*

a. *Program established.* The Chronic Wasting Disease Herd Certification Program (Herd Certification Program), as established by the August 4, 2006, General Quarantine Order; Chronic Wasting Disease Program, published at 36 Pa.B. 4612 (August 19, 2006) and amended by the February 4, 2011, General Quarantine Order; Chronic Wasting Disease Program, published at 41 Pa.B. 727 (February 5, 2011) is hereby continued and modified by this General Quarantine Order in the manner established herein.

b. *Voluntary Program.* Enrollment in the CWD Herd Certification Program is purely voluntary for those with CWD susceptible species. The CWD Herd Certification Program establishes criteria which are more stringent than those required by the mandatory CWD Herd Monitoring Program. A participant voluntarily enrolling in the CWD Herd Certification Program shall be required to meet all of the criteria established thereunder or the Department, at its sole discretion, may:

i. Reduce or roll-back the program participant's "Herd Status" to a previous year or to "First Year Status"; or

ii. Remove the program participant from the CWD Herd Certification Program and place the program participant in the CWD Herd Monitoring Program.

c. *Status of Herd.* The Herd Certification Program is a 5-year process by which a herd of farmed or captive CWD-susceptible cervids may achieve "Fully Certified Status." The Department shall record the date of enrollment of a particular herd of farmed or captive CWD-susceptible cervids in the Herd Certification Program. The status of that enrolled herd shall be determined in the following manner:

i. First Year "HC-1" Status. A designation of "HC-1" shall be assigned to a herd of cervids enrolled in the Herd Certification Program for the first twelve (12) months from the date of enrollment of that herd of cervids in the Herd Certification Program. Only those cervids listed on

the program participant's enrollment form and which have been verified through inspection, as set forth in Subsection 9.n. (related to inspection) of this General Quarantine Order to bear the approved forms of identification shall be assigned a "HC-1" status. Failure to maintain compliance with all of the provisions of the Herd Certification Program may result in removal of the herd from the voluntary Herd Certification Program and placement into the mandatory Herd Monitoring Program, the imposition of civil or criminal penalties as allowed under Section 2383 of the Domestic Animal Law (3 Pa.C.S.A. § 2383) or any other equitable action established thereunder or any combination thereof.

ii. Subsequent Year Status. On the anniversary date of enrollment in each year following that date of initial enrollment the status of the program participant's herd may be upgraded by one year. The upgrade shall only occur if the program participant has maintained compliance and is currently in compliance with all of the requirements of the Herd Certification Program and the General Quarantine Order. The status of each subsequent twelve month period from the date of enrollment, until reaching "Fully Certified" status, shall be designated as follows:

A. For months 13-24 the designation of "HC-2" shall be assigned to a herd that has maintained compliance with all of the requirements of the Herd Certification Program and the General Quarantine Order.

B. For months 25-36 the designation of "HC-3" shall be assigned to a herd that has maintained compliance with all of the requirements of the Herd Certification Program and the General Quarantine Order.

C. For months 37-48 the designation of "HC-4" shall be assigned to a herd that has maintained compliance with all of the requirements of the Herd Certification Program and the General Quarantine Order.

D. For the months 49-60 the designation of "HC-5" shall be assigned to a herd that has maintained compliance with all of the requirements of the Herd Certification Program and the General Quarantine Order.

E. Upon reaching 60 months from the date of enrollment, the designation of "Fully Certified" shall be assigned to a herd that has maintained compliance with all of the requirements of the Herd Certification Program and the General Quarantine Order.

iii. Fully Certified Status. On the anniversary date of the fifth year after the initial enrollment date (that is, after 5 consecutive years of program participation and compliance have been completed), the status of the program participant's herd may be upgraded to "Fully Certified." The upgrade shall only occur if the program participant is in compliance with and has remained in compliance with all of the requirements of the CWD Herd Certification Program and the General Quarantine Order. The subject herd shall be classified as "Fully Certified" so long as the herd remains CWD-free and continues to maintain compliance with all provisions of the Herd Certification Program and this General Quarantine Order.

iv. Previously Enrolled Herds. The status of herds enrolled in the CWD Herd Certification Program under the February 4, 2011 Order of General Quarantine which are in compliance with that Order as of the effective date of this General Quarantine Order will maintain their existing certification status under this Order of General Quarantine if they elect to enroll in and agree to comply with the provisions of the CWD Herd Certification Pro-

gram established under this Order of General Quarantine. If the program participant elects to withdraw his herd from the CWD Herd Certification Program, he shall enroll the herd in the CWD Herd Monitoring Program. Thereafter, any subsequent enrollment of the herd in the CWD Herd Certification Program shall result in the herd being assigned "First Year Status" and the 5-year process required to attain "Fully Certified" status shall begin again.

v. New herd assembled from current Herd Certification Program participants. If the herd is composed solely of animals obtained from herds already enrolled in the Program, the newly assembled herd will have the same status as the lowest status of any herd that provided animals for the new herd.

d. *Duty to Report Suspects and Dead Cervids and Dead Cervids found in an advanced state of decomposition.* The program participant, the owner of a herd of farmed or captive CWD-susceptible cervids and any caretaker of that herd shall immediately report any suspect cervid, dead cervid or dead cervid found in an advanced state of decomposition as set forth herein. Failure to comply with any of the provisions of this subsection including, failure to report a suspect cervid, the death of a cervid within the time periods set forth herein or the discarding, removal or disposal of carcasses, parts, offal or tissues in a manner which is inconsistent with the provisions of this subsection or without the required verifications shall constitute a violation of this General Quarantine Order.

i. Suspect Cervid—Any cervid that shows signs that are consistent with CWD (such as staggering, drooling, wasting or unusual behavior) shall be immediately reported to the designated regional office of the Bureau of Animal Health in the Pennsylvania Department of Agriculture. The suspect cervid shall not be removed from the premises of the program participant until such time as the Department has been able to assess the animal and issue an order or guidance with regard to the holding, harvesting, testing and removal of such animal. Failure to immediately report a suspect cervid or abide by the removal provisions of this section shall constitute a violation of this General Quarantine Order.

ii. Dead cervid—Upon the discovery of any dead farmed or captive CWD-susceptible cervid aged 12 months or older, the program participant, owner or caretaker shall take the following steps and comport with the following protocols:

A. Record the death and include the animal as part of the Ongoing Annual Recordkeeping Requirements, established by Subsection 9.k. of this Order of General Quarantine.

B. Record the death and include the animal as part of the Ongoing Movement of Cervids Recordkeeping and Reporting Requirements, established by Subsection 9.l. of this Order of General Quarantine. Such information shall be reported within ten (10) business days of discovery of the death, on forms developed, approved and provided by the Department and shall set forth that information required by subparagraph 9.l.ix. of this Order of General Quarantine.

C. Have the dead cervid tested. The entire carcass, head or tissue samples from the carcass shall be transported for testing in accordance with the requirements of Subsections 9.f. or 9.g. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects, and testing protocol for other farmed or captive CWD-susceptible cervids), as applicable, of this General Quarantine Order.

iii. Dead cervid found in an advanced state of decomposition—Upon the discovery of any dead farmed or captive CWD-susceptible cervid aged 12 months or older, in an advanced state of decomposition, the program participant, owner or caretaker shall report this death to the designated regional office of the Department within 48 hours. The program participant, owner or caretaker shall take the following steps and comport with the following protocols:

A. The dead cervid, including all parts and offal, shall not be removed from the premises of the program participant, except that the entire carcass or head of the carcass may be transported for testing as set forth in Subsection 9.f.i. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) of this General Quarantine Order or tissue samples may be collected and sent for testing as set forth at Subsection 9.f.ii. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) of this General Quarantine Order.

B. Where only the head or tissue samples are sent for testing, the carcass, parts and offal of the dead cervid shall not be removed from the premises of the program participant until test results have been received or a determination made that the carcass is untestable and shall only be disposed of in a manner approved by and set forth in writing by the Department.

C. Dead cervid carcasses considered to be untestable by the program participant or owner shall be verified as such by a Department or a USDA, APHIS representative prior to removal or disposal of such carcass, parts and offal. The Department or USDA, APHIS representative may determine that the entire carcass shall be collected and moved directly to a laboratory for collection and potential testing.

iv. Failure to abide by the requirements of this Subsection d. (related to duty to report suspects and dead cervids and dead cervids found in an advanced state of decomposition) shall be a violation of this General Quarantine Order and may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386) and the reduction of Herd Certification Program status or cancellation of program enrollment and placement in the mandatory Herd Monitoring Program.

e. *Mandatory Testing.* A program participant with a herd that is enrolled in the Herd Certification Program shall be responsible to ensure that a farmed or captive CWD-susceptible cervid is tested in accordance with Subsection 9.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) or 9.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids), as applicable, if any of the following occur after the date of enrollment in the Herd Certification Program:

i. The cervid shows signs (such as staggering, drooling, wasting or unusual behavior) that are consistent with CWD and the cervid dies or is killed.

ii. The cervid is 12 months of age or older and is sent to a slaughter facility.

iii. The cervid is 12 months of age or older and dies for any reason (including accident, natural causes, slaughter, harvesting, hunting, culling or any other cause).

f. *Mandatory Testing for Farmed or Captive CWD-Susceptible Cervids designated as CWD Suspect.* If a dead farmed or captive CWD-susceptible cervid is required to

be tested because it showed signs (such as staggering, drooling, wasting or unusual behavior) that are consistent with CWD before it died or was killed, as described in Subsection 9.e.i. (related to mandatory testing), it shall be tested according to either of the following procedures:

i. A person shall immediately notify the Department of the dead CWD-susceptible cervid and do the following:

A. Collect either the entire carcass of the cervid or the entire head of the cervid with official identification devices attached in situ.

B. Deliver the carcass or head with official identification devices attached in situ for CWD testing. The properly completed chain of custody forms and sample submission forms required under Subsection 9.i. (related to chain of custody of samples; submission of samples) of this General Quarantine Order shall accompany the carcass or head. The carcass or head shall bear a proper form of identification and be delivered within 72 hours of the cervid's death to either a Department laboratory or to a laboratory that has been approved in advance by the Department or USDA or both, to perform CWD testing. Results of samples submitted without the proper and required official identification or the properly completed chain of custody forms and sample submission forms may not be recognized by the Department in determining herd certification status and shall be considered a violation of this General Quarantine Order. Any such violation may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386) as well as the reduction of Herd Certification Program status or cancellation of program enrollment and placement in the mandatory Herd Monitoring Program.

ii. As an alternative to the CWD testing procedure described in paragraph (i), the following procedure shall be followed:

A. Tissue samples shall be collected by one of the following:

I. A USDA, APHIS Category II accredited practitioner of veterinary medicine.

II. An authorized State official. A Department-certified CWD Sampling Technician does not meet the requirements of this subparagraph.

III. An authorized Federal official.

B. Tissue samples shall be collected and preserved within 72 hours of the cervid's death.

C. Tissues samples shall consist of the obex and the medial retropharyngeal lymph nodes preserved in formalin; and in a separate container that does not contain formalin or any other preservative, a small portion of the ear or other skin that is attached to the official identification of the subject cervid.

D. The tissue samples shall be delivered within 72 hours of the cervid's death to the Department or to a laboratory that has been approved in advance by the Department or USDA or both, for CWD testing. It is the owner's responsibility to report the death within a time frame that allows for collection and preservation of the tissue samples within 72 hours of the cervid's death as required by Subsection B. above and protect the carcass from further degradation until tissue samples can be collected.

E. Properly completed chain of custody forms and sample submission forms as required under Subsection 9.i. (related to chain of custody of samples; submission of samples) of this General Quarantine Order shall accompany the tissue samples.

g. *Testing Protocol for Other Farmed or Captive CWD-Susceptible Cervids.* If a farmed or captive CWD-susceptible cervid does not exhibit signs (as described in Subsection 9.d.i. (related to duty to report suspects and dead cervids and dead cervids found in an advanced state of decomposition)) that are consistent with CWD, and is required to be tested because it is 12 months of age or older and was either sent to a slaughter facility or died for any reason, as described in Subsections 9.e.ii. and 9.e.iii. (related to mandatory testing), the Department shall be notified by the program participant, who shall send the Department records setting forth the official identification of each farmed or captive CWD-susceptible cervid that was sent to slaughter or died for any reason set forth in Subsection 9.e.ii. and 9.e.iii. (related to mandatory testing), along with the name and address of the slaughter facility where each animal was slaughtered or the name and address of the place where the animal died or was harvested and the cause of death. In such cases, each farmed or captive CWD-susceptible cervid shall be tested according to the following procedures:

i. Tissue samples shall be collected by one of the following:

A. A USDA, APHIS Category II accredited practitioner of veterinary medicine.

B. An authorized State official.

C. An authorized Federal official.

D. A Department-certified CWD Sampling Technician.

ii. Tissue samples shall be collected and preserved within 72 hours of the cervid's death.

iii. Tissues samples shall consist of the obex and the medial retropharyngeal lymph nodes preserved in formalin; and in a separate container that does not contain formalin or any other preservative, a small portion of the ear or other skin that is attached to the official identification of the subject cervid.

iv. Properly completed chain of custody forms and sample submission forms as required under Section 9.i. (related to chain of custody of samples; submission of samples) of this General Quarantine Order shall accompany the tissue samples.

v. The tissue samples shall, within 30 days of collection, be delivered to the Department for testing, or to a laboratory that has been approved in advance by the Department or USDA, or both, to perform CWD testing.

vi. As an alternative to the testing protocol described in paragraphs i, ii, iii, iv and v of this Subsection 9.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids), the following protocols shall be followed:

A. Within 72 hours of the cervid's death, collect and deliver either the entire carcass of the cervid with official identification devices attached in situ or the entire head of the cervid with official identification devices attached in situ to a Department laboratory for CWD testing, or to a laboratory that has been approved in advance by the Department or USDA or both to perform CWD testing.

B. The program participant/herd owner shall be responsible for properly identifying the cervid carcass or head and delivering it in a manner that does not destroy or make the animal untestable.

C. The person who collects and the person who delivers the carcass or head need not be an approved tissue collector as described in Subsection 9.g.i. (related to testing protocol for other farmed or captive CWD-susceptible cervids).

D. The name, address and signature of the person collecting, or the person in possession of the carcass, and the person delivering the carcass or head shall be set forth in writing and such writing shall be attached to the chain of custody forms and sample submission forms required by this General Quarantine Order.

E. The properly completed chain of custody forms and sample submission forms required under Section 9.i. (related to chain of custody of samples; submission of samples) of this General Quarantine Order shall accompany the carcass or head.

F. Results of samples submitted without the proper and required official identification or the properly completed chain of custody forms and sample submission forms may not be recognized by the Department in determining herd certification status and shall be considered a violation of this General Quarantine Order. Any such violation may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386), as well as the reduction of Herd Certification Program status or cancellation of program enrollment and placement in the mandatory Herd Monitoring Program.

h. *Impact of Late Notice, Delivery or Untestable Samples on Enrollment Status.*

i. It is the program participant/herd owner's responsibility to assure good quality tissue is submitted for testing and ensure that all required samples are collected properly and in a timely manner as required by Subsections 9.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) and 9.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids) of this General Quarantine Order. All required tissues shall be collected regardless of sample condition (e.g. autolyzed or frozen). In cases where sample quality is poor, the Department shall be notified and a determination made on samples to be submitted.

ii. Failure to abide by the requirements of this section shall be a violation of this General Quarantine Order and may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386) and the reduction of Herd Certification Program status or cancellation of program enrollment and placement in the mandatory Herd Monitoring Program. Where the history of sample collections and submissions from the program participant/herd owner demonstrates a pattern of lack of submission of required samples, untimely submission of samples or poor performance including incorrect tissues submitted, poor tissue quality, or non-compliance with the provisions and requirements of Subsections 9.e. (related to mandatory testing), 9.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) and 9.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids) of this General Quarantine Order, the Department may seek

such additional remedies, including injunctive relief as is allowed under the Domestic Animal Law. Adherence to the 72-hour deadlines established in Subsections 9.f.i.B, f.ii.B. f.ii.D. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) and g.ii. and g.vi.A. (related to testing protocol for other farmed or captive CWD-susceptible cervids) will be considered a mitigating factor by the Department in any reevaluation of herd status.

i. *Chain of Custody of Samples; Submission of Samples.* A person may obtain chain of custody forms and sample submission forms from the Department by submitting a written request for such forms or by downloading the forms from the Department's website (www.agriculture.state.pa.us).

i. A person submitting a sample (whether tissue samples, an entire carcass or an entire head) for testing under the Herd Certification Program shall complete a chain of custody form and a sample submission form, and shall submit those forms along with the sample that is delivered for testing.

ii. The chain of custody form shall clearly identify the premises, including the address of the premises and the name and signature of the herd owner, on which the cervid resided and from which it was taken, official identification of the cervid, the date of sampling, and the persons (in chronological order) who handled the sample from the point it was taken until it is delivered to the Department, a Department-approved laboratory or a USDA-approved laboratory for CWD testing.

iii. The chain of custody form shall bear the signature, printed name and other identifying information with respect to each person who handles the sample.

iv. The completed chain of custody form and the sample submission form shall be provided to a responsible person at the laboratory to which the sample is delivered.

j. *Identification of Subject Animals.* Each farmed or captive CWD-susceptible cervid that is within a herd enrolled in the Herd Certification Program and is either 12 months of age or older or is transported alive from the enrolled premises regardless of its age at the time of movement shall have at least two forms of the Department and USDA, APHIS-approved animal identification attached. One form of identification shall be official. In accordance with 9 CFR Parts 71, 77, 78, and 86 "Traceability for Livestock Moving Interstate," official identification shall not be removed from animals. If the other form of identification is not official, it shall be unique to the animal on the enrolled premises. Other forms of secondary identification in addition to being unique to the animal in the herd, must be permanent and tamper-resistant. If duplicate (non-unique to the animal in the herd) secondary identification occurs, that duplication shall be resolved, corrected in the inventory, and promptly reported to the Department. Forms of identification that are Department-approved and USDA, APHIS-approved, "official" forms of identification for purposes of this provision include the following:

m. *Ongoing Reporting Requirement regarding Theft or Escape of CWD-Susceptible Cervids from an Enrolled Herd or Wild CWD-Susceptible Cervids entering an Enrolled Herd.*

i. Theft or escape—A program participant shall report to the designated Department's regional office within 48 hours the removal of any farmed or captive CWD-susceptible cervid from the enrolled herd through theft or escape. The program participant shall file a signed, written report of theft or escape of a cervid with the designated Department's regional office within ten (10) business days of the theft or escape either by mail, fax or email. The signed written report shall set forth the date of such theft or escape, the cause of such escape or perpetrator of such theft if known, a copy of the police report if theft was involved and shall clearly identify each cervid, including setting forth the official identification of each cervid, that escaped or was stolen.

iii. Exception—This reporting requirement is not applicable to additions to a herd as described in Subsection 9.p. (related to additions to the herd).

iv. Failure to report—Failure to report theft, escapes, or ingress of wild cervids within prescribed deadlines shall be a violation of this General Quarantine Order and may result in imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386) and loss of program enrollment and placement in the Herd Monitoring Program.

n. *Inspections.* The Department or its agents acting under the authority and direction of the Department will, at least once per calendar year and as many times as may be necessary to assure compliance with this General

Quarantine Order or in response to complaints, inspect the premises upon which an enrolled herd of farmed or captive CWD-susceptible cervids is maintained. The Department may conduct additional inspections at reasonable times.

i. General scope. Inspections may include records review, whole herd inventory with individual animal identification (ID), inspecting fences and other measures within the scope of authority of the Department and necessary to determine compliance with the Herd Certification Program. Whole herd inventories shall be done by either visual or hands-on verification, as set forth in paragraphs iii. and iv. of this Subsection 9.n. (related to inspections).

ii. Inspections required. Upon enrollment in the Herd Certification Program, a visual or hands-on herd inventory by an Accredited Category II veterinarian shall be required for new program participants. Current Herd Certification Program participants shall be required to have a visual or hands-on herd inventory completed by an Accredited Category II veterinarian by the next scheduled herd inspection date or 120 days after the date of this General Quarantine Order (whichever is longer). In all cases the owner/program participant shall be responsible for assembling, handling, and restraining the animals and for all costs incurred to complete the visual or hands-on herd inventory. The owner/program participant shall be responsible for resolving any herd inventory discrepancies within a timeframe acceptable to USDA, APHIS, VS and the Department.

iii. Visual herd inventory verification. Herd inventories may be visually verified at least every 12 months. However, additional inspections may be performed at the discretion of the Department. Accredited Category II veterinarians are approved to and shall be utilized to perform annual visual herd inventory verification. Those animals 12 months of age and older shall be bearing approved animal identification ear tags meeting the criteria of Subsection 9.j. (related to identification of subject animals) of this General Quarantine Order and that are visible and legible from a distance, within a pen or other suitable enclosure.

A. Where visual verification of the entire herd inventory is not possible, such as where an animal is not bearing a form of approved animal identification that can be visually inspected, the unidentified animal or animals shall be individually restrained for examination or a hands-on inventory of the entire herd shall be conducted. This process shall be completed in a timeframe acceptable to the Department or USDA APHIS.

B. The owner/program participant shall be responsible for assembling or restraining the herd in a manner that will allow the Accredited Category II veterinarian conducting the inventory to confirm the identification of each animal through inspection of one of the two forms of the Department and USDA, APHIS-approved animal identification meeting the criteria established by Subsection 9.j. (related to identification of subject animals) of this General Quarantine Order. A Department or USDA APHIS employee or agent shall have the authority to require the owner/program participant to assemble and restrain the herd for purposes of inventory verification or other compliance issues.

C. A hands-on inventory may require physical restraint of individual animals in chutes or chemical restraint methods which shall be done by and provided by the owner/program participant.

D. Those animals less than 12 months of age, without any identification shall be counted and listed by number and gender. For example, four buck fawns and three doe fawns born in 2014.

iv. Whole herd hands-on inventory verification. A whole herd hands-on inventory verification for all Herd Certification Program participants who do not participate in the whole herd annual visual inventory verification option shall be required and performed at no greater than three year intervals by a USDA APHIS Category II accredited veterinarian.

A. The owner/program participant shall be responsible for assembling and restraining all the animals in a manner that will allow the Accredited Category II veterinarian conducting the inventory to confirm the identification of such animal through inspection of the two forms of the Department and USDA, APHIS-approved animal identification meeting the criteria established by Subsection 9.j. (related to identification of subject animals) of this General Quarantine Order of those animals 12 months of age and older. A Department or USDA APHIS employee or agent shall have the authority to require the owner/program participant to assemble and restrain all animals in the herd for purposes of inventory verification or other compliance issues.

B. Those animals less than 12 months of age, without any identification shall be counted and listed by number and gender. For example, four buck fawns and three doe fawns born in 2014.

C. A hands-on inventory may require physical restraint of individual animals in chutes or chemical restraint methods which shall be done by and provided by the owner/program participant.

v. Reconciliation of herd inventory. All herd inventories verified through either visual or hands-on verification during inspections shall be reconciled with written inventories, including respective official identification, required to be kept by the owner/program participant under Subsections 9.k. (related to ongoing annual recordkeeping requirements) and 9.l. (related to ongoing movement of cervids recordkeeping and reporting requirements) of this General Quarantine Order.

A. The reconciliation of herd inventories done through visual or hands-on verification and the owner/program participant's required written inventory records and reports shall be the duty of the owner/program participant.

B. A discrepancy in herd inventories done through visual or hands-on verification and the owner/program participant's written inventory records and reports shall be prima facie evidence of a violation of the recordkeeping provisions of this General Quarantine Order.

C. If duplicate (non-unique to the animal in the herd) secondary identification is observed during inspection that duplication shall be resolved within a time frame acceptable to inspection personnel.

vi. Inspection noncompliance—Failure to comply shall be a violation of this General Quarantine Order and may result in imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

o. *Fencing*. A herd of farmed or captive CWD-susceptible cervids that is enrolled under the Herd Certification Program shall be maintained so as to prevent ingress and egress of cervids. Fence height shall be a minimum of 8 feet, although a 10-foot height is recommended.

p. *Additions to the Herd*. The following requirements apply regardless of the period of time the cervid is in the herd (Example: when a buck is moved to an enrolled herd for breeding season). The addition of a CWD-susceptible cervid to a herd enrolled in the Herd Certification Program shall be done in accordance with all of the following requirements:

i. The addition of each cervid shall be documented consistent with and in the manner required by Subsection 9.l. (related to ongoing movement of cervids recordkeeping and reporting requirements) and shall be set forth in the annual report required by Subsection 9.k. (related to ongoing annual recordkeeping requirements) of this General Quarantine Order.

ii. No CWD-susceptible cervid may be added to a herd of farmed or captive CWD-susceptible cervids that is enrolled under the Herd Certification Program unless the CWD-susceptible cervid to be added originates from that herd or a herd that is also enrolled in and in good standing in the Pennsylvania Herd Certification Program.

iii. The added CWD-susceptible cervid shall be from a herd of an equal or greater certification status, as established in Subsection 9.c. (related to status of herd).

iv. Cervids sourced from out-of state herds must originate from fully certified (five year status) herds as required by 9 CFR Part 81 of the Code of Federal Regulations.

v. CWD-susceptible cervids shipped interstate or intrastate shall not be stopped over at or exposed to any cervid operation that does not meet the requirements set forth in this subsection or that is not in compliance with this General Quarantine Order.

A. Where a CWD-susceptible cervid is stopped over or unloaded at another premises on which CWD-susceptible cervids are kept or otherwise exposed to other CWD-susceptible cervids, those CWD-susceptible cervids shall be from a herd of equal certification status.

B. Where the stop over premises maintains CWD-susceptible cervids of a lower certification status, the incoming CWD-susceptible cervid(s) certification status shall be lowered to at least the certification status of the herd maintained on the stop over premises.

C. Where the stop over premises is within the Commonwealth and has a certification status greater than that of the CWD-susceptible species stopped over or unloaded at that premises, the certification status of the CWD-susceptible species maintained at the stop over premises shall be reduced to at least the certification status of the stopped over or incoming CWD-susceptible cervids.

vi. Failure to comply with the intrastate movement requirements shall result in adjustment of the herd certification status of the receiving program participant. The herd certification status shall be reduced to the herd certification status of the incoming cervid(s) or a lower status or the receiving program participant's herd being removed from the voluntary herd certification program and placed in the mandatory herd monitoring program.

vii. Failure to comply with interstate movement requirements shall result in removal from the voluntary Herd Certification Program and placement in the mandatory Herd Monitoring Program.

viii. A violation of any of the provisions of this Subsection 9.p. (regarding to additions to the herd) may also result in the imposition of such criminal and civil penal-

ties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

q. *Usage of semen, embryos, germ plasm, urine, and other cervid by-products.* Semen, embryos, germ plasm, urine and other cervid by-products may be used in a herd of farmed or captive CWD-susceptible cervids that is enrolled under the Herd Certification Program if the following are met:

i. The donor animal is from a herd of equal or greater herd status as the destination herd. The source herd shall not have a CWD-positive animal, a CWD-suspect animal or a CWD-exposed animal at time of collection of the cervid by-product. The source herd shall not have CWD identified within the 60 months prior to collection.

ii. Out-of-state donor animals shall meet the same Tuberculosis and Brucellosis testing requirements as would be applicable if the donor animal, itself, was being imported.

iii. Records shall be maintained for 5 years from the date of receipt by the seller and buyer including (as applicable) collection date, animal identification, including the official identification number, with respect to the cervid from which the cervid by-product was collected, animal identification, including the official identification number, with respect to the cervid that received the cervid by-product, date of sale, the CWD status of the source premises, and both buyer and seller name, address and telephone number. If a donor animal is from outside this Commonwealth, records of negative Tuberculosis and Brucellosis testing shall also be maintained. Records shall demonstrate that semen, embryos, urine and other cervid by-products from CWD-positive, CWD-suspect, CWD-exposed, and CWD quarantined herds have been destroyed.

r. *Intrastate Movement of Enrolled Cervids.* Farmed or captive CWD-susceptible cervids that are enrolled under the Herd Certification Program may be moved intrastate only if all of the following requirements are fulfilled:

i. The cervid shall only be sold, lent, leased, consigned, exchanged, bartered, gifted, boarded, moved including for breeding purposes, given, harvested or otherwise transferred to a person or entity that is currently enrolled in either the CWD herd certification or CWD herd monitoring program established by this General Quarantine Order.

ii. The identification requirements delineated in Subsection 9.j. (related to identification of subject animals) of this General Quarantine Order are followed and obeyed.

iii. The movement is properly and fully recorded in a manner that meets all of the requirements established under Subsection 9.k. (related to ongoing annual recordkeeping requirements) of this General Quarantine Order.

iv. The movement is properly and fully recorded in a manner that meets all of the requirements established under Subsection 9.l. (related to ongoing movement of cervids recordkeeping and reporting requirements) of this General Quarantine Order.

v. The herd addition requirements established under Subsection 9.p. (related to additions to the herd) of this General Quarantine Order are followed and obeyed.

vi. All other applicable intrastate movement requirements established by the Domestic Animal Law, its attendant regulations or an order of the Department are followed and obeyed.

s. *Bills of Sale.* All program participants shall create and have in their possession and shall keep as a part of their records for a period of five (5) years a bill of sale for each cervid purchased or sold. The bill of sale shall have information necessary to comply with the recordkeeping provisions of Subsection 9.l.vi., vii., viii. ix. and x. (related to ongoing movement of cervids recordkeeping and reporting requirements). For each cervid transferred by a means other than sale, including barter, lease, loan, exchange or otherwise, a written document of the transaction setting forth the type of transfer and the information required in the Bill of Sale shall be created. Such document shall be maintained as a part of the program participants file for a period of five (5) years. All documents required by this subsection shall be made available to the Department, its employees or agents, upon request.

t. *Changes of Status or Change of Program for Non-Compliance.* If a herd is enrolled in the CWD Herd Certification Program, and the program participant fails to meet the applicable requirements of the voluntary Herd Certification Program as described in this General Quarantine Order or the enrolled herd is not maintained in accordance with the applicable requirements of this General Quarantine Order, the Department may, as it determines is appropriate and for reasons more specifically set forth in the Herd Certification Program provisions of this General Quarantine Order, change the herd certification status of the enrolled herd to a lower status, or remove the herd from the voluntary CWD Herd Certification Program and enroll it under the mandatory CWD Herd Monitoring Program. These actions may be taken for violations such as failure to meet applicable mandatory testing requirements, animal identification requirements, reporting requirements, recordkeeping requirements, herd addition requirements, interstate or intrastate movement requirements or any other requirements imposed by this General Quarantine Order. Herd Certification Program participants found in violation of this Order shall be subject to imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

10. CWD Herd Monitoring Program.

a. *Program established.* The Chronic Wasting Disease Herd Monitoring Program (Herd Monitoring Program) as established by the August 4, 2006, General Quarantine Order; Chronic Wasting Disease Program (36 Pa.B. 4612 (August 19, 2006) described in Section 2 (related to February 4, 2011 general quarantine order; chronic wasting disease program) and continued by the February 4, 2011, General Quarantine Order; Chronic Wasting Disease Program (41 Pa.B. 727 (February 4, 2011)), as the Chronic Wasting Disease Herd Monitoring Program (Herd Monitoring Program), is continued as otherwise modified by this Order in the manner established herein.

b. *Mandatory Program.* Enrollment in the CWD Herd Monitoring Program is mandatory, if not participating in the voluntary CWD Herd Certification Program, for those that own CWD-susceptible species. The CWD Herd Monitoring Program establishes criteria which are less stringent than those required by the CWD Herd Certification Program. Failure to enroll in the mandatory CWD Herd Monitoring Program or failure to comply with the criteria established in this General Quarantine Order may result in the imposition of penalties, such as criminal and civil penalties, injunctive, civil and equitable relief, as is allowed under the Domestic Animal Law (3 Pa.C.S.A. § 2301 et seq.).

c. *Previously Enrolled Herds.* The status of herds enrolled in the CWD Herd Monitoring Program under the February 4, 2011 Order of General Quarantine which are in compliance with that Order as of the effective date of this General Quarantine Order will maintain their existing status under this Order of General Quarantine if they elect to enroll in and agree to comply with the provisions of the CWD Herd Monitoring Program established under this Order of General Quarantine.

d. *Duty to Report Suspects and Dead Cervids and Dead Cervids found in an advanced state of decomposition.* The program participant, the owner of a herd of farmed or captive CWD-susceptible cervids and any caretaker of that herd shall immediately report any suspect cervid, dead cervid or dead cervid found in an advanced state of decomposition as set forth herein. Failure to comply with any of the provisions of this subsection including failure to report a suspect cervid, the death of a cervid within the time periods set forth herein or the discarding, removal or disposal of carcasses, parts, offal or tissues in a manner which is inconsistent with the provisions of this subsection or without the required verifications shall constitute a violation of this General Quarantine Order.

i. *Suspect Cervid*—Any cervid that shows signs that are consistent with CWD (such as staggering, drooling, wasting or unusual behavior) shall be immediately reported to the designated regional office of the Bureau of Animal Health in the Pennsylvania Department of Agriculture. The suspect cervid shall not be removed from the premises of the program participant until such time as the Department has been able to assess the animal and issue an order or guidance with regard to the holding, harvesting, testing and removal of such animal. Failure to immediately report a suspect cervid or abide by the removal provisions of this section shall constitute a violation of this General Quarantine Order.

ii. *Dead Cervid*—Upon the discovery of any dead farmed or captive CWD-susceptible cervid aged 12 months or older, the program participant, owner or caretaker shall take the following steps and comport with the following protocols:

A. Record the death and include the animal as part of the Ongoing Annual Recordkeeping Requirements, established by Subsection 10.k. of this Order of General Quarantine.

B. Have the dead cervid tested. The entire carcass, head or tissue samples from the carcass shall be transported for testing in accordance with the requirements of Subsections 10.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspect) or 10.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids), as applicable, of this General Quarantine Order.

iii. *Dead cervid found in an advanced state of decomposition*—Upon the discovery of any dead farmed or captive CWD-susceptible cervid aged 12 months or older in an advanced state of decomposition, the program participant, owner or caretaker shall report this death to the designated regional office of the Department within 48 hours. The program participant, owner or caretaker shall take the following steps and comport with the following protocols:

A. The dead cervid, including all parts and offal, shall not be removed from the premises of the program participant, except that the entire carcass or head of the carcass may be transported for testing as set forth in Subsection

10.f.i. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspect) of this General Quarantine Order or tissue samples may be collected and sent for testing as set forth at Subsection 10.f.ii. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspect) of this General Quarantine Order.

B. Where only the head or tissue samples are sent for testing, the carcass, parts and offal of the dead cervid shall not be removed from the premises of the program participant until test results have been received or a determination that the carcass is untestable and shall only be disposed of in a manner approved by and set forth in writing by the Department.

C. Dead cervid carcasses considered to be untestable by the program participant or owner shall be verified as such by a Department or USDA, APHIS representative prior to removal or disposal of such carcass, parts and offal. The Department or USDA, APHIS representative may determine that the entire carcass shall be collected and moved directly to a laboratory for collection and potential testing.

iv. Failure to abide by the requirements of this Subsection d. (related to duty to report suspects and dead cervids and dead cervids found in an advanced state of decomposition) shall be a violation of this General Quarantine Order and may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

e. *Mandatory Testing.* One-hundred percent of all mortalities, due to any cause, shall be tested. The mandatory testing requirements established herein shall become effective upon enrollment and shall apply to all cervids regardless of the herd of origin. A program participant with a herd that is enrolled in the Herd Monitoring Program shall be responsible to ensure that a farmed or captive CWD-susceptible cervid is tested in accordance with Subsections 10.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspect) or 10.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids), as applicable, if any of the following occur:

i. The cervid shows signs (such as staggering, drooling, wasting or unusual behavior) that are consistent with CWD and the cervid dies or is killed.

ii. The cervid is 12 months of age or older and is sent to a slaughter facility.

iii. The cervid is 12 months of age or older and dies for any reason (including accident, natural causes, slaughter, harvesting, hunting, culling or any other cause).

f. *Mandatory Testing for Farmed or Captive CWD-Susceptible Cervids.* If a dead farmed or captive CWD-susceptible cervid is required to be tested because it showed signs (such as staggering, drooling, wasting, or unusual behavior) that are consistent with CWD before it died or was killed, as described in Subsection 10.e.i. (related to mandatory testing), it shall be tested according to either of the following procedures:

i. A person shall immediately notify the Department of the dead CWD-susceptible cervid and do the following:

A. Collect either the entire carcass of the cervid or the entire head of the cervid with official identification devices attached in situ.

B. Deliver the carcass or head with official identification devices attached in situ for CWD testing. The properly completed chain of custody forms and sample submission forms required under Subsection 10.i. (related to chain of custody of samples; submission of samples) of this General Quarantine Order shall accompany the carcass or head. The carcass or head shall bear a proper form of identification and be delivered within 72 hours of the cervid's death to either a Department laboratory, or to a laboratory that has been approved, in advance, by the Department or USDA, or both, to perform CWD testing. Results of samples submitted without the proper and required official identification or the properly completed chain of custody forms and sample submission forms may not be recognized by the Department and shall be considered a violation of this General Quarantine Order. Any such violation may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

ii. As an alternative to the CWD testing procedure described in paragraph (i), the following procedure shall be followed:

A. Tissue samples shall be collected by one of the following:

I. A USDA, APHIS Category II accredited practitioner of veterinary medicine.

II. An authorized State official. A Department-certified CWD Sampling Technician does not meet the requirements of this subparagraph.

III. An authorized Federal official.

B. Tissue samples shall be collected and preserved within 72 hours of the cervid's death.

C. Tissues samples shall consist of the obex and the medial retropharyngeal lymph nodes preserved in formalin; and in a separate container that does not contain formalin or any other preservative, a small portion of the ear or other skin that is attached to the official identification of the subject cervid.

D. The tissue samples shall be delivered within 72 hours of the cervid's death to the Department or to a laboratory that has been approved in advance by the Department or USDA, or both, for CWD testing. It is the owner's responsibility to report the death within the time frame that allows for collection and preservation of the tissue samples within 72 hours of the cervid's death as required by Subsection B. above and protect the carcass from further degradation until tissue samples can be collected.

E. Properly completed chain of custody forms and Sample Submission Forms as required under Subsection 10.i. (related to chain of custody of samples: submission of samples) of the General Quarantine Order shall accompany the tissue samples.

g. *Testing Protocol for Other Farmed or Captive CWD-Susceptible Cervids.* One-hundred percent of all mortalities, due to any cause, shall be tested. If a farmed or captive CWD-susceptible cervid does not exhibit signs (as described in Subsection 10.d.i. (related to duty to report suspects and dead cervids and dead cervids found in an advanced state of decomposition)) that are consistent with CWD, and is required to be tested because it is 12 months of age or older and was either sent to a slaughter facility or died for any reason, as described in Subsections 10.e.ii. and 10.e.iii. (related to mandatory testing), the Depart-

ment shall be notified by the program participant, who shall send the Department records setting forth the official identification of each farmed or captive CWD-susceptible cervid that was sent to slaughter or died for any reason set forth in Subsection 10.e.ii. and 10.e.iii. (related to mandatory testing), along with the name and address of the slaughter facility where each animal was slaughtered or the name and address of the place where the animal died or was harvested and the cause of death. In such cases, each farmed or captive CWD-susceptible cervid shall be tested according to the following procedures:

i. Tissue samples shall be collected by one of the following:

A. A USDA, APHIS Category II accredited practitioner of veterinary medicine.

B. An authorized State official.

C. An authorized Federal official.

D. A Department-certified CWD Sampling Technician.

ii. Tissue samples shall be collected and preserved within 72 hours of the cervid's death.

iii. Tissues samples shall consist of the obex and the medial retropharyngeal lymph nodes preserved in formalin; and in a separate container that does not contain formalin or any other preservative, a small portion of the ear or other skin that is attached to the official identification of the subject cervid.

iv. Properly completed chain of custody forms and sample submission forms as required under Section 10.i. (related to chain of custody samples; submission of samples) of this General Quarantine Order shall accompany the tissue samples.

v. The tissue samples shall, within 30 days of collection, be delivered to the Department for testing, or to a laboratory that has been approved in advance by the Department or USDA, or both, to perform CWD testing.

vi. As an alternative to the testing protocol described in paragraph, i., ii., iii., iv., and v. of this Subsection 10.g. (related to testing protocol for other farmed or captive CWD-susceptible cervids) the following protocols shall be followed:

A. Within 72 hours of the cervid's death, collect and deliver either the entire carcass of the cervid with official identification devices attached in situ or the entire head of the cervid with official identification devices attached in situ to a Department laboratory for CWD testing, or to a laboratory that has been approved in advance by the Department or USDA, or both, to perform CWD testing.

B. The program participant/herd owner shall be responsible for properly identifying the cervid carcass or head and delivering it in a manner that does not destroy or make the animal untestable.

C. The person who collects and the person who delivers the carcass or head need not be an approved tissue collector as described in Subsection 10.g.i. (related to testing protocol for other farmed or captive CWD-susceptible cervids).

D. The name, address, and signature of the person collecting, or the person in possession of the carcass, and the person delivering the carcass or head shall be set forth in writing and such writing shall be attached to the chain of custody forms and sample submission forms required by this General Quarantine Order.

E. The properly completed chain of custody forms and sample submission forms required under Subsection 10.i. (related to chain of custody of samples; submission of samples) of this General Quarantine Order shall accompany the carcass or head.

F. Results of samples submitted without the proper and required official identification or the properly completed chain of custody forms and sample submission forms may not be recognized by the Department and shall be considered a violation of this General Quarantine Order. Any such violation may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

h. Impact of Late Notice, Delivery or Untestable Samples.

i. It is the program participant/herd owner's responsibility to assure good quality tissue is submitted for testing and ensure that all required samples are collected properly and in a timely manner as required by Sections 10.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) and 10.g. (related to testing protocol for other farmed or captive CWD susceptible cervids) of this General Quarantine Order. All required tissues shall be collected regardless of sample condition (e.g. autolyzed or frozen). In cases where sample quality is poor the Department shall be notified and a determination made on samples to be submitted.

ii. Failure to abide by the requirements of this section shall be a violation of this General Quarantine Order and may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386). Where the history of sample collections and submissions from the program participant/herd owner demonstrates a pattern of lack of submission of required samples, untimely submission of samples or poor performance including incorrect tissues submitted, poor tissue quality or non-compliance with the provisions and requirements of Subsections 10.e. (related to mandatory testing), 10.f. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) and 10.g. (related to testing protocol for other farmed or captive CWD susceptible cervids) of this General Quarantine Order, the Department may seek such additional remedies, including injunctive relief as is allowed under the Domestic Animal Law. Adherence to the 72-hour deadlines established in this Section 10.f.i.B., 10.f.ii.B., 10.f.ii.D. (related to mandatory testing for farmed or captive CWD-susceptible cervids designated as CWD suspects) and 10.g.ii. and 10.g.vi.A. (related to testing protocol for other farmed or captive CWD susceptible cervids) will be considered a mitigating factor by the Department in any penalty assessed.

i. Chain of Custody of Samples; Submission of Samples. A person may obtain chain of custody forms and sample submission forms from the Department by submitting a written request for such forms or by downloading the forms from the Department's website (www.agriculture.state.pa.us).

i. A person submitting a sample (whether tissue samples, an entire carcass or an entire head) for testing under the Herd Monitoring Program shall complete a chain of custody form and a sample submission form, and shall submit those forms along with the sample that is delivered for testing.

ii. The chain of custody form shall clearly identify the premises, including the address of the premises and the name and signature of the herd owner, on which the cervid resided and from which it was taken, official identification on the cervid, the date of sampling, and the persons (in chronological order) who handled the sample from the point it was taken until it is delivered to the Department, or a Department-approved laboratory, or a USDA-approved laboratory for CWD testing.

iii. The chain of custody form shall bear the signature, printed name and other identifying information with respect to each person who handles the sample.

iv. The completed chain of custody form and the sample submission form shall be provided to a responsible person at the laboratory to which the sample is delivered.

j. Identification of Subject Animals. Each farmed or captive CWD-susceptible cervid that is within a herd enrolled in the Herd Monitoring Program shall have at least one form of the Department and/or USDA, APHIS-approved official animal identification attached if it is transported from the enrolled premises or is tested for CWD as required by Subsection 10.e. (related to mandatory testing) of this General Quarantine Order. In accordance with 9 CFR Parts 71, 77, 78, and 86 "Traceability for Livestock Moving Interstate", official identification shall not be removed from animals. Identification devices shall be submitted with tissues or remain in place when heads or carcasses are submitted for testing. Forms of identification that are Department-approved or USDA, APHIS-approved, or both, are considered "official" forms of identification for purposes of this provision and include the following:

i. A legible and unique tattoo approved by the Department or USDA, APHIS.

ii. A USDA, APHIS-issued ear tag, bearing a unique number provided by USDA, APHIS that utilizes one of the following numbering systems:

A. The National Uniform Eartagging System (NUES).

B. The Animal Identification Number (AIN) bearing 15 digits starting with '840.'

C. The premises-based numbering system using a Premises Identification Number (PIN) in conjunction with a livestock production numbering system.

D. Any other numbering system approved by USDA, APHIS and the state veterinarian.

iii. A Department-issued metal ear tag, bearing a unique number provided by the Department.

iv. An electronic implant device, such as a microchip, that utilizes a nationally unique 15 digit animal identification number starting with '840' provided an appropriate reader is immediately available wherever the animal is located.

v. Any other identification device approved by the Department and USDA, APHIS.

k. Ongoing Annual Recordkeeping Requirements. A program participant with a herd that is enrolled in the Herd Monitoring Program shall maintain up-to-date herd inventory records with respect to the subject herd for a period of 5 years, shall make these records available for inspection by the Department upon request, and shall mail or deliver a copy of these records to the Department no later than one month after each anniversary of the "date of enrollment" in the Herd Monitoring Program. These records shall be kept and filed on forms developed, approved and provided by the Department. The forms will

be made available on the Department's website (www.agriculture.state.pa.us) and will be available in paper form for those program participants that do not have internet access. The program participant shall be required to complete all fields on the recordkeeping forms and incomplete forms shall be returned to the program participant with a deadline for completion. These records shall include the following information with respect to each subject cervid:

- i. Herd size (estimate if exact size is not known).
- ii. Documentation of test results indicating a testing level of no less than 100% of cervids that have died from any cause, or were slaughtered or harvested from anniversary date of the enrollment in the Herd Monitoring Program or from the previous inspection whichever is more recent.
- iii. For each CWD-susceptible cervid with identification that is enrolled in the Herd Monitoring Program:
 - A. The unique number or identification information from the tattoo, tag, electronic implant device or other identification device described in Subsection 10.j. (related to identification of subject animals).
 - B. The sex and species of the subject cervid.
 - C. The date of birth of the subject cervid.
 - iv. The date of departure and the destination of any subject cervid removed from the herd since the last provided inventory. Such records shall include all of the following information:
 - A. The contact information (name, complete address, telephone number and when available, email address) of the person to whom the cervid was sold, lent, leased, consigned, exchanged, bartered, gifted, boarded, moved including for breeding purposes, given, harvested or otherwise transferred.
 - B. The contact information (name, complete address, telephone number and where applicable, Pennsylvania Dealer/Hauler or Cervidae Livestock Operations license number) or both where both types of licenses are held of any dealer, hauler or broker or Pennsylvania cervid livestock operation utilized in such transaction.
 - C. The date of death and cause of death (if known) of any subject cervid that dies and the CWD test result for that animal.
 - v. If the subject cervid is new to the herd since the "date of enrollment," or previous annual inventory report, designation of whether the subject was born to the herd or acquired from outside the herd. If the subject cervid was acquired from outside the herd the following information shall be provided:
 - A. The source of the subject cervid including contact information (name, complete address, telephone number and when available, email address) of the source herd.
 - B. The date of acquisition.
 - vi. Where a Pennsylvania dealer, hauler, broker or Pennsylvania cervid livestock operation was involved in the transaction, the name, complete address, telephone number and Pennsylvania Dealer/Hauler or Cervidae Livestock Operations license number or both where both types of licenses are held of such dealer, hauler, broker or Pennsylvania cervid livestock operation.

1. *Ongoing Movement of Cervids Recordkeeping and Reporting Requirements.* A program participant shall report any and all movements of CWD susceptible species of cervids onto and off of the premises (i.e. additions and

deletions to the herd) if the transaction was with a Herd Certification Program participating herd. Such reports shall meet the requirements of Section 9.1. (related to CWD Herd Certification Program, ongoing movement of cervids recordkeeping and reporting requirements).

m. *Ongoing Reporting Requirement regarding Theft or Escape of CWD-Susceptible Cervids from an Enrolled Herd or Wild CWD-Susceptible Cervids entering an Enrolled Herd.*

i. Theft or escape—A program participant shall report to the designated Department's regional office within 48 hours the removal of any farmed or captive CWD-susceptible cervid from the enrolled herd through theft or escape. The program participant shall file a signed, written report of theft or escape of a cervid with the designated Department's regional office within ten (10) business days of the theft or escape either by mail, fax or email. The signed written report shall set forth the date of such theft or escape, the cause of such escape or perpetrator of such theft if known, a copy of the police report if theft was involved and shall clearly identify each cervid, including setting forth the official identification of each cervid, that escaped or was stolen.

ii. Breach by a wild CWD susceptible cervid—A program participant shall report to the designated regional office within 48 hours if a wild CWD-susceptible cervid or any other CWD-susceptible cervid gains entrance into the enrolled herd. The program participant shall file a signed, written report with the designated Department's regional office within ten (10) business days of the incident. Such report shall be filed either by mail, fax or email. The signed written report shall set forth the date on which the wild CWD-susceptible cervid or any other CWD-susceptible cervid gained entrance and any action taken by the program participant, including the date on which the wild CWD susceptible cervid or any other CWD susceptible cervid was removed from the enclosure, the method of removal, the cause of incident, such as break in the fence or a gate left open and any action taken to prevent the ingress of wild CWD susceptible cervids or any other CWD susceptible cervid from occurring again.

iii. Exception—This reporting requirement is not applicable to additions to a herd as described in Subsection 10.p. (related to additions to the herd)

iv. Failure to report—Failure to report theft, escapes, or ingress of wild cervids within prescribed deadlines shall be a violation of this General Quarantine Order and may result in imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

n. *Inspections.* The Department or agents acting under authority and direction of the Department may, at its discretion, inspect the premises upon which an enrolled herd of farmed or captive CWD-susceptible cervids is maintained to assure compliance with this General Quarantine Order or in response to complaints. The Department may conduct additional inspections at reasonable times.

i. General scope—Inspections may include records review, checking individual animal identification, whole herd inventory with individual animal identification, inspecting fences and other measures within the scope of authority of the Department and necessary to determine compliance with the Herd Monitoring Program. A program participant shall cooperate with the Department, and shall facilitate the inspection by making premises, animals and records available to the Department without delay.

ii. Inspection noncompliance—Failure to comply shall be a violation of this General Quarantine Order and may result in imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

o. *Fencing.* A herd of farmed or captive CWD-susceptible cervids that is enrolled under the Herd Monitoring Program shall be maintained so as to prevent ingress and egress of cervids. Fence height is to be a minimum of 8 feet, although a 10-foot minimum height is recommended.

p. *Additions to the Herd.* The following requirements apply regardless of the period of time the cervid is in the herd (Example: when a buck is moved to an enrolled herd for breeding season). The addition of a CWD susceptible cervid to a herd enrolled in the Herd Monitoring Program shall be done in accordance with all of the following requirements:

i. The addition of each cervid shall be documented consistent with and in the manner required by Subsection 10.l. (related to ongoing movement of cervids recordkeeping and reporting requirements) and shall be set forth in the annual report required by Subsection 10.k. (related to ongoing annual recordkeeping requirements) of this General Quarantine Order.

ii. Cervids sourced from out-of-state herds must originate from fully certified herds as required by 9 CFR Part 81 of the Code of Federal Regulations.

iii. A violation of any of the provisions of this Subsection 10.p. (related to additions to the herd) may result in the imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

q. *Usage of semen, embryos, germ plasm, urine, and other cervid by-products.* Semen, embryos, germ plasm, urine and other cervid by-products may be used in a herd of farmed or captive CWD-susceptible cervids that is enrolled under the Herd Monitoring Program if the following are met:

i. The donor animal is from a herd enrolled in the CWD Herd Monitoring Program, CWD Herd Certification Program, or an equivalent USDA, APHIS-approved out-of-state Herd Certification Program. The source herd shall not have a CWD-positive animal, CWD-suspect animal, or CWD-exposed animal at time of collection of the cervid by-product. The source herd shall not have CWD identified within the 60 months prior to collection.

ii. Out-of-state donor animals shall meet the same Tuberculosis and Brucellosis testing requirements as would be applicable if the donor animal, itself, was being imported.

iii. Records shall be maintained for 5 years from the date of receipt by the seller and buyer including (as applicable) collection date, animal identification including the official identification if available, with respect to the cervid from which the cervid by-product was collected, animal identification including the official identification if available, with respect to the cervid that received the cervid by-product, date of sale, the CWD status of the source premises, and both buyer and seller name, address and telephone number. If a donor animal is from outside the Commonwealth, records of negative Tuberculosis and Brucellosis testing shall also be maintained. Records shall demonstrate that semen, embryos, urine and other cervid by-products from CWD-positive, CWD-suspect, CWD-exposed and CWD-quarantined herds have been destroyed.

r. *Limitations on Intrastate Movement of Enrolled Cervids.* Farmed or captive CWD-susceptible cervids that are enrolled under the Herd Monitoring Program may be transported intrastate to destinations including hunting preserves, slaughter facilities, other Herd Monitoring Program participating herds or new premises obtaining cervids for the first time; only if all of the following requirements are fulfilled:

i. The cervid shall only be sold, lent, leased, consigned, exchanged, bartered, gifted, boarded, moved including for breeding purposes, given, harvested or otherwise transferred to a person or entity that is currently enrolled in either the Herd Certification Program or the Herd Monitoring Program established by this General Quarantine Order.

ii. The identification requirements delineated in Subsection 10.j. (related to identification of subject animals) of this General Quarantine Order are followed and obeyed.

iii. The movement is properly and fully recorded in a manner that meets all of the requirements established under Subsection 10.k. (related to ongoing annual recordkeeping requirements) of this General Quarantine Order.

iv. The movement is properly and fully recorded in a manner that meets all of the requirements established under Subsection 10.l. (related to ongoing movement of cervids recordkeeping and reporting requirements) of this General Quarantine Order.

v. The herd addition requirements established under Subsection 10.p. (related to additions to the herd) of this General Quarantine Order are followed and obeyed.

vi. All other applicable intrastate movement requirements established by the Domestic Animal Law, its attendant regulations or an order of the Department are followed and obeyed.

s. *Bills of Sale.* All program participants shall create and have in their possession and shall keep as a part of their records for a period of five (5) years a bill of sale for each cervid purchased or sold. The bill of sale shall have information necessary to comply with the recordkeeping provisions of Subsection 9.l. (related to CWD herd certification program, ongoing movement of cervids recordkeeping and reporting requirements). For each cervid transferred by a means other than sale, including barter, lease, loan, exchange or otherwise, a written document of the transaction setting forth the type of transfer and the information required in the Bill of Sale shall be created. Such document shall be maintained as a part of the program participants file for a period of five (5) years. All documents required by this subsection shall be made available to the Department, its employees or agents, upon request.

t. *Noncompliance.* If a herd is enrolled in the mandatory CWD Herd Monitoring Program, and the program participant fails to meet the applicable requirements of this Order or the enrolled herd is not maintained in accordance with the applicable requirements of this Order, the Department may, as it determines is appropriate, take enforcement action. This action may be taken for violations such as failure to meet applicable mandatory testing requirements, animal identification requirements, reporting requirements, recordkeeping requirements or any other requirements imposed by this Order. Herd Monitoring Program participants found in violation of this Order shall be subject to imposition of such criminal

and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

11. *Participation in the Herd Certification Program or Herd Monitoring Program.* Any contrary provision of this Order notwithstanding, persons may voluntarily enroll farmed or captive cervids that are not CWD-susceptible cervids (example: reindeer) in either the Herd Certification Program or the Herd Monitoring Program.

12. *Violations/Penalties.* Any person violating the requirements of this Order shall be subject to imposition of such criminal and civil penalties and remedies as allowed under the Domestic Animal Law (3 Pa.C.S.A. §§ 2380.8, 2383 and 2386).

13. *No Restriction on Further Action by the Department.* This Order shall not be construed as limiting the Department's authority to establish additional quarantine or testing requirements on imported cervids.

14. *Effective Date.* This Order is immediately effective upon publication in the *Pennsylvania Bulletin*, and shall remain in effect unless rescinded or modified by subsequent order.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of November 2013

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of November, 2013, is 6%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 3.38 to which was added 2.50 percentage points for a

total of 5.88 that by law is rounded off to the nearest quarter at 6%.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to

use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a

notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

14-00002O: Graymont (PA), Inc. (194 Match Factory Place, Bellefonte, PA 16823) an application for plan approval for replacement of the burner in the rotary dryer associated with the pulverized limestone system (PLS) located in Spring Township, **Centre County** at the Pleasant Gap plant. The replacement burner proposal will not significantly affect the level of potential to emit from the rotary dryer. The new burner unlike the old burner will be capable of firing natural gas, in addition to the previously authorized No. 2 fuel oil. The combustion of the natural gas typically results in a decrease level of potential to emit compared to No. 2 fuel oil. The increased level of potential to emit associated with firing the new natural gas fuel is estimated be 0.01 tpy and 0.08 tpy for nitrous oxide (N₂O) and methane emissions, respectively. On a CO₂e basis, the level of potential to emit for GHG emissions from the new burner is less than the old burner when the new burner fires natural gas. The level of potential to emit for the other NSR regulated pollutants like NO_x (expressed as NO₂), SO_x (expressed as SO₂), carbon monoxide (CO), PM₁₀, PM_{2.5} and lead are not reportedly going to increase over the existing level of potential to emit from the old burner. This proposal is for replacement of burner only, and the level of potential to emit from the new burner will not exceed the level of potential to emit from the old burner except as noted above. The Department has established based on the level of potential to emit from the new burner best available technology (BAT) for the multi-fuel burner replacement proposal as follows: low-NO_x burner installation as well as operate and maintain the new low-NO_x burner consistent with good combustion practices. The Department's existing BAT requirements for the old burner satisfy BAT for the new burner. The new multi-fuel rotary dryer burner installation proposal is being performed at a major stationary source and a Title V facility.

Based on the above, the Department intends to issue a plan approval in order to process the above referenced application. The facility will continue to be a major (Title V) facility and a major stationary source for New Source Review (NSR) including nonattainment NSR for NO_x emissions. The facility does not have the potential to emit major source levels (equal to or greater than 50 tpy) for volatile organic compounds (VOC). Centre County is designated as a moderate nonattainment area because Pennsylvania is included in the northeast Ozone Transport Region pursuant to the Clean Air Act. If the Department determines that the sources are operating in compliance with all plan approval conditions, the conditions established in the plan approval will be incorporated into Title V Operating Permit 14-00002 via an administrative amendment.

The following are the conditions that the Department proposes to place in the plan approval to ensure compliance with all applicable air quality regulatory requirements:

1. Pursuant to 25 Pa. Code § 123.1, no person may permit the emission into the outdoor atmosphere of fugitive air contaminants from a source other than the following:

- Construction or demolition of buildings or structures;

- Clearing of land;
- Stockpiling of materials;
- Open burning operations.

2. Pursuant to the best available technology provisions in 25 Pa. Code §§ 127.1 and 127.12, the particulate matter concentration of the exhausts of the rotary dryer fabric collector (Control Device ID C310R) and the process fabric collector (Control Device ID C310P) shall not exceed 0.01 grain per dry standard cubic foot.

3. Pursuant to the best available technology provisions in 25 Pa. * The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation-Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Stoltz Realty Partnership is proposing to add a third dealership to their existing facility along Beaver Drive in DuBois. The expansion will be between the existing dealerships and will require a portion of the wetland onsite to be filled. The remaining wetland will not be filled but will be utilized for temporary stormwater detention to meet the City's ordinance. The function and value of the remaining wetland is proposed to remain the same; however, since it will be used for stormwater management, the impact must be considered permanent.

Compensatory mitigation for wetlands on this parcel has already occurred on the neighboring parcel owned by the City of DuBois. The existing and mitigation wetlands are hydrologically connected to Sandy Lick Creek, which has a Chapter 93 designation of Trout Stocking (TSF). As proposed, this project will not have a direct impact on Sandy Lick Creek.

EA08-007. Bradford County Conservation District, 200 Lake Road, Suite E, Towanda, PA 18848. Camp Creek Stream Restoration Project in Wyalusing Township, **Bradford County**.

This project proposes to improve bank stability and sediment transport of a 275-foot reach of Camp Creek. Flooding at this location has caused excessive deposition, which has been causing significant bank erosion. The deposition will be rearranged to take pressure off the

eroding bank. This project proposes to permanently impact 275 linear feet of Camp Creek, which is classified as a Warm Water Fishery.

Lawrence Township in association with the Clearfield County Conservation District and the Montgomery Run Watershed Association is proposing to construct a passive treatment system that will abate an abandoned mine drainage discharge (Mon 30) in the headwaters of an unnamed tributary to Montgomery Creek. As proposed, the system will capture the seepage in an equalization basin then pass through a vertical flow wetland, settling basin and polishing wetland. It will require 1,200 tons of limestone and should remove approximately 17 lbs. /day of acidity, 1 lb. /day of iron and 1 lb. /day of aluminum.

Mitigation for these impacts is a combination of the creation of a polishing wetland adjacent to the treatment system and downstream water quality improvement in the unnamed tributary to Montgomery Creek. Under current conditions, there is very limited aquatic life in the unnamed tributary and wetland due to acid mine drainage.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Notice of Proposed Interim Response

Bridge Road TCE Site, Skippack Township, Montgomery County.

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.102—6020.1303), is proposing an interim response at the Bridge Road Site, Skippack Township, Montgomery County, Pennsylvania.

The Department has been conducting an environmental investigation of the Site. This investigation includes the sampling of private drinking water supply wells located along portions of Bridge Road and Skippack Pike. To date, sampling has revealed that eight properties have levels of Trichloroethene (TCE) that exceed the respective Safe Drinking Water Act Maximum Contaminant Levels (MCLs).

To address the release and threat of release of hazardous substances at the Site, and corresponding threats to human health and the environment, the Department proposes to implement a response action at the Site under Section 501(a) of HSCA, 35 P. S. § 6020.501(a). The Department proposes the installation of point-of-entry

treatment systems with restrictions on the use of groundwater at homes with TCE levels above MCLs. The Department proposes to maintain the treatment systems for a period of one year. This proposed alternative complies with Applicable, Relevant and Appropriate Requirements (ARARs) and is feasible and cost-effective. Other possible alternatives include no action, supplying bottled water, and the extension and connection of a public waterline to affected residences. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to

characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995
PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A.

§§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Close of the Public Comment Period</i>	<i>IRRC Comments Issued</i>
2-159	Department of Agriculture Preferential Assessment of Farmland and Forest Land under the Clean and Green Act 43 Pa.B. 4344 (August 3, 2013)	9/3/13	10/3/13

**Department of Agriculture
Regulation #2-159 (IRRC #3015)**

**Preferential Assessment of Farmland and Forest
Land under the Clean and Green Act**

October 3, 2013

We submit for your consideration the following comments on the proposed rulemaking published in the August 3, 2013 *Pennsylvania Bulletin*. Our comments are

based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Department of Agriculture (Department) to respond to all comments received from us or any other source.

1. Determining whether the regulation is in the public interest.

Section 5.2 of the RRA (71 P.S. § 745.5b) directs this Commission to determine whether a regulation is in the

public interest. When making this determination, the Commission considers criteria such as economic or fiscal impact and reasonableness. To make that determination, the Commission must analyze the text of the proposed regulation and the reasons for the new or amended language. The Commission also considers the information a promulgating agency is required to provide under § 745.5(a) in the Regulatory Analysis Form (RAF).

The Preamble included with the proposal only provides “a summary of some of the more significant provisions of the proposed regulation.” This summary does not provide an adequate description for all of the sections of the rulemaking and the rationale behind the language being added or deleted. Without this information, this Commission is unable to determine if the regulation is in the public interest. In the Preamble submitted with the final-form regulation, we ask the Department to provide more detailed information, including a description of the language proposed for each section of the regulation and why the language is being added or deleted.

In addition, some of the information contained in the RAF submitted with this rulemaking is not sufficient to allow this Commission to determine if the regulation is in the public interest. Specifically, the Department has failed to describe how the regulation compares to those of other states, and the Department has not included a citation to the relevant provisions of the federal definition of small business that were reviewed in the development of the rulemaking and an analysis of their applicability or inapplicability to the regulation. Without this information, we cannot determine if this proposed regulation is in the public interest. In the RAF submitted with the final-form regulation, the Department should provide a description of how the regulation compares to those of other states and how many small businesses will be affected.

2. Implementation procedures.

Several sections of this proposal, including the definitions of “agricultural reserve” and “agricultural use” and § 137b.12(3), are being promulgated to incorporate the “alternative energy” provisions of Act 88 of 2010. These sections of the rulemaking include a phrase similar to the following, “. . . if a majority of the energy annually generated is utilized on the tract.” A commentator has questioned how this provision will be monitored. In the Preamble to the final-form regulation, we ask the Department to explain how this provision will be implemented.

3. Section 137b.2. Definitions.—Consistency with Statute; Implementation procedures; Clarity.

Agritainment

The statutory definition of this term includes the term “hay maze,” but the proposed regulatory definition does not include that term. This may lead to inconsistent administration of the Clean and Green Program under the Pennsylvania Farmland and Forest Land Assessment Act of 1974 (Act). §§ 72 P. S. 5490.1—5490.13. We suggest that the regulatory definition be amended to include the term “hay maze.”

Change of Use

This definition contains a list of actions that are not considered a “change of use.” A commentator is concerned that the use of the term “sold” under Subsection (ii)(A) is too narrow and would not include conveyances other than sales. In addition, a commentator believes that the phrase “as long as the land continues in eligible use” lacks clarity. We ask the Department to explain how these

provisions are to be implemented. We note that similar language is found in the definition of “division by conveyance or other action of the owner.”

Outdoor recreation

Examples of “passive recreational use of land” are included in this definition under Subsection (i). This list of examples is not as broad as the activities listed under Subsection (ii)(B) as it pertains to the allowable use of motorized vehicles. In addition, some, but not all of the examples listed in Subsection (i) are included in the definition of “recreational activity.” Is it the intent of the Department for the definitions of “outdoor recreation” and “recreational activity” to be consistent with each other? If so, we recommend that the definition of “outdoor recreation” be amended to track the definition of “recreational activity.” In the alternative, the definition of “outdoor recreation” could be amended to include a specific reference to “recreational activity.”

4. Section 137b.12. Agricultural use.—Implementation procedures; Clarity.

Example 1 includes the following sentence: “The horses are occasionally pastured, bred and sold.” Inclusion of the word “occasionally” makes this example unclear and difficult to administer in a consistent manner. We recommend that it be deleted and replaced with a more definitive threshold.

5. Section 137b.51. Assessment procedures.—Consistency with the intent of the General Assembly; Implementation procedures.

The Department is adding Subsection (g), pertaining to valuation of farmstead land, to help implement Act 235 of 2004 and to clarify how farmstead land is to be treated under the Act. A commentator is concerned that this new language, and new language being added to §§ 137b.15(b) and 137b.51(c), does not expressly recognize the intent of §§ 3(g) and 4.2(d) of the Act. 72 P. S. §§ 5490.3(g) and 5490.4b(d). The commentator believes that the proposed regulation should recognize that the requirements for preferential assessment of farmstead land under the Act are not conditioned by enactment of an ordinance by the county commissioners. In the alternative, the commentator states that the rulemaking should expressly recognize the legal effect of the county’s enactment of an ordinance for farmstead land as expanding the scope of farmstead land within agricultural reserve or forest reserve areas to receive preferential assessment beyond what is already required under the Act. In the Preamble to the final-form regulation, we ask the Department to explain how the cited sections of the proposed regulation will be implemented and how these provisions are consistent with the Act.

6. Section 137b.72. Direct commercial sales of agriculturally related products and activities; rural enterprises incidental to the operational unit.—Clarity.

Subsection (b) pertains to roll-back taxes and status of preferential assessment. One commentator has asked if the half acre or less of enrolled land referenced in Paragraph (2) includes ingress, egress and parking areas. Another commentator has asked what is meant by the phrase “direct commercial sales.” We ask the Department to clarify in the final-form regulation how the half acre is to be calculated and what is meant by “direct commercial sales.”

7. Section 137b.73a. Gas, oil and coal bed methane.—Clarity.

Commentators have questioned the clarity of Examples 3 and 4 under Subsection (b). Specifically, they ask if the referenced 50% is a threshold that triggers the prohibition on imposing roll-back taxes. We suggest that these examples be clarified in the final-form regulation.

8. Section 137b.73b. Temporary leases for pipe storage yards.—Implementation procedures; Clarity.

This new section allows the owner of land enrolled in the Clean and Green Program to temporarily lease a portion of the land for pipe storage. A commentator has asked for guidance on the treatment of the land after the lease expires. Would the land that was leased continue to be assessed at fair market value after the expiration of the lease, or would it automatically revert to use value for taxing purposes? We ask the Department to include language in the final-form regulation that to address this situation.

9. Section 137b.81. General.—Consistency with the intent of the General Assembly; Implementation procedures; Clarity.

This section of the Department's regulations explains

how roll-back taxes are to be administered. A commentator is concerned with the new language that is proposed to be added to this section, specifically the commentator notes that the phrase "in accordance with applicable sections of the act" creates confusion relating to the legal effects of roll-back taxes and events that would require the payment of such taxes. We agree and ask the Department to clarify this provision.

The commentator also asserts that the remainder of the new language in this section is inconsistent with Section 6 (a.3) of the Act. 72 P.S. § 5490.6(a.3). As noted in our first comment regarding determining if the regulation is in the public interest, the Preamble does not explain why the Department is adding language to this section or the effect it will have on the regulated community. We ask the Department to provide a detailed explanation of why this language is being added and how it is consistent with the intent of the General Assembly and in the public interest.
